14. Whether AQAR was placed before statutory body ?	Yes

Name of Statutory Body	Meeting Date
Board of Management	30-Oct-2020

15. Whether NAAC/or any other accredited body(s) visited IQAC or interacted with it to assess the functioning ?	Yes
Date of Visit	21-Jan-2020
16. Whether institutional data submitted to AISHE:	Yes
Year of Submission	2020
Date of Submission	31-May-2020
17. Does the Institution have Management Information System ?	Yes
If yes, give a brief description and a list of modules currently operational (maximum 500 words)	The SIS/LMS provides information on schedules of classes, examinations and events, syllabus of courses, information about students and faculty, etc. It is being used by the students to communicate with each other, run opinion polls and post articles and news about the campus. The salient

features of the student information management system are presented below:

• It is based on a robust technology backend that connects different stakeholders in the campus and is so designed that it connects students, faculty, administration and parents. With the power to login from any place the SIS is a facility that reduces dependence on people and helps timely updating of information. • Faculty members are given individual logins to connect to the SIS. This login has several benefits. Faculty members can view the following on their respective SIS page: 1. Internal evaluation component 2. End semester evaluation 3. Internship details and assessment 4. Student feedback and rating – course wise / semester wise 5. Student mentoring 6. Student attendance 7. Course based resource links. 8. Grades display Program outcomes and course outcomes for all programs are stated and communicated to teachers and students and are available in the Student Information System (SIS/LMS). The students are provided with Student Handbook and wellstructured Course Handouts by the faculty members before attending the sessions. Students are required to go through the course outcomes mentioned in the course handout. It enables the faculty member to update student scores on different evaluation components, gives them a snapshot of student performance and has information on student attendance and a means to connect to his / her mentees. The students can view their attendance, marks, resource material including course handout by accessing through SIS. Parents also can view the performance of their wards on dimensions such as attendance, marks, etc. Given the dynamic nature of information needs which keeps adding up to the SIS page there is a need for faculty members to keep abreast with the changes. These gaps are usually bridged by way of training faculty members from time to time. The Academic team, Examination dept. and IT wing takes the initiative of designing the program and takes faculty members feedback on the problems they encounter in the use of SIS. The above apart student clubs have their own website.

It enables the faculty member to update student scores on different evaluation components, gives them a snapshot of student performance and has information on student attendance and a means to connect to his / her mentees. ? The students can view their attendance, marks, resource material including course handout by accessing the SIS through internet. ? Parents also can view the performance of their wards on dimensions such as attendance, marks, etc. Given the dynamic nature of information needs which keeps adding up to the SIS page there is a need for faculty members to keep abreast with the changes. These gaps are usually bridged by way of training faculty members from time to time. The Academic team, Examination dept. and IT wing takes the initiative of designing the program and takes faculty members feedback on the problems they encounter in the use of SIS. The above apart student clubs have their own website. They use the websites to announce the activities and events of the clubs,

competitions organized by them, get nominations for competitions, and announce results of competitions. After the event is over, students upload photographs of the events and put up a report about the event. Based on the feedback wherever feasible well-meaning measures are taken and an action taken report is prepared and placed before the higher authorities.

2.3.2 – Students mentoring system available in the institution? Give details. (maximum 500 words)

Mentorship is meant to be an individualized relationship between the students and faculty members, who show a genuine interest in the student's educational and career goals. Mentorship focuses not only on academic guidance, but also on a sustained nurturing of the students to equip them with the right knowledge, skills and attitudes required to succeed in a dynamic world. Every student at the time of registration is assigned a faculty

mentor, who is not teaching him or her in the ongoing semester. Eleven to Fifteen students are allotted to each faculty member in the beginning of the semester. The details of the student mentees are communicated through Student Information Management System (SIS) portal, which is available to the faculty on intranet. Faculty members are provided a detailed document on mentorship program clearly explaining the role and responsibilities of a mentor. Faculty Mentors would be – a) senior advisors, who can share their knowledge and experience, b) supporters, who can provide emotional and moral support, c) sounding boards, who lend their ears and improve clarity of thought and speech, d) guides, who provide information and career guidance and e) role models, whose life and work would illustrate the importance of ethical behavior in achieving personal success. Mentorship by these Faculty Members would enable students to • Stay focused on acquiring knowledge and skills, • Develop confidence and ability to network and collaborate, • Gain additional perspectives on their own discipline, specialization and personality, • Build courage and confidence to deal with difficult situations and • Improve awareness of the world around them, while staying grounded. A few important points to note in the Mentoring System are: • The contact details of the mentees and their parents/guardians will be provided to the mentors. Mentors can collect updated CVs from the Mentees. Attendance, Details of formal student activities, and Disciplinary and Academic records of these Mentees will be made available to the Mentors. • The contact details of the Mentors will be provided to the students as well as to the parents and the Mentors must find some time during office hours to meet Mentees at least once in a fortnight. • Mentors may specifically help their Mentees with information and guidance on generating and undergoing internship program. • A Mentorship Monitoring Committee consisting of all area coordinators will review the Mentorship Program on an on-going basis. • Mentors may identify weak students and suggest remedial measures on time. • Mentorship program is also expected to strengthen the foundation for the Syndicated Learning Initiative. • Faculty Mentors may also keep track of the mentees' performance in subsequent placement process and provide timely advice and help. • While Faculty Mentors have a moral responsibility for the performance of their students, mentees do not have any claim over any of the mentor's resources including time, and faculty are not liable for any act of omission or commission by the Mentees. • The university also 24/7 has Student Counselor, professionally trained.

The Deemed-to-be-University has a dedicated Administrative department headed by Director, Admin, that looks after the physical infrastructure like class rooms, administrative buildings, laboratories, sports complex and other physical assets including the services like water supply and electric supply. The Director Admin directly reports the Registrar. The Director is assisted by a Additional Registrar and Deputy Registrar and are assisted by dedicated engineers, technical staff and other support staff under the categories of civil, mechanical and electrical engineering. The administrative office functions based on set of well defined procedures are similar to the ones followed in government establishments like PWD. The administrative office looks after the provisioning and maintenance of furniture in the buildings, class rooms and laboratories, maintenance of Hostels, Canteens, and Cafeterias. Complaints on maintenance can be lodged electronically as well as manually. Usage of central facilities like seminar halls, auditorium and conference halls is centrally controlled by Director, Admin. Seminar halls attached with the departments are controlled by the respective departments. Purchase of equipment (other than computers) including program specific software and hardware and their maintenance in laboratories are carried out by the respective departments to which they belong and forwarded to the Registrar for providing the equipments. Optimum working condition of all properties/ equipment on the campus is ensured through annual maintenance contracts (AMC). The AMC purview includes maintenance of Generator, Air Conditioners, CCTV cameras and Water Purifiers. Periodic reporting on requirements of repairs and maintenance are

submitted by to the Administrative office. The requirements are collectively processed in every semester break so as to keep things ready for the new semester. Adequate house-keeping staff is employed / outsourced to meticulously maintain hygiene, cleanliness and infrastructure on the campus so as to provide a congenial learning environment. Classrooms, Staffrooms, Seminar halls and Laboratories, etc are cleaned and maintained regularly. Wash rooms and rest rooms are well maintained. Dustbins are placed in every floor. The Green Cover of the campus is well maintained by a full time gardener. The campus maintenance is monitored through surveillance Cameras. Pest control is done every year before the beginning of the semester and when and then warranted.

5.3.2 – Activity of Student Council & representation of students on academic & administrative bodies/committees of the institution (maximum 500 words)

Student activities remain at the core of the philosophy of education at the Deemed to be University. The institute strongly believes in engaging students in not only in academics but also in co-curricular and extra-curricular activities. IFHE believes that students have to get opportunities to explore their innate talents and skills. Trough club activities students gain the knowledge, right skills needed by the industry and also develop the right attitude desired for the corporate and social life after the institute. There are more than 50 student bodies (Clubs, Cells and Committees) in the university which provide a platform for the students to continuously explore and hone their skills. Highly self-motivated and passionate students run these student bodies (both co-curricular and extra-curricular). There are events across all the area of management, technology and lawyering as well as those related to socio-cultural, sports, arts, debates, moot courts, hecathalon, show casing technical skills, lawyering skills, advocacy skills that are organized by these students bodies every week during the academic calendar. On an average the student bodies conduct close to thousand activities per year. Each of the student body has a Vision and Mission and they in turn augment the Vision and Mission of the University in creating the right platform for knowledge development, skill enhancement and in nurturing the right attitude. The case-pedagogy, simulations used in class rooms is complemented by the student activities conducted. This is visible through creating opportunities for interaction with top-executives from industry Guest Lectures, Conclaves and Panel Discussion organized by students. These interactions help students to gain required current knowledge. By organizing various events students have to develop team- building and communication skills and also get a chance to demonstrate their organizing and leadership skills.

5.4 – Alumni Engagement

5.4.1 – Whether the institution has registered Alumni Association?

Yes

IBS Hyderabad, the constituent of the university has a very strong and diversified alumni base of 17968 alumni currently pursuing fast track careers with top companies in India and abroad. Their success in the corporate arena is an eloquent testimony to their skills, abilities, hard work and also to the quality and rigor of business education at IBS. This extensive and fast-growing alumni network is one of the strengths of IBS. The alumni are active and regularly associate with the alma mater. Alumni Relations Cell (ARC) conducts various activities for alumni engagement. The alumni take part in an array of activities like admission process, guest lectures, panel discussion sand mentorship programs to MBA students. They attend the Mock GD/PI (Group Discussion Personal Interview) sessions and offer valuable feedback to final year MBA students. A panel of senior alumni will evaluate the Summer Internship Reports and presentations of top performers. Icfai Business School Alumni Federation (IBSAF)presents a cash prize of Rs 10000- and a Citation to 23 students every year. On the occasion of Teacher's Day, the Alumni present two awards to the faculty members--Best Teacher- Overall and Best Teacher – Institutional Development. Besides, the alumni also give valuable inputs in curriculum design and development. The alumni evince keen interest to take part in the three alumni meets organized every year- Nostalgia, Rendezvous and Summit. These three colorful events accord a healthy platform for a better interface between the alumni and the present batch of students. They share a wealth of experience and give suggestions with respect to career guidance.

5.4.4 – Meetings/activities organized by Alumni Association :

Nostalgia 9.0, the Annual Alumni meet of IBS Hyderabad unraveled with much grandeur and magnificence on 23rd November, 2020 and it was attended by 540 alumni. It brought back a wave of memories that the alumni cherished for life. With a great amount of zeal and excitement, the alumni entered the campus to see the entire courtyard filled with lights, love and laughter. The alumni were reminiscing about their best days at IBS and travelled back to the memory lane once again. The air was swinging with palpable energy and the crowd was filled with positivity and warmth. There was a sense of euphoria amongst the crowd and the joy on their brightly lit faces was a sight worth capturing and withholding for a lifetime. The theme for Nostalgia 9.0 was "Dreamscape" which corresponded to all the dreams and aspirations that the alumni had while they were in college. It revolved around the idea of how they all started off as small buds, and with their strong IBS roots, they have now blossomed into fully grown beautiful flowers. The decorations and props were made completely as per the theme, making the courtyard look even more magical. To make the dreamy evening even more mesmeric, we had a stellar performance by Diatribe, the official band of IBS Hyderabad. They delivered a sensational performance that brought the crowd swaying in full swing. The evening also witnessed a fantastic fashion show by the club Moving Mannequins and an exhilarating dance performance by the members of team ARC that profusely added to the glam of Nostalgia. With utmost happiness and zest, Team VAPS launched Aaveg X and Team ARC launched the 15th edition of their quarterly magazine Connections designed around the theme Modern Marvels. Later, the most-awaited and fun-filled event, the pageant for Mr. and Miss. Nostalgia was conducted. It was a very enjoyable interaction where fun questions and exciting tasks were given to the alumni. The entire crowd was roaring with cheers and it was an experience that was everlasting. The alumni were swept away with Nostalgia and it was our immense pleasure to host them making this very grand event bigger and better every year.

Yes

6.2 – Strategy Development and Deployment

6.2.1 – Quality improvement strategies adopted by the institution for each of the following (with in 100 words each):

Strategy Type	Details
Research and Development	The University is research driven and builds processes and systems that promote research in all its disciplines. One of the innovative ways through which the University promotes and nurtures research culture is through incentives for publication. Valuing the intellectual contribution is critical for attaining quality

	higher education,therefore the University has formulated a policy to incentivize quality publications. The incentives are applicable across all the disciplines. The policy on incentives for research publications has been designed to motivate the faculty towards writing high-quality publications. Categorization of journals is undertaken with the objective to set standards for quality of research output so as to offer quality-linked incentives for research
Library, ICT and Physical Infrastructure / Instrumentation	The Deemed-to-be-University has a central library and two departmental libraries attached to the Faculty of Science Technology and the Faculty of Law. IFHE has strengthened its library by adding several research books and professional journals. Besides 21 databases it has subscribed to hard copies of 52 International Journals and 16 International magazines It has also subscribed to UGC INFLIBNET. Research related software like SPSS SAS are made available to the scholars and faculty. Research related books, monographs and dissertations are housed in the reference section.
Human Resource Management	The Deemed-to-be-University has well laid down policy for recruitment, internal promotions, incentive system and awards for its faculty members. The work culture is collegial and offers opportunities for all-round development of the Faculty Member in teaching, research and consultancy. Faculty Members are provided with facilities of on-duty leave, leave for pursuing Consultancies, Research Projects, Postdoctoral Fellowships, etc. They are also provided with financial support for presenting papers at international / national conferences and course load reduction for faculty members with quality research publications
Examination and Evaluation	The Deemed-to-be-University has a continuous internal evaluation system. Student progress is continuously monitored in every course through a system of offline and online evaluation. The Deemed-to-be-University has adopted an internal evaluation system due to its unique case based pedagogy, transparency in evaluation, 60 per cent internal evaluation component and the need for declaring

	the results within a time-frame of 10-15 days.

7.2 – Best Practices

7.2.1 – Describe at least two institutional best practices

Title of the Practice: 1.Building a Research Culture through PhD Program Objectives of the Practice: PhD Program, started in the in the year 2002 is one of our flagship programs. Being stateoftheart program, in terms of its rigor, quality and interdisciplinary nature, it is regularly updated, benchmarking the academic delivery against the best academic standards and focuses on content, pedagogy and research. The objectives are to: • Prepare the doctoral students to do high quality research and disseminate their results/ findings in the form of publications in highly reputed journals. • Nurture and develop potential doctoral students by imparting knowledge and training in contemporary techniques for developing and teaching courses in their respective disciplines. • Prepare them master all the nuances of academics, research and institution development activities. The Context PhD Programs are offered in both fulltime and parttime modes. Students are admitted based on merit, attitude and aspiration for teaching research as a career. Selected full time students are provided fellowships by the University. The challenge for the full time students is to maintain their pace to cope up with the rigor of the program and to earn their fellowships. For the part time students, compulsory quarterly schedules of sessions to do course work to maintain rigor of the program is a challenge. Other challenges are: • Redesigning the courses to meet the market needs. • Ensuring that the students are taught the relevant content. • Students' response to new strategies. • Maintaining the quality and rigor of the program, both in Parttime and Fulltime. • Identification of students' concerns and timely counseling. • Research collaborations with foreign universities. Most of the challenges were overcome with the timely intervention of the committee governing the PhD Programs and collegial support from the senior faculty members, departmental heads and institutional leaders. The PhD program has four phases, namely, coursework, qualifying examination, preparation of research proposal and thesis work submission of thesis. Students are evaluated on continuous basis. Course work:To impart scholarship, in the first year the student takes 8 coursesnamely, two courses in Research Methods,

one course in Advanced Strategic Management and 5 Doctoral Seminars. At the end of Semester II, students are required to undertake a Research Project of about three months. PhD Qualifying Examination: Ons uccessful completion of Year, students are eligible to appear for the PhD qualifying examination consisting of written papers followed by viva voce. This is a unique practice and modelled on American Universities. Formation of Doctoral Advisory Committee and Development of PhD Thesis Proposal: Upon successful completion of the PhD Qualifying exam, Doctoral Advisory Committee (DAC) will be constituted, comprising of one convener and two members. By beginning of the third academic year, students are required to defend their thesis proposals. Appointment of Supervisors would be done based on successful completion of the PhD Proposal Defense, by the Screening Committee. The DAC exists till the approval of the Thesis Proposal by the University. The DAC convener invariably becomes the supervisor subject to approval by the screening committee. PhD Thesis Submission and Viva voce: Upon successful thesis proposal defense, full time PhD students are required to give at least one PhD Thesis Progress Seminars in every semester, publish at least one research paper in a refereed journal and present two papers in conferences/seminars, before submission of the thesis for adjudication. Salient Features of the Program • Associateship: Students will be associated with senior faculty members to expose them to the nuances of teaching, research, consultancy and institutional development. • Workshops: Students attend workshops in areas such as soft skills, curriculum design and development, case pedagogy, case writing, management games, institutional development, consultancy and industry interface, teaching aids, student evaluation and feedback, etc. • Visiting Scholar Program: In the third year of the program, the students are eligible to spend a semester abroad under the Visiting Scholar Program on selfsupported basis. The University has MOU's with several reputed Universities in USA, UK, Australia, etc. for this purpose. For example, tied up with Syracuse University, USA, Flinders University, Australia, Bangor University, UK, etc. • Progress Seminars: Students give at least one progress seminar every semester till the submission of their thesis. • Performance Monitoring and Feedback: The DAC Conveners/PhD Supervisors monitor and submit a quarterly Progress Report on the performance of their students. Research/Teaching Internship: Full time PhD students are involved in teaching, research and/or related academic activities after defending their thesis proposal. IFHE PhD Program is one of the soughtafter programs in the country. The PhD program has produced 67 PhDs in the last 5 years in the area of management. Alumni of this program are recruited by top institutions in the country as well as abroad. 2.Title of the Practice : Summer Internship Program The Summer Internship Program (SIP) is an important training component of a student in IFHE. The objectives are – • To get exposure to real life corporate environment • Bridge the gap between classroom theoretical learning and practice. The students undergo industrial training in a chosen organization. The internship, which would be a simulation of real work environment, requires the students to undergo the rigor of professional environment both in form and substance. It exposes them to technical skills, and helps them to acquire corporate skills by drawing them into contact with real professionals. The challenges for the students include • Adopting to dynamics of corporate life • Getting accustomed to a new place and a new language. • Getting out of the comfort zone of the class room environment. • Meeting the stringent requirements of the organization. The challenges for the institution include – • Generation of quality internship in reputed organizations • Monitoring the progress of the students through faculty supervision • Maintain corporate relationship • Converting internship in to preplacement offers The Practice Every student will be assigned a Faculty Guide at the beginning of the Internship Program to enable the student to undertake a meaningful project, provide necessary academic guidance, and to facilitate evaluation, with the aid of the company executives. It is the responsibility of the students to utilize

the knowledge and experience of the Company Guide to complete the Internship Program. During the internship students are assessed for their intellectual ability, personality, commonsense, professional judgment, responsibility and punctuality, team work, leadership qualities, ability to take initiative, problemsolving and decisionmaking skills, capability to meet deadlines, oral and written communication, etc. Evaluation Various components of evaluation are described below: Proposal It is the first report submitted by a student and includes information on the organization as well as the description of the project being pursued and the timelines for various milestones during the course of the project. Interim Report This is submitted during the midcourse and contains information on project objectives, methodology, progress achieved, etc. Project Report It is a written presentation of the work done by the students during internship. The project report is assessed on: • Knowledge and comprehension of the problem. • Ability to analyze and comprehend the subject and aim of the study. • Logical sequencing, organization and handling of the data in the problem. • Findings, observations and concluding remarks in terms of the objectives set earlier and the future scope of the project. • Organization of the report. • Seminar/VivaVoce The evaluation of seminar on the work done by the students includes the following dimensions: • Knowledge of basic concepts and physical principles and the ability to apply them. • Additional knowledge acquired. • Analytical abilities, logical development of the subject and finding solutions. • Oral communication. • Self- reliance, team work initiative. Outcomes of Internship Program Students are encouraged to publish their internship work, subject to the consent of the organization, in the form of articles and case studies. Students are also encouraged to earn preplacement offer from the companies. Interaction between faculty guide and company guide culminates in consultancy projects sometimes. Internships have helped in students' readiness for placements.

7.3 – Institutional Distinctiveness

7.3.1 – Provide the details of the performance of the institution in one area distinctive to its vision, priority and thrust in not more than 500 words

The Case Research Centre at IBS is a Center of Excellence and a key resource for the whole ICFAI System. CRC contributes towards enhancing the brand and reputation of ICFAI Business School internationally. It also supports the case method of teaching at ICFAI institutions, saving the institutions millions of rupees in procuring such cases from other vendors. CRC has helped ICFAI in differentiating itself from the other institutions in India as a B-school providing the case advantage. CRC has also established itself as one of the top five case development institutions in the world both in terms of number of cases developed and cases sold. During the period 2001 to 2010 a large repository was created by all the constituents involved in case development. In 2010, all the case development initiatives were consolidated at the IBS Hyderabad, IFHE. 1. Activities, Products and Services 1.11 Case Development The CRC is one of the Top Case Development Centers in the world with a repository of more than 6400 cases. Cases: The primary activity of CRC is to develop cases in specific subject areas. The center concentrates on developing case studies, maintaining high standards of quality. Digitization of Cases for iPad: Around four hundred cases used in first and second semester MBA have been converted into iPad formats. These cases have been enriched with access to additional material through external links and are incorporated in the iBooks that have been developed for all courses in first and second semester MBA. Access through our exclusive Portal: We have recently designed and developed an exclusive

Portal for providing online access to students and faculty members for cases pertinent to them • Comic book cases: We have also designed cases as graphic novels, which have attracted the attention of educators internationally. • Multimedia Cases: These are cases presented through a combination of media — Video, written text, excel sheets and /or any other medium deemed to be suitable for that particular case. • Detailed Teaching Notes: All the cases include a basic teaching note with teaching objectives, target audience and discussion questions. For selected cases detailed and elaborate teaching notes are prepared, with analysis of the questions for use in classroom discussions. 1.1 Training support • We conduct training programs on case writing and case methodology to help institutions introduce case pedagogy and enhance the skills of the faculty and research scholars. 1.2 Workshops Conferences • CRC also conducted a number of workshops/ FDPs/ MDPs in organizations viz. National Academy of Defense Production, TAPMI, IIM Ranchi, IIM Bangalore, etc. • Internationally, we have been involved as facilitator/ chair/ organizer in conducting professional development workshops (PDW) at the prestigious AOM Annual Meetings in Boston, Philadelphia, Orlando, Anaheim, Vancouver, Atlanta, and Chicago. • We organized an International Case Study Conference to promote the use of case method in the pedagogy and to provide a platform for case authors 1.3 Case Journal • We provide editorial support for the publication of the quarterly journal -Case Folio, published by IUP.
