in all functional areas of management. The courses offered in the program are practice-oriented, with emphasis on the application of principles, tools and concepts to meet business challenges. Courses are carefully designed to develop a managerial perspective in the students, help them in formulating and implementing corporate strategy and taking critical business decisions.

This document provides information to students on the program structure, registration modalities, teaching, evaluation, internships, grading, summer term, minimum academic requirement, graduation requirements, fee & scholarships and general information. It is intended to be a source of reference on how the program is conducted.

2. Admission Modalities and Registration

Eligibility

Graduation (any discipline) with 50% and above marks with medium of instruction as English. All applicants should have completed a minimum of 15 years of education (10+2+3 or 10+2+4 basis). Candidates not meeting the eligibility criteria of English medium in graduation have to submit the TOEFL/NELT / IELTS score by May 31, 2021. Applicants in their final year bachelor's degree course are also eligible to apply, provided they complete their graduation requirements (including practical examinations / viva / assignments) before the commencement of the academic year. The admission will remain provisional until they produce marks sheets and degree certificates establishing their eligibility.

Admission Procedure

The candidates seeking admission to MBA program have to appear for IBSAT. IBSAT test is conducted by The ICFAI Business School for students seeking admission to the MBA / PhD programs of IBS Hyderabad. It is an aptitude test based on Computer Based Test (CBT) format. The test is of 2 hours duration and is conducted in 4-5 sessions per day at test centers across India. Scores of GMAT® /CAT/ NMAT by GMACTM are also accepted in place of IBSAT.

Selection Briefings

Selection briefings are conducted for the qualified candidates in 50 cities across the country to clarify various aspects related to the programs of IBS.

Selection Process

The candidates who qualify on the basis of IBSAT/ GMAT®/ CAT/NMAT by GMACTM are called for Selection process at IBS Hyderabad in February / March every year. The final selection is based on performance in Group Discussion, Personal Interview and the past academic performance (performance in Class X, Class XII and Graduation).

Provisional Admission

All the students who are selected are given provisional admission and enrolled into the program, subject to meeting the following criteria:

MISSION

To offer high-quality management programs that equip students with the right knowledge, skills and attitudes required to succeed in a dynamic world.

Knowledge: The right knowledge implies relevant, contemporary and cutting-edge knowledge obtained through research and practice which empowers students to think and act independently, creatively and ethically.

Skills: The right skills enable students to think through complex problems, analyze them critically and find solutions quickly in a changing market environment.

Attitudes: The right attitudes help students put their thoughts, feelings, behaviors and actions in place while handling tough situations.

VISION

To be a leader in management education through Industry- focused curriculum, case-based learning and applied research.

1. Introduction

ICFAI Business School (IBS), Hyderabad is a constituent of the ICFAI Foundation for Higher Education (IFHE). The ICFAI Foundation for Higher Education is a Deemed-to-be University u/s 3 of the UGC Act 1956. The University is governed by the Rules & Regulations, Code of Conduct and Ethics made through its policy making bodies such as Academic Council, Planning and Monitoring Board, Internal Quality Assurance Cell and Board of Management.

The major programs offered at IBS-Hyderabad are MBA, BBA, BA Economics and PhD. The academic units of IBS-Hyderabad are organized around five departments: finance and accounting, marketing and strategy, economics, operations and IT, and human resources and soft skills. The faculty pool at IBS-Hyderabad is a good blend of people from the industry and academia with majority having PhDs. There are 170 faculty members in the business school currently. The Case Research Centre of the school develops business cases on an average of over 100 cases per year, which are being used around the world for teaching, in textbooks, and industry. The Center for Management Development of the school provides opportunities for faculty members in interfacing with industry. IBS-Hyderabad emphasizes student-centric learning supported by continuous evaluation and feedback. It offers a largely case study based pedagogy for the MBA program. Case studies allow students to step into the shoes of the decision makers and deal with issues faced by managers. The students go through around 500 national and international case studies including those from Harvard Business School.

In consonance with its mission and vision, ICFAI Business School (IBS) seeks to develop leaders in management with a perfect blend of attitudes, skills and knowledge through an industry focused curriculum and case-based pedagogy. The MBA program provides a broad perspective

- a. Completion of minimum 15 years of education through 10+2+3 mode, until graduation.
- b. Securing minimum 50% marks in graduation. For computing the percentage secured in graduation the method followed by the respective university is taken into consideration.
- c. English as a medium of instruction at undergraduate level or submission of pass certificate of TOEFL or IELTS.
- d. Payment of required fee such as program, hostel fee etc.

Submission of proof of graduation

Those students whose graduation results have not been declared at the time of admission are given provisional admission into the program. They are expected to submit their proof of graduation to the Academic office/Students service department (SSD) on or before November, every year. Otherwise, the admission to the program stands cancelled. The student's name will be deleted from the rolls of institute and will not be permitted to use the campus facilities and continue the program.

Registration

Physical presence of students in the campus is mandatory for registration as per schedule given in the handbook for each Semester including Summer Internship Program (SIP). In other words, Registration means the following:

- Formal reporting of students in the campus paying the Program & Hostel fee as per schedule. No Hostel fee is required for SIP period.
- Submitting Proof of graduation (for Semester-I) with at least 50% marks.
- Registering for prescribed set of courses in the corresponding semester

Registration to a Semester / SIP is not permitted if a:

- i. Student has outstanding fees due including Hostel and Mess fees.
- ii. Student has an NC (Not Cleared) report or RC (Registration Cancellation) report in preceding semester.
- iii. Student has been detained due to disciplinary proceedings.
- iv. Student has been specifically asked to stay away from that semester for academic reasons.
- v. Student has failed to convert the provisional admission into a regular admission by the specified date.
- vi. Student is debarred for malpractices in any examination.

Late Registration

Normally late registration to any Semester will not be entertained. However, in case of any genuine reason the same has to be permitted and ratified by the Director or Dean. Such request is to be submitted as per format given in Annexure II before commencement of the registration.

Address Change

In case of a change in permanent address, or e-mail, students are required to incorporate the same in the registration cards during Registration. If a change is contemplated in the middle of any semester, students can submit an application to the Registrar, Student Services Department (SSD). Any Correspondence will be sent only to the address and e-mail indicated in the Registration Card. Please use the format as given in Annexure VIII.

Change of Name/Correction

If a student's name has been misspelt in the official records of IBS (e.g., registration card, SIS, Hall ticket) or does not match with the 10th Class certificate, the student may submit an application with necessary proof for correction. See Annexure IX for request format.

Communication to Students:

The primary mode of communication of the institution to the student is through e-mail / and the Students Portal called "Student Information System" (SIS). Students are expected to check their e-mail account regularly. Students can access the complete information like registration, detailed course syllabus, fee details, attendance, grades, scholarships and various forms through the SIS.

Parent's Corner:

Parents of the students also can access their ward's performance like the grades, attendance, status of fee payment etc and other details through Parents Corner. This is available on our www.ifheindia.org website; on the page of ICFAI Business School (IBS), Hyderabad.

3. Program Structure & Requirements

The MBA program is designed to develop technical, conceptual and human skills to provide an in-depth knowledge of the strategic perspectives essential for business leadership. The two year program gives students wide exposure and training in core subjects, elective courses and integrated general management courses. The courses are intellectually demanding and prepare students to face the challenges of a global business environment.

The syllabus is updated at frequent intervals benchmarking the academic delivery against best academic standards and contemporary business trends. The program equips students with the latest tools and techniques necessary for budding managers. It enhances student's cognitive and analytical skills with strong theoretical and conceptual foundations. IBS Hyderabad adopts case pedagogy as the primary mode of program delivery for most of the subjects.

The Program duration

The two year program has four semesters (two semesters per year). Each semester is of 17 week duration. After the first year, students undertake a 12 week Summer Internship Program (SIP).

The program consists of a prescribed set of courses. Each course offered during the semester is generally allotted 33 classroom sessions (for a 3 credit course) of 1 hour 15 minutes each.

The number of hours of work to be put in by the student for a particular course depends on the number of credits allotted for each course. A credit is a convenient unit which denotes the estimated time required to be put in by a student for the course during the week, including classroom sessions. One credit involves 11 sessions of classroom instructions per semester.

The Structure of the Program

The Program comprises of 30 courses (22 Compulsory Courses and 8 Elective Courses), Summer Internship Program and Soft Skills Labs. These courses are spread over four semesters. The structure of the program giving details of courses and credit units is given in the following table.

The students are also holistically taught and trained through the concept of Syndicated Learning Program (SLP), involving Classroom Sessions, Group Discussions, Mock tests, Interviews designed and executed by Academia and Industry experts. SLP prepares the MBA student for

campus placements. Domain knowledge and soft skills are made integral part of SLP and given more focus.

Program Structure		
Course Code	Course	Credits

**** List of Electives are subject to change as per the demands of industry.**

Soft skills Courses:

Business Communication course is offered in the Semester-I. This aims at developing skills in effective presentation, note making, podcasts, tweets and blogs, resume making together with oratory skills and body language keeping in pace with the contemporary corporate requirements.

Career Management course is introduced in Semester-2 with topics focusing on choosing career and the dynamics of managing a career. Cross-cultural communication has also been included keeping in view the multi-ethnic nature of Indian Corporate and increased interaction with foreign companies. The course is designed to develop students' personality and enhance their communication, presentation and inter-personal skills.

Summer Internship Program

In order to gain corporate exposure the students are supposed to undertake a project in the opted companies. The Summer Internship Program (SIP) is scheduled after the completion of second semester. It is a time bound and goal oriented program for a duration of 12 weeks. This carries weightage of 10 credits. The students are also encouraged to generate SIPs on their own (self-generated) depending on their contacts. The self-generated summer projects are evaluated by SIP Committee in terms of quality, standards and learning, location etc. In case the students are not able to generate on their own, IBS assists in generating projects through faculty members and Placements Department.

Mentorship

Mentorship is meant to be an individualized relationship between the student and faculty member who has a genuine interest in the student's educational and career goals. Mentorship focuses not only on academic guidance, but also on a sustained nurturing of the student to equip with the right knowledge, skills and attitudes required to succeed in a dynamic world. Each faculty member is allotted a set / group of not more than 15 students in the beginning of the semester. The details of the student mentees are communicated through Student Information System (SIS) portal which is available for faculty on the intranet.

Elective Courses

In the Third and Fourth Semesters, students study integrated management and strategy courses in addition to more advanced courses. (Students are required to pursue a minimum of eight elective courses during the program.) The Program offers students a wide range of electives, broadly categorized into Marketing, Finance, Accounts & Financial Services, Human Resources, General Management, and Operations, IT & Systems. Electives are offered to the students on cafeteria approach. In this approach student can choose electives from the specializations like Marketing, Finance, HR, Operations and IT from the number of electives which are available under each category. To specialize in any stream, a student has to pursue at least four electives from that stream.

The balance 4 electives can be chosen in the following manner

Four electives from any other stream leading to dual specialization.

Four electives from any other streams up to minimum of 2 electives from same stream and balance from any other stream.

Recommendation: Some elective courses necessitate sound knowledge and proficiency in the related core courses. Students opting for these electives are expected to demonstrate their proficiency in the related core courses by attaining the minimum threshold grades.

Expectation from Students

Students should treat their classroom obligations as they would treat any serious professional engagement.

This includes:

- i. Bring their own laptop
- ii. Carrying cases and related material with thorough preparation for each session as per the instructions of the faculty members.
- iii. Arriving promptly and staying until the end of each class. Late entry is not allowed.
- iv. Active participation and constructive discussions in and outside class, 150ms. Adhering to deadlines and timetables established by the instructor.

- v. Displaying appropriate courtesy to academic and non-academic staff and fellow students both in and outside class.
- vi. Giving constructive feedback on faculty performance in time.
- vii. Students should give a true feedback on the parameters given in the feedback form (online). Every student should provide faculty feed back in time and 2 times per Semester without which the student cannot access their semester results.
- viii. Feedback is expected after every 15th session and 30th session in each of the semesters.

Course Curriculum and Description (Semester-wise)

Semester: I

Course Code: SLAC501

Course Name: Accounting for Managers

Course Description:

The course focuses on the detailed understanding of accounting concepts and principles along with their relevance in the changing global business environment. It relates these concepts to the preparation of various financial statements, like Income Statement, Balance Sheet and the Cash Flow Statement. It also involves the calculation of Unit Cost and the preparation of cost sheet and quotations. It covers the break-even analysis and decision making alternatives for the short term, emphasizing on the evaluation and selection of a feasible alternative for the business.

Course Objectives:

At the end of the course, the student will be able to:

- Develop conceptual knowledge required for preparation of books of accounts.
- Create books of accounts on the basis of principles and regulations of accounting.
- Analyze and interpret financial statements for prudent business decisions.

Learning Outcomes:

At the end of the course, the student will be able to:

- Understand book keeping system, concepts of Accounting, Accounting standards and cost concepts.
- Prepare Financial and Cost statements required for reporting and analysis purpose.
- Gain familiarity with terminologies, accounting methods and various uses of financial statements.
- Identify the importance of managerial reports and techniques to analyze them for decision making.

Reading Material:

1. Accounting Text and Cases by Robert Anthony, David Hawkins and Kenneth Merchant (AHM), 13/e.
2. Framework for Preparation and Presentation of Financial Statements (Issued by ICAI)
(http://www.mca.gov.in/XBRL/pdf/framework_fin_statements.pdf)
3. **Indian Accounting Standards (IND ASs) – Issued by ICAI**
https://www.icaai.org/post.html?post_id=7543

Supplementary Reading Material:

1. Accounting for Management – Text & Cases by SK Bhattacharyya and John Dearden (3rd Edition), Vikas Publishing House
2. Introduction to Management Accounting by Horngren, Sundem, Stratton, Burgstahler and Schatzberg (14th Edition), Pearson

Sessi on No.	Topic / Area Covered	Teaching Objectives	Learning Outcomes	Cases to be Discussed
1	Introductory session	To introduce the necessity of accounting in business. Basic accounting equation to introduce transaction analysis	Understand why accounting is required for business.	
2-3	Journalizing the transactions, Posting in ledger, trial balance	Becoming familiar with the traditional method of transaction and distinguishing it with transaction analysis procedure using accounting equation.	Numerical to solve in both the methods	AHM (Chptr-1)
4-5	Introduction to Accounting Concepts: Money Measurement Concept, Entity Concept, Going Concern Concept, Cost Concept, The Dual Aspect Concept Schedule 3 of Companies Act 2013 format of balance sheet ,statement of changes in equity and their elements	To discuss the format and various elements of Balance Sheet and statement of changes in equity.. To discuss the various concepts on which this statement is based on.	To understand the format ,terms involved in balance sheet as per regulations and learn accounting concepts of balance sheet	
6-7	Basic Accounting Concepts: The Accounting Period Concept, Conservatism Concept, Realization Concept, Matching	To discuss the format and various elements of statement of profit and loss To discuss the various concepts on which this statement	To understand the format ,terms involved in statement of profit and loss as per regulations ,calculation of EPS	

	<p>Concept Consistency Concept, Materiality Concept</p> <p>Schedule 3 of Companies Act 2013 format of statement of profit and loss and its elements</p>	is based on.	and to learn accounting concepts of balance sheet	
8 - 9	Comprehensive Problem Solving	To provide additional practice of the concepts relating to the Income Statement and the Balance Sheet	Extended practice of the application of principles and concepts of Income Statement and Balance Sheet	
10	Class Test - 1 (Objective)		Sessions 1 to 10	
11- 12	<p>Revenue Recognition Concept – Gross versus Net, Timing of Revenue Recognition, Delivery / Sales Method, Collection Method, Production Method, Percentage of Completion Method, Installment Method Amount of Revenue Recognition, Cash Discounts, Revenue Adjustment versus Expense, Warranty Costs.</p>	<p>To Discuss the criteria for revenue recognition under accrual accounting so as to know when and how much revenue should be recognized. To discuss various methods associated with revenue recognition.</p>	<p>Understanding of how accounting transactions influence operating decisions and Knowledge of improper ways that can be used to inflate the operating performances.</p>	<p>Case 5-3: Joan Holtz (A) Problems solving</p>  <p>REGISTRAR THE ICFAI FOUNDATION FOR HIGHER EDUCATION (Deemed to be University Under Section 3 of the UGC Act, 1956)</p>
13 - 14	Inventory valuation in Merchandising / Manufacturing / Service Companies Full Cost of Inventory, Product versus Period Cost, Periodic versus	To discuss principle and various methods of inventory valuation	Familiarity with the methods to value inventory and understanding the reporting consequences under each method.	Case 6-2: Lewis Corporation

	Perpetual Methods of Inventory Costing, Specific Identification Method, FIFO, LIFO, Average Cost Method Valuation Principle			
15 - 17	Long-Lived Assets Asset versus Expense Self-Constructed Assets Depreciation and Disposal Depletion and Appreciation Intangible Assets: Goodwill, Patents and Copyrights Research and Development Cost	To describe the nature of long-term assets and its various kinds. To discuss their recording principle in the books of accounts.	Learning how the Long term assets differ from other assets in terms of its use in the business and valuation in the books.	Case 7-3- Stafford Press
18 – 20	Purpose of Cash Flow Statement Utility, Liquidity versus Profitability, Contents of Cash Flow Statement Cash flow from Operating Activities Cash flow from Investing Activities Cash flow from Financing Activities Direct method versus Indirect method Non Cash transactions	To discuss the difference between cash flow and earnings and importance of cash-flow statement (CFS) To discuss the broader activities affecting the cash flows to the firm To discuss the preparation of CFS under different methods.	Learning and appreciating about cash flow statement being a derivative of Income Statement and Balance Sheet. Learning how and why a company can be cash rich yet unprofitable and vice-versa. Enables to prepare cash-flow statement for a company.	Problems from AS-3
21	Class Test 2 (Written Test)		Sessions 12 to 22	
22	Understanding Annual Report, Notes, Schedules, Auditors Report,	To discuss the annual reporting by companies and detailed content of	Familiarity with the annual reports of companies, its purpose and	TATA Steel Ltd.

	Directors Report, M D & A, Off Balance Sheet Items	the report	content	
23 - 26	Behavior of Cost: Cost concepts and classification of costs; Relation of Cost to Volume; Variable and Fixed Costs, Unit Costs Break Even Analysis & Applications; Break Even Point, Target Profit, Operating Leverage, Contribution	To discuss the cost concepts, the various types of costs To discuss the cost-volume relationship and computation of BEP. To discuss concept of operating leverage and how it affects profits.	Enables to understand how cost structure plays a vital role in magnifying profits or losses of a firm and changes the level of BEP.	Case 16-1: Hospital Supply, Inc Case 16-3: Bill French
27- 28	Full Cost – Concept & Uses Measurement of Direct Costs Allocation of Indirect Costs	To discuss preparation of cost sheet and various classifications of cost, To discuss the ways of cost allocation across cost objects.	Enables to identify the relevant costs associated with a cost object for strategic decision-making. Makes to learn how to prepare a cost sheet.	Theoretical concepts with examples Case: Pepe Denim (CRC)
29	Class Test - 3 (Objective)			
30 - 33	Decisions Involving Alternative Choices: Make or Buy; Dropping a product line; Shut down / Subcontract; Acceptance of Special Order	To discuss the considerable factors associated with strategic decisions of the firm such as 'make or buy' a product, etc.	Enables to identify the important criteria while evaluating alternatives for decision making.	Case 26-1: Import Distribution Inc Case 26/2:- Former Carpet company

Evaluation Timelines:

Keeping in line with continuous evaluation at IBS the following evaluation schedule has been drawn up. Students are expected to go through the dates / sessions mentioned and prepare accordingly.

Component	Component Number	Expected slot / due date	Marks declaration by	Weightage
Class Test 1	1	11 th session	14 th session	10
Class Test 2	2	23 rd session	26 th session	20
Class Test 3	3	31 st session	33 rd session	10
Project Assignment	4	28 th session	33 rd session	10

Class Participation	5	33 rd session	33 rd session	10
End exam	At the end of the semester		Examination Department	40
	Total			100

REGISTRAR

THE ICFAI FOUNDATION FOR HIGHER EDUCATION
(Deemed-to-be-University Under Section 3 of the UGC Act, 1956)

Course Code: SHRM-501

Course Title: **Business Analytics -I**

Course Description:

This course is designed to provide broad foundation to the students Business Analytics. The course provides basic concepts of probability distributions to enable understanding of hypothesis testing which helps in business decision making. The course deals with various descriptive analytics and visualization techniques to handle and analyze various data forms. Each session will help the students to understand the concepts, techniques and their application using software such as Excel, SAS, Tableau and R.

Course Objectives:

At the end of the course a student is expected to:

- Demonstrate relevant frameworks, tools and techniques to enhance the capability of objective driven decision making.
- Build the understanding of business technologies and designs of data analytics process to get value and deeper insights.
- Interpret the research output of different research analysis done in Excel, Tableau, R and SAS.
- Choose the best alternative for better business outcomes through data analysis.
- Apply different methods and techniques of quantitative methods in other courses like Managerial Economics, Operations Management, Business Analytics II, Marketing Analytics, Marketing Research, Portfolio Management, Financial Econometrics etc.

The course will be driven through Excel, R and SAS.

Expected Learning Outcomes:

- Apply conceptual understanding necessary to make meaningful analysis of data
- Develop a manager's orientation and appreciation to evaluate different alternatives based on available data and select the best alternative.
- Make use of different quantitative techniques in solving the research and business problems
- Identify appropriate quantitative tools and techniques for decision making

Recommended Text Book:

- Business Analytics (Compiled book for IBS), Cengage ,2019

Suggested reference books:

- Business Analytics Data Analytics and Decision Making Albright & Winston
- Statistics for Business & Economics (SB&E) Anderson et. al., Cengage Learning, 12e.

Evaluation Timelines

Keeping in line with continuous evaluation at IBS the following evaluation schedule has been drawn. Students are expected to go through the dates / sessions mentioned and prepare accordingly.

Component	Component Number	Expected slot / due date	Marks declaration by	Weightage
Class Participation	1	Session 30	Session 33	10
Test I	2	Session 13	Session 16	20
Test II	3	Session 23	Session 26	20
Test 3	4	Session 33	After one week	10
End exam	At the end of the semester			40
	Total			100

 REGISTRAR
 THE ICAI FOUNDATION FOR HIGHER EDUCATION
 (Deemed-to-be-University Under Section 3 of the UGC Act, 1956)

Course Code: SLGM501

Course Name: Business Communication

Course Objective

The module bestows on students opportunities to learn and practice business writing skills and prepare them for making effective presentations. The module is exercise –driven & hands-on and covers the following areas

- Effective Presentation Skills
- Types of business correspondence - Memos, letters, claims & responses
- Resume and Cover Letter
- Business Proposals
- Business Reports
- Business Meetings
- Crisis Communication

Learning Outcome

The module will help students to

1. **Prepare** for making effective presentations
2. **Demonstrate** effective writing skills - Letters, memos, reports, business proposals, resume, cover letter
3. **Conduct or participate** in meetings and record the Minutes systematically
4. **Communicate** effectively during crises

Recommended Text Book: Business Communication-Connecting at Work-Hory Shankar Mukerjee- Oxford University Press-2013

Suggested Reference books:

1. BCOM: Lehman, Dufrene, Sinha - Cengage Learning
2. Business Communication-Meenakshi Raman & Prakash Singh-Oxford University Press
3. Effective Business Communication - Krizan, Merrier, Logan & Williams-Cengage Learning
4. Business Communication Today-Courtland L.Bovee, John V.Thill and Abha Chatterjee- Pearson Education Asia
5. Effective Business Communication-Herta A Murphy, Herbevert W Hildebrandt & Jane P Thomas

Course Outline

Topic/Area Covered	Case	Case Details	Chapter Reading
--------------------	------	--------------	-----------------

Effective Presentation Skills (input Sessions)	Discussion		12,13
Body Language	Discussion		5
Principles of Business writing	That's the way	Department Case	2,6
Resume and Cover letter	Discussion with Sample Resumes		16
Effective Presentation Skills Current Corporate Analysis (CCA)	Student Presentations		12,13
Memos	Discussion –Sample Memos		7,8
Business Letters-Claims & Responses, Negative messages	Write right	Department Case	7,8
Agenda & MOM	Case, Role Play & Exercise	Department Case	10
Business Proposals	Discussion & Analysis of sample proposal		9
Report Writing (including SIP report)	Discussion & Analysis of sample report		9
Effective Presentation Skills- Book or Movie Review	Student Presentations		12,13
Note Making, Blogs, Podcasts, Tweets	Discussion		7, 8,18
Crisis Communication	Crisis All The Way	Department Case	7,8

Course Name: Information System for Managers

REGISTRAR
THE ICAI FOUNDATION FOR HIGHER EDUCATION
(Deemed-to-be-University Under Section 8 of the UGC Act, 1956)

Learning Goals: Applied Knowledge

Course Objective: Course is designed to impart knowledge on functioning, building and management of information systems. It equips students with modeling and analytical skills to meet challenges of dynamic business environment.

Main objectives are:

- (1) To understand significance of information systems in business
- (2) To know process involved in design and development of information systems
- (3) To realize emerging challenges in managing new-age information systems.
- (4) To familiarize with the tools used to effectively fulfill the roles and responsibilities of managers.

Course Learning Outcomes: At the end of the course a student is expected to understand the significance of information systems in business and apply the IT knowledge for better decision making.

Text Book: Information System for Managers, Compiled by: Samyadip Chakraborty, N. Siva Prasad & Shankha Sengupta, Cengage Learning, New Delhi, 2019

Evaluation :

Keeping in line with continuous evaluation at IBS the following schedules have been drawn. Students are expected to go through the dates / sessions mentioned and prepare accordingly.

Component	Component Number			Weightage
Class Participation	1			10
Test	1			20
Test	2			20
Project/Seminar	3			10
End exam	At the end of the semester			40
	Total			100

Course Code: SL EC 501

Course title: **Managerial Economics**

Course Description

This course enables the students to learn basic microeconomic concepts applicable in business decision making. The students will learn the basic concepts of economics like production possibility curve, basic economic problems and, partial and general equilibrium models. Students will be exposed to consumers purchasing and budgeting decision making in various markets and how supply and demand of goods affects the market equilibrium. Students will learn to use price floor and price ceiling to predict when government intervenes in the market and the implications of government intervention on firms. Students will understand how production decisions are taken on short term and long term and how to identify the least cost combination of input to minimize the cost of the firm. The course will expose the students to firm decision making in various forms of markets like Monopoly, Perfect competition, Monopolistic Competition and Oligopoly. Various types of pricing strategies in different types of markets are also covered in this course. Students will learn the basics of Game theory to make strategic decision making. The course will conclude by exposing the students to various types of externalities and reasons for market failure, and the need for regulations in the economy.

Course Objectives:

At the end of the course, students are expected to:

- Demonstrate managerial skills and competencies required to take business decisions based on the basic microeconomic concepts

- Demonstrate problem solving ability to improve the performance of Individual firms by analyzing the microeconomic environment of the firm
- Analyze and predict the behavior of competitors to take strategic decisions to improve the performance of the firm in the long run
- Demonstrate leadership skills using problem solving skills and sound knowledge on key microeconomic concepts.

Expected Learning Outcomes:

At the end of the course, the student will be able to:

- Take business decisions based on the key concepts of Managerial economics
- Students will define firm level business problems and will find solutions to the problem based on key managerial economic concepts and critical thinking
- Students will be able to understand the market mechanism by analyzing the interplay between demand and supply forces
- Students will be able to understand the various ways to reduce cost of production by identifying the least cost combination of inputs using the theory of production.
- Students will be able to evaluate and compare various types of market structure and will be able to take production and pricing decisions in various types of markets.

Recommended Text Book:

- **Managerial Economics (Latest Edition):** Principles and World Wide Applications, D. Salvatore; Indian adapted version of Siddhartha K. Rastogi, 8th Edition, Oxford University Press.

Suggested books:

- **Economics (2010):** Paul A Samuelson and William D Nordhaus (Indian Adaptation by Sudip Chaudhuri and Anindya Sen) 19th edition, McGraw Hill Education (India) Private Limited, New Delhi
- **Microeconomics:** Robert S. Pindyck, D Rubinfeld & PL Mehta, 7th Edition, Pearson Prentice Hall, New Delhi

Additional readings

Online resources: **Microeconomics:** David Besanko & Ronald Braeutigam

Course Code: SLMM501

Course Name: Marketing Management-I

Course Objectives: The current course aims to build the basic analytical skills, as well as the conceptual abilities and substantive knowledge, of participants in the field of marketing management in theory and practice. This offered course is proposed to help participants to undergo meaningful exercises of real life marketing situations to analyze the environment in which marketers operate and understand the challenges thereof. The current course will also build theoretical foundations of the participants and will

serve as a specialized course for them to explore the field of marketing as a prospective career. The students will get an overview of how marketers identify segments and position themselves in a highly competitive market. In addition, students will also gain an understanding of how marketers create, capture and communicate and deliver value to their target customers.

Learning Outcomes: At the end of the course, every student is expected to:

- Understand the theory and science behind marketing decisions.
- Gain an in-depth knowledge and importance of marketing for any organization.
- Understand how the external and internal environment jointly impacts an organization and its marketing capabilities in different situations.
- Understand how the marketing mix can be a significant tool for marketers in creating value and competing with rivals.

Course Code: SLHR501

Course Name: Organizational Behaviour

Course Objectives

The objectives of this course are to:

- Provide a strong conceptual framework of Organizational Behavior and its applications
- Provide an understanding of behavioral differences at individual, group and organizational level, to manage human resources efficiently
- Emphasize on the specific behavioral competencies that make the manager more effective with human dimensions of management

Learning Outcomes

At the end of the course a student is expected to:

- Compare the behavioral differences at individual, group and organizational levels
- Demonstrate effective interpersonal and conceptual skills to increase the leadership potential and improve managerial abilities
- Apply the knowledge of organizational behavior towards attaining organizational effectiveness

Recommended Textbook

Robbins, Stephen. P., Judge, Timothy. A. & Vohra, N. (2019). *Organizational Behavior* (18th ed.). Pearson Education Inc.

Reference books

- Luthans, F. (2010). *Organizational Behavior*. (12th ed.). Noida, McGraw Hill Education India.
- Griffin, R. W. & Moorhead, G (2014). *Organizational Behavior: Managing People and Organizations* (11th ed.). New Delhi, Cengage Learning India Pvt. Ltd.

Semester: II

Course Code: SLRM502

Course Name: Business Analytics-II

Course Objective

The Business Analytics-II course will deal with predictive analytics, prescriptive analytics, Multivariate and Non parametric Analytics. The course will be providing basics of Machine learning. More specifically, the course will enable future Managers

- to conceive the idea of business research so as to be able to generate data for analytics applications.
- with spreadsheet usage and software like SAS/R to support the above.
- With analytical modeling ability (both statistical & mathematical) for business situations.

Overall Learning Outcomes: At the end of the course, a student is expected to be equipped with capabilities to carry out appropriate quantitative analysis, and draw meaningful conclusions with regard to the study objectives. If the situation is one of modeling, it aims at inculcating modeling ability for the context.

The Business Analytics-2 course will deal with basics of business research, predictive analytics and prescriptive analytics. More specifically, the course will enable future Managers

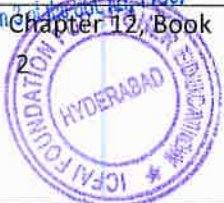

Overall Learning Outcomes: At the end of the course, a student is expected to be equipped with capabilities to identify a business problem, define its objectives, identify analytical methodology and data collection methods, carry out appropriate quantitative and/or qualitative analysis, and draw meaningful conclusions with regard to the study objectives. If the situation is one of modeling, it aims at inculcating modeling ability for the context.

Course Title: Career Management

Course Objectives

- a) To provide an opportunity to the students for self-assessment of their personal strengths, weaknesses, opportunities, and threats.
- b) To facilitate a learning environment where students can develop their personal and professional skillsets in the following areas—
 - Listening and conversational skills
 - Cross cultural communication
 - Effective presentation
 - Time Management
 - Social and Dining Etiquette
 - Group discussions and personal interviews
- c) To discuss the effects and coping mechanism of work stress.
- d) To help in designing short term and long-term career goals.
- e) To explain the benefits of being assertive and having positive work attitude.

Expected Learning Outcomes

At the end of the course, it is expected that the student will be able to—

- 5. Self-assess their strengths, weaknesses, opportunities and threats.
- 6. Design and deliver effective presentations.
- 7. Comprehend the benefits of listening, conversational, and cross-cultural skills.
- 8. Apply the social and dining etiquettes.
- 9. Gain sufficient knowledge and skills for a better performance in group discussion and personal interviews.
- 10. Manage and design time management strategies and career goal sheets.
- 11. Have a conceptual understand of the types and coping styles of work stress.

Test II	3			20
Test III	4			10
End exam	At the end of the semester			40
	Total			100

Course Code: SL FI 502
Course Title: Financial Management - II

Course Description:

Students examine the important tools and techniques useful in developing their decision-making skills in the context of a corporate firm. Topics include sources of long-term and short-term; leverages; capital structure policies and decision; dividend policy and decision; inventory management; receivables management; cash management; financial statement analysis and financial forecasting.

Course Objectives

At the end of the course, students are expected to:

- Apply various tools and techniques in the financial decision making activity.
- Differentiate between various sources of long-term and short-term finances available to a firm.
- Evaluate the concept of leverages, capital structure, dividend policy, inventory management, receivables management and cash management.
- Analyze the capital structure policies and decision, dividend policy and decision, inventory management, receivables management and cash management.

Course Title: Macroeconomics and Business Environment

Course Description:

REGISTRAR
THE ICFAI FOUNDATION FOR HIGHER EDUCATION
(Deemed-to-be University Under Section 3 of the UGC Act, 1956)
HYDERABAD

This course enables the students to understand the basic concepts and developments in macroeconomics to know the aggregate behavior of an economy. The students will learn the fundamental economic ideas like measuring national output/ Income, GDP, aggregate demand and aggregate supply, the consumption function, savings function, investment spending, the multiplier principle and the influence of government spending on income and output. It also provides students with a useful understanding of the product and money market and their interaction using the IS/LM framework; the design and effects of monetary and fiscal policy; budget deficits and government debt; and the open economy Framework. This course provides an introduction to the economic analysis of key macroeconomic variables such as national output, inflation, interest rates, exchange rates, unemployment, and business cycles. The course will conclude with a discussion on globalization and the challenges in steering the economy in turbulent global imbalances.

Course Objectives

At the end of the course, students are expected to:

- Demonstrate managerial skills and competencies required for understanding and analyzing the macroeconomic scenarios for business decision making.
- Demonstrate business knowledge in locating and interpreting macroeconomic data; and identify and explain important macroeconomic concepts using the stylized facts of business cycle fluctuations, economic growth, and unemployment.
- Show their problem-solving aptitude by identifying current economic issues and debates, then apply simple macroeconomic models to analyze and interpret policy issues.
- Demonstrate problem-solving ability in evaluating the scope for policy to improve macroeconomic performance.
- Analyze macroeconomic economic models to explain and interpret the behavior of key macroeconomic variables
- Demonstrate leadership using sound macroeconomic knowledge and credible decision making.

Learning Outcomes

5. Students will make an informed and effective selection with the application of macroeconomic knowledge in a discipline or profession, in the contexts of local and global business.
6. Students will define and address business problems, and propose effective evidence-based solutions, through the application of rigorous macroeconomic analysis and critical thinking.
7. Students will be able to utilize a simple contemporary economic model such as the aggregate supply/aggregate demand model and describe the interrelationships among prices, income and interest rates as they affect consumption, saving and investment.
8. Students will be able to describe the contemporary monetary and banking system and analyze the role of money, credit, and Reserve Bank of India's monetary policy.
9. Students will be able to analyze fiscal and monetary policy decisions to counter business cycle swings by using macro-economic models.
10. Students will be able to outline the role of comparative advantage in exchange and the importance of exchange rates. Describe the role of international trade and finance in domestic economic activity.
11. Students will be aware of the global business environment and will be actively committed to recognize and respect diversity in cultural norms, beliefs, and values, and will apply this knowledge to interact, communicate and work effectively in diverse environments.

- **Macroeconomics** by Gregory Mankiw. 9th edition, 2016. Worth Publishers.
- **Macroeconomics** by Andrew B. Abel, Ben Bernanke, and Dean Croushore. 8th Edition, 2015.
- **Macro ECON: A South-Asian Perspective** by William A. McEachern & A. Indira. 1 edition, 2013. Cengage

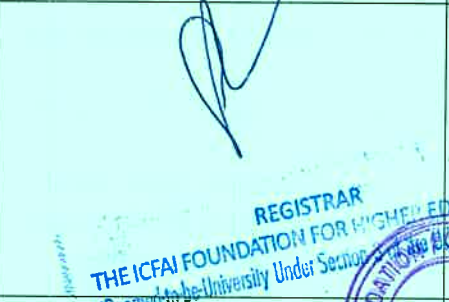

Course Outline:

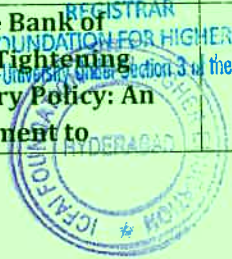

Topic	Learning Outcomes	Case /Reading article/ Lecture / Activity	Chapters - Reference pages
<p>Introduction to Economic Analysis:</p> <p>Macroeconomics Vs. Microeconomics, Goals & Objectives of Macroeconomics, Tools of Macroeconomic Policy, Key concepts of macroeconomics- GDP and its importance.</p>	<p>After reading this chapter, students should be able to understand:</p> <ul style="list-style-type: none"> • The scope of macroeconomics in the corporate world. • Recognize a variety of situations where the macroeconomic ideas can be applied. • Explain the goals of macroeconomic inquiry. 	<p>Introductory lecture</p>	<p>pp. 2-3.</p>
<p>Case discussion:</p>		<p>Irish Economy: A Model of Success (MEBE0001) (IBSCRC Case)</p>	
<p>Measuring National Output/ Income:</p> <p>Circular flow of macroeconomic activity, Two sector model, Three sector model, Four sector model, Nominal GDP vs. Real GDP, GDP deflator, GDP at market price, GDP at factor cost, GNP, NNP, NNP at factor cost, NDP at factor cost, IIP, Release of GDP figures and the economic outlook and reaction of the corporate sector.</p>	<p>After reading this chapter, students should be able to:</p> <ul style="list-style-type: none"> • Define macroeconomics and explain how economic indicators like GDP are used to assess the state of the economy. • Differentiate between and calculate nominal and real GDP • Describe economic growth • Identify key institutional factors that contribute to economic growth. 	<p>Video 1: Time to fix GDP? https://voxeu.org/content/time-fix-gdp</p>	<p>pp. 10-12 14-15 23-26 35, 38-39.</p>
<p>Methods for measuring National Income:</p> <p>Product Approach, Income Approach, Expenditure Approach, Problems of measuring GDP, Real Vs Nominal Income, other measures of development: Measures of Wellbeing such as HDI, Gross National Happiness Index, etc., Economic Growth vs Economic Development,</p>	<p>After reading this chapter, students should be able to understand:</p> <ul style="list-style-type: none"> • What GDP measures- and what it doesn't? • Why aggregate income equals aggregate output? 		<p>pp. 26 -30, 35-37, 57-61.</p>

The implication of Economic Growth			
Case discussion:		National Income Accounting: A Case Study of China (MEBE0004) (IBSCRC Case)	
<p>Aggregate Demand and Aggregate Supply: Classical and Keynesian Approach:</p> <p>Meaning of Aggregate Demand and Aggregate Supply, Aggregate Demand and Supply Curve, Factors shifts aggregate demand and supply curve.</p> <p>Determination of price level through aggregate demand and supply, Aggregate supply curve in Classical view. The aggregate supply curve in Keynesian view. Says Law of Market.</p>	<p>After reading this chapter, students should be able to understand:</p> <ul style="list-style-type: none"> • The nature of aggregate demand and aggregate supply. • The components of aggregate demand and their determinants. • Why the short-run AS curve slopes upward? • How aggregate demand and aggregate supply affect the economy? • Use the AD-AS model to explain the equilibrium levels of real GDP and price level • Examine factors that shift aggregate supply and aggregate demand • Illustrate economic growth, unemployment, and inflation using the AS/AD model 		pp. 5-9, 98-114, 198
<p>Determination of Equilibrium Income - Keynesian Approach:</p> <p>Consumption function, Keynes Psychological Law of Consumption, Marginal Propensity to Consume, Marginal Propensity to Save, Average Propensity to Consume, Average Propensity to Save, Determinants of Consumption, Factors influencing consumption, Saving function, Investment function, Investment demand curve, Shift in the investment demand curve, Determinants of Investment, Types of investment-Private Vs. Public, Induced Vs. Autonomous, Gross vs. Net investment, Business fixed investment, Residential investment,</p>	<p>After reading this chapter students should be able to understand:</p> <ul style="list-style-type: none"> • Determinants of the Consumption function. • Factors influencing investment, consumption, saving. • The relevance of Keynesian theory. • Implications of spending and saving in an economy. 	  	PP. 44-45, 47, 63-64, 193, 199-205 326-336 352-360 364-373

Inventory investment, Implications of Investment in an Economy, How a change in interest rate affect aggregate demand			
Case discussion:		Germany's Economic Dilemma: To Save or to Spend? (FCP0006) (IBSCRC Case)	
Product Market: Concept of Multiplier – Assumptions of Multiplier, Importance of multiplier, Simple multiplier, Two-sector and three-sector model, Types of the multiplier, Investment multiplier, foreign trade multiplier, Balanced Budget multiplier. The multiplier in the presence of tax.	After reading this chapter, students should be able to understand: <ul style="list-style-type: none"> • What is investment multiplier, balanced budget multiplier, foreign trade multiplier and what are the implications of them? 	Ref Article 1: Government spending multipliers in good times and in bad: Evidence from US historical data https://voxeu.org/article/us-fiscal-multiplier-historical-evidence	pp. 205-211 403-405 414, 438
Test-1 (Objective type): Weightage 20	Coverage: sessions from 1 to 10		
Money Market: What is money? The evolution of money and forms- Barter, Commodity money, Paper money, bank deposits. The functions of money (a) Money as a medium of exchange (b) Money as a measure of value(c) Money as a store of value(d) The standard of Deferred payments. The determinants of demand for money, The supply of money, The sources of money supply, Central bank and high powered money, Measurement of high powered money, Purpose of measuring money supply, The Keynesian demand for money function (a)The transaction demand for money(b) the Precautionary demand for money (c) The speculative demand for money. The Keynesian theory of interest rate, Components of money supply-	After reading this chapter, students should be able to understand: <ul style="list-style-type: none"> • What money is? • Describe how money is created by bank lending • Explain the functions of money, and define liquidity. • How does the money multiplier work? • Keynesian theory of demand for money. • Measures of the money supply. Determinants of money supply and demand for money. • How do changes in the money supply affect the economy? 	Video 2: Demonetization https://www.youtube.com/watch?v=sIYBxa4IB5I&index=22&list=PLzBocLh5ipFQCM5F9VfzBefsl_wYWXA	pp. 382-396 513

THE ICAI FOUNDATION FOR HIGHER EDUCATION
(Deemed to be University Under Section 3 of the UGC Act, 1956)

<p>M1, M2, M3 and M4, Measurement of money supply. Implications of the money supply.</p> <p>Money Multiplier Approach, Role of Banking systems and creation of money, Determinants of money supply, How interest rate is determined? Real Vs. Nominal interest rates, Liquidity, How do changes in the money supply affect the economy? Negative Interest rates and its implications on an economy.</p>			
<p>Case Discussion:</p>		<p>India's Demonetization: A Short-Term Loss or a Long-Term Gain? (ECON061) (IBSCRC Case)</p>	
<p>Price Stability: Inflation Vs. deflation, Various measures of inflation, Types of inflation-Low inflation, Galloping inflation, Hyperinflation, Threshold inflation. Demand-pull Vs. Cost-push inflation, Stagflation, Expected Vs. unexpected inflation, Core inflation Vs. Headline inflation, The role of government and RBI to control inflation, Economic impacts of inflation, Is a little inflation is good for the economy? Price in the AD-AS framework, The Phillips curve, Short-run Philips curve, and Long-run Philips curve.</p>	<p>After reading this chapter, students should be able to understand:</p> <ul style="list-style-type: none"> • The meaning of price stability/instability. • Define inflation and explain how the rate of inflation is calculated. • How inflation is measured? • Identify the consequences of inflation • Why Government/Policymakers and the public are more concerned with inflation? • How does the Government/Monetary authority deal with inflation? • How an unemployment-inflation trade-off arises? 	<p>Video 3: Venezuela's Inflation to hit 1,000,000% https://youtu.be/SCz1x5-tgig</p> <p>Ref Article 2: Examples of hyperinflation from Zimbabwe. http://www.nytimes.com/2006/05/02/world/africa/02zimbabwe.html?_r=1&oref=slogin</p>	<p>pp. 39-44. 6, 119-127 130-134 176-185 514-519</p>
<p>Case Discussion:</p>		<p>Venezuela's macroeconomic crisis: An enduring ordeal of the worsening economy with alarming inflation, (ECC0058) (IBSCRC Case)</p>	
<p>Business Cycles & Unemployment: Features of Business Cycles: (a) Aggregate economic activity (b) Expansions and contractions</p>	<p>After reading this chapter, students should be able to understand:</p> <ul style="list-style-type: none"> • Explain the goals of macroeconomic inquiry. 		<p>pp. 6, 10-18, 135, 143-146, 153-170</p>

<p>(c) Co-moments (d) Recurrent but not periodic (e) Persistence. Phases of the business cycle: (a) Boom (b) Peak (c) Recession or contraction (d) Through (e) Recovery. Business cycle facts: (a) Direction (b) Timings. Business cycle theories: Exogenous vs. internal theories, Demand induced cycle, Monetary theories, Political theories of business cycle, Real business cycle theories, Supply shocks theory, Can we predict the business cycle? Types of unemployment Okun's Law Economic Impact of unemployment. Can we eradicate unemployment completely?</p>	<ul style="list-style-type: none"> • Explain business cycles, including recessions, depressions, peaks, and troughs • Theories of Business cycle. • Impact and implication of the business cycle. • How unemployment is measured? • Unemployment and its major types • Examine the causes of unemployment, including cyclical, frictional, structural, and natural unemployment. 		<p>494-498 500-503 564-565 577, 595</p>
<p>Case Discussion:</p>		<p>Brazil's Economic Crisis: A Tough Road Ahead (ECON065) (IBSCRC Case)</p>	
<p>Monetary Policy: Objectives of monetary policy, Instruments of monetary policy-open market operation, bank rate, cash reserve ratio, statutory liquidity ratio, the repo rate, reverse repo rate, marginal standing facility, liquidity adjustment facility, market stabilization scheme. Easing vs. tightening of monetary policy, Expansionary and contractionary monetary policy Impact of Monetary Policy. Impact of demonetization on the Indian economy.</p>	<p>After reading this chapter, students should be able to understand:</p> <ul style="list-style-type: none"> • How monetary policy affects macro outcomes? • The constraints on monetary policy. • How monetary policy affects the liquidity of an economy? • Explain the structure, functions, and responsibilities of the central bank. • What are the monetary policy instruments to deal with macro-economic problems such as low economic growth, inflation, and business cycles? • Explain how monetary policy affects GDP and interest rates. • Explain and show how monetary policy impacts aggregate demand 	<p>Video 4: Monetary Policy and Inflation Targeting Part 1 https://www.youtube.com/watch?v=WGoAtz2cUBU&list=PLzBocLh5ipFQCM5F9VfzBe_fesl_wYWXA&index=8</p> 	<p>pp. 189-193 253-268 405-408 410-411 547</p>
<p>Case Discussion:</p>		<p>Reserve Bank of India's Tightening Monetary Policy: An Impediment to</p>	<p>REGISTRAR THE ICFAI FOUNDATION FOR HIGHER EDUCATION (Deemed to be University under Section 3 of the UGC Act, 1956) HYDERABAD</p> 

			Economic Growth? (MOP0023IRC) (IBSCRC Case)	
Test-2 (NCP 2): Weightage 20	Coverage: sessions from 11 to 21			
Fiscal Policy: Objectives of Fiscal Policy, Types of Fiscal Policy- Discretionary Vs. Non-discretionary Fiscal Policy, Expansionary Vs. Contractionary Fiscal Policy. Fiscal instruments- Taxes, Public expenditure, Public borrowings. Tax structure- Direct and Indirect tax. Impact of GST on the Indian economy. Role of Fiscal Policy during inflation and deflation. Laffer curve, Fiscal Policy, and stabilization, types of deficits, Public debt, Crowding-out effect.	After reading this chapter, students should be able to understand: <ul style="list-style-type: none"> • The tools of fiscal policy. • How fiscal stimulus or restraint affects macro outcomes? • Role of Fiscal Policy during macro-economic imbalances. • Identify the major spending categories and major revenue sources in the budget • Explain fiscal policies, including automatic, expansionary, and contractionary fiscal policies. • Differentiate between deficit and debt. • Who bears the burden of the national debt? • Explain how economic growth or decline can influence a budget surplus or budget deficit 	Video 5: Fiscal Policy, Fiscal Rules, and the GST I and II Part 1 https://www.youtube.com/watch?v=CPRy2-biSH4&list=PLzBocLh5ipFQCM5F9VfzBe fesi w YWXA&index=5	pp. 211-219 268-286 429-433	
Case Discussion:			Ireland: Turnaround by Tax Policy (MEBE0024) (IBSCRC Case)	
IS-LM Framework: Product and Money Market Equilibrium, Hicks-Hansen Model: IS-LM analysis. The slope of the IS curve, Shift in the IS curve, Shift of the LM curve. Monetary Policy and its impacts on the LM curve. Fiscal Policy and its impact on the IS curve.	After reading this chapter, students should be able to understand: <ul style="list-style-type: none"> • What is the goods market? • What is the money market? • How does equilibrium reached through money market and goods market? 		pp. 224-249	
Case Discussion:			Global Financial Crisis and Its Impact on Real and Financial Sectors in India (MEBE0038) (IBSCRC Case)	

<p>Open-Economy Framework: International Vs. Domestic trade, The advantages of international trade. Theories of International Trade, Theory of Absolute and Comparative advantage, Protection and WTO, Issues related to the tariff.</p>	<p>After reading this chapter, students should be able to understand:</p> <ul style="list-style-type: none"> • Why nations go for international trade? • Explain the absolute advantage and comparative advantage • How trade flows are affected by Fiscal Policy? • What are the theories of international trade? • Explain the origin and role of the World Trade Organization (WTO) • How trade barriers affect prices, output, and income? 		<p>pp. 290-291</p>
<p>Open-Economy Framework: Fixed exchange rate, Floating exchange rate, Managed floating exchange rate, Nominal exchange rate, Real exchange rate, Effective Exchange rate, Determination of Exchange Rate, Factors influencing the exchange rate, Participants of foreign exchange markets.</p>	<p>After reading this chapter, students should be able to understand:</p> <ul style="list-style-type: none"> • Define currency exchange rates and explain how they influence trade balances • How changes in the exchange rate affect prices, output, and trade flow? • Analyze how supply and demand affects foreign currencies and exchange rates • Explain how appreciating or depreciating currency affects exchange rates • Explain how the balance of trade (surplus or deficit) affects the domestic economy 	<p>Video 6: Exchange rates and inflation https://voxeu.org/content/exchange-rates-and-inflation</p>	<p>pp. 293-299 535-541 559-561 566-567</p>

<p>Open-Economy Framework: Balance of Payments Current Account, Capital Account, Financial account. The effects of Crude oil /Gold price on Current account. Globalization and Global imbalances.</p>	<p>After reading this chapter, students should be able to understand:</p> <ul style="list-style-type: none"> • The BoP crisis and its implications. • Why BoP should always be in balance? 	<p>Ref Article 3: A primer on balance-of-payments crises https://voxeu.org/content/sudden-stops-primer-balance-payments-crises</p>	<p>pp. 291-293 542</p>

Case Discussion:		Trade Deficits, Current Account Deficits, and Exchange Rates in the US: The Policy Implications (MEBE0026) (IBSCRC Case)	
Test-3: Group Project Submission (Weightage 10)			

Evaluation Timelines

Keeping in line with continuous evaluation at IBS the following evaluation schedule has been drawn. Students are expected to go through the dates/sessions mentioned and prepare accordingly.

Component	Component Number	Weightage
1. Class Participation (CP1)	1.1	5
2. Class Participation (CP2)	1.2	5
3. Test I (Objective type)	2.1	20
4. Test II (Descriptive type)	2.2	20
5. Project report	3	10
6. End term exam	4	40
	Total	100

Course Code: SLMM502
Course Name: Marketing Management-II

Course Objective: The objective of this course is to develop the participants' basic analytical skills, conceptual abilities and substantive knowledge in the field of marketing management. It seeks to achieve the objectives by helping the participants undergo meaningful exercises in decision making in a variety of real life marketing situations. This course builds a foundation for those participants who plan to take Marketing Elective courses in the second year. It is also designed to serve as a terminal course for those not intending to specialize in Marketing.

Learning Outcomes:

- In-depth knowledge of competitive dynamics and how to integrate marketing strategy into the overall business strategy with special reference to finance, HR, operation & Technology.
- Frameworks for analyzing customer preferences and enhancing customer intimacy through services and brand management.
- Influence of social media, social marketing and effectiveness of rural marketing to marketer.

Recommended Text Book:

- **Marketing Management**, 15th Edition, by **Kotler, Keller** Pearson Publication

EVALUATION

The students will be evaluated continuously on the basis of the following components **across all the sessions.**

Sl. No.	Components	Weightage
1	Class Participation - 1	10%
2	NCP – I (MCQs)	20%
3	NCP-II (Subjective Questions)	20%
4	NCP-III (Project)	10%
5	End-Term Exam	40%

Course Code: FLIP500

Summer Internship Program

Course Description and Objectives

In order to gain corporate exposure the students are supposed to undertake a project in the opted companies. The Summer Internship Program (SIP) is scheduled after the completion of second semester. It is a time bound and goal oriented program for a duration of 12 weeks. This carries weightage of 10 credits. The students are also encouraged to generate SIPs on their own (self-generated) depending on their contacts. The self-generated summer projects are evaluated by SIP Committee in terms of quality, standards and learning, location etc. In case the students are not able to generate on their own, IBS assists in generating projects through faculty members and Placements Department.

Semester: III

Course Code: SLGM601

Course Name: Business Process Integration

Course Objective:

- Concepts related to ERP would be made clear to the students
- To assist in understanding how the various steps involved in the planning process is mapped and integrated in the software
- To impart working skills to the students in ERP environment through a case study method and lab exercises

Learning Outcomes:

At the end of the course, the student will be able to:

- Acquire user level skill in an Enterprise Resource Planning software environment.
- Understand and appreciate the steps involved in adopting appropriate ERP and to know how to implement ERP in an Organisation

Recommended Text Book:

- SAP University Alliances Handbook (Reading Materials: Intro to SAP, navigation and intro to GBI)

Suggested books:

- Magal and Word. 2009
- Alexis Leon. 2006.
- Daniel C Wood. 2007. Paul Greenberg

Course Outline

Topic / Area Covered	Key Concepts	Learning Outcomes	Case details	Chapter Reading
Process view of Organisation and ERP, SCM, CRAM				
<p>Process View of Organization and Enterprise Resource Planning (ERP), Supply Chain Management (SCM) and Customer Relationship Management (CRM):</p> <p>Introduction to business process. Functional view and process view of organization.</p> <p>Need for Business Process Reengineering (BPR).</p> <p>Introduction to ERP, CRM and SCM.</p> <p>Operational advantages</p>	<p>ERP Implementation at BPCL (ITSY/005) -</p>	<p>To know about ERP, SCM, CRM and their relation</p>	<p>ICMR Case - Author: K.Subhadra, Year 2002.</p>	<p>Chapter 1 in the book by Magal and Word. 2009</p> <p>Part I, II, and V in the book by Alexis Leon. 2006.</p> <p>Part I in the book by Daniel C Wood. 2007.</p> <p>Part I and Part II in the book by Paul Greenberg</p>

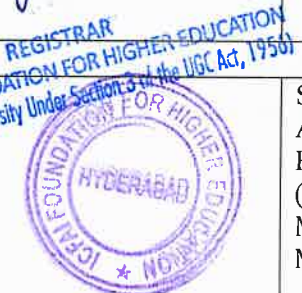

and problems of ERP implementation. CRM modules.				
Business value of SCM systems. Integration of SCM and CRM with other enterprise applications.				

ERP (SAP) GLOBAL BYKE INC

SAP ERP (Global Bike Inc): Overview of SAP (ERP Vendor), Introduction to Global Bike Inc. (GBI). Overview of SAP Modules: sales & distribution (SD), materials management (MM), production planning (PP), financial accounting (FI), managerial accounting (CO) and human capital management (HCM).	Case: Intro to Global Bike Incorporation (GBI).	To gain familiarity with : (1) Organization structure of GBI 2. Business processes 3. Subsidiaries, functionalities and locations Various modules on SAP which helps in integration of the functionalities within GBI	SAP Labs Case: Intro to Global Bike Incorporation (GBI).	SAP University Alliances Handbook (Reading Materials: Intro to SAP, navigation and intro to GBI)
--	---	---	--	--

Navigation in SAP ERP s/w: Login Details. Setting up passwords. SAP EASY Access, Toolbar, SAP Menu, Favourites Menu, Transaction Codes, SAP help, SAP Library.	Assigning Logins and Password in the class. Explaining the procedures of Logging in. Familiarizing with SAP Screens and Menus	To understand the : (1) Login Process (2) Navigation through the various options available		SAP University Alliances Handbook (Reading Materials: Intro to SAP, navigation and intro to GBI)
---	---	--	--	--

SALES AND DISTRIBUTION

Sales and Distribution (SD) Module: Overview of SD Module [Theory]	Discussion about Sales and Distribution Process w.r.t. GBI.	(1) Gain Understanding of Sales and Distribution Module (2) Completion of exercises related to		SAP University Alliances Handbook (Reading Materials : SD Module)
--	---	---	--	---

		Sales Process, Customer Inquiry		SAP SD (covers SAP ECC 6.0) – Black Book
SD Lab Session 1 & 2: Sales Order Process – Cycle 1 [Order Entry to Receipt of Payment].	SD Exercises 1-8			SAP University Alliances Handbook (SD Module Exercises)
SD Lab Session 3 - 6: Sales Order Process – Cycle 2 [New Customer (Master Data) - Customer Inquiry - Receipt of Payment].	SD Case Study Exercises : Integrated Sales and Distribution Process			SAP University Alliances Handbook (SD Module Case Study Exercises)
Materials Management (MM) Module: Overview of MM Module [Theory]	Discussion about Materials Management Process w.r.t. GBI.	(1) Gain Understanding of the Materials Management Process, Purchase Order (2) Completion of exercises related to Purchase Order, Order Entry		SAP University Alliances Handbook (Reading Materials : MM Module) SAP MM (covers SAP ECC 6.0) – Black Book
MM Lab Session 1 & 2: Purchase Order Process – Cycle 1 [Order Entry – Accounts Payable]	MM Exercises 1-5			SAP University Alliances Handbook (MM Module Exercise)
MM Lab Session 3 - 6: Purchase Order Process – Cycle 2 [New Vendor & New Trading Goods (Master Data) - Order Entry – Review G/L Accounts].	MM Case Study Exercises : Integrated Materials Management Process			SAP University Alliances Handbook (MM Module Case Study Exercises)
MID TERM EXAM				
Production Planning (PP) Module: Overview of PP module [Theory].	Discussion about production planning and execution process w.r.t. GBI.	(1) Gain understanding of Bill of Material and the Routing process (2) Completion of		SAP University Alliances Handbook (Reading Materials : PP

		exercises related to Production Planning		Module)
PP Lab Session 1 & 2: Production Planning Process – Cycle 1 [Display Stock – Display Work Center]	PP Exercises 1-6			SAP University Alliances Handbook (PP Module Exercises)
PP Lab Session 3 - 5: Production Planning Process – Cycle 2 [Change Material Master – Review Stock]. Manufacturing Execution Process. [Production Order – Settle Cost]	PP Case Study Exercises : Integrated Production Planning and Execution Processes			SAP University Alliances Handbook (PP Module Case Study Exercises)
Discussion about financial accounting process w.r.t. GBL.	(1) Gain understanding of Financial Accounting Module (2) Completion of exercise related to- Financial Accounting, Chart of Accounts, Display Options related to G/L Account Document, Financial Accounting Documents			SAP University Alliances Handbook (Reading Materials : FI Module) SAP FICO (covers SAP ECC 6.0) – Black Book
FI Lab Session 1: Financial Accounting Process – [Display Chart of Account – Display Changes to Financial Accounting Documents].	FI Exercises 1- 9			SAP University Alliances Handbook (FI Module Exercises)
Managerial Accounting (CO) Module:	Discussion about managerial accounting process	(1) Gain Understanding of Managerial		SAP University Alliances Handbook

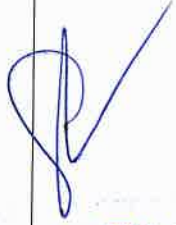

Overview of CO Module. [Theory].	w.r.t. GBI.	Accounting Module.		(Reading Materials : CO Module) SAP FICO (covers SAP ECC 6.0) – Black Book
CO Lab Session 1: Managerial Accounting Process. [Review Cost Center – Display Individual Line Items]	CO Exercises 1- 4			SAP University Alliances Handbook (CO Module Exercises)
Human Capital Management (HCM) Module: Overview of HCM module [Theory].	Discussion about Human Capital Management process w.r.t. GBI.	(1) Gain Understanding of Human Capital Management Module (2) Completion of exercises related to: Organization structure, Personnel Master Record, Organization Plan		
Human Capital Management Process – Cycle 1 [Model Organizational Structure - Display Personal Master Record].	HCM Exercises 1- 6			SAP University Alliances Handbook (HCM Module Exercises)
Human Capital Management Process – Cycle 2 [Create Positions – Display Changes].	HCM Case Study Exercises : Human Capital Management Processes			SAP University Alliances Handbook (HCM Module Case Study Exercises)
Step No. 1. WM (Warehouse Management) WM Exercise: Cycle 1 1. Display Storage bin 2. Run Bin Status report Step No. WM Case Study: Cycle 2 Warehouse Management Case Study

Course Name: Business Strategy

Course Objective: This course enables the students to understand how businesses can develop competitive advantage through strategically synchronizing various functional areas, processes and systems in an organization to be in coordination with internal and external environments and the challenges it throws thereof. The course traverses through the stages of strategy formulation, implementation, evaluation and contemporary innovative practices.

Learning Outcomes: By the end of the course, students are expected to have a detailed knowledge of the strategic management process and its role in creating sustainable competitive advantage. Further, students are expected to appreciate the strategic choices that organizations make at SBU as well as corporate levels for future growth and sustainability.

Text Book:

- Strategic Management, 12e, Hitt, Ireland, Hoskinson & Manikutty, Cengage Learning.

Suggested reference books:

1. Exploring corporate strategy: Text and cases, – Johnson, G., Scholes, K., & Whittington, R., Pearson Education.
2. Crafting & Executing Strategy: The Quest for Competitive Advantage - Concepts and Cases, 19e, Thompson, A., Peteraf, M., Gamble, J., Strickland III, A. J., & Jain, A. K. McGraw-Hill Education.
3. Concepts in Strategic Management & Business Policy, 13e, Thomas L Wheelen & David Hunger J, Pearson publication.
4. Strategic Management, 3e, Dess, Lumpkin & Eisner, Tata McGraw Hill
5. Strategic Management and Competitive Advantage, 5e, Jay B Barney & William S. Hesterly, Pearson.
6. Competing for the Future, 1e: CK Prahalad & Gary Hamel, Free Press.
7. The Fortune at the Bottom of the Pyramid , 1e - Prahalad, C. K. Pearson Education, India.
8. Blue Ocean Strategy: How to Create Uncontested Market Space and Make Competition Irrelevant , 1e - Kim, W. C., & Mauborgne, R. Harvard Business Review Press.
9. Business model generation: a handbook for visionaries, game changers, and challengers, 1e, Osterwalder, A., & Pigneur, Y., John Wiley & Sons.
10. Cases in Environment of Business, 1e, David W Conklin, Sage Publishing.

Teaching and Evaluation Plan:

Session-wise agenda	Learning Outcomes	Reading
<p>Class discussion: Topic: Strategic Management & Process: Strategy and strategic management process – vision, mission, objectives, choices, & implementation; Competitive advantage (CA) & different measurements; Strategic drift; Emergent versus intended strategies; & Logical incrementalism.</p>	<p>Understanding the relevance of strategic management to CA & Logical incrementalism for considering emergent strategies.</p>	<p>Text Book Chapter: 1</p> <p>1 HBR Article</p>

Semester: IV

Course Code: SLGM602

Course Name: Business Ethics & Corporate Governance (BECG)

Course Description:

Business Ethics & Corporate Governance (BECG) applies ethical theories and practice to business management. This course introduces Business ethics as the modern management approach to ethical question in business environment. It gives not only understanding of theoretical concepts, but also developing skills of identification, analysis and permission of ethical dilemma at workplace.

Course Objectives:

1. Discuss the nature and scope of Business Ethics
2. Explain the issues and challenges in Corporate Governance
3. Describe the applicability of these critical aspects of business to the contemporary management.

Learning Outcomes:

1. Demonstrate a holistic view of different aspects of Business Ethics and Corporate Governance
2. Develop various corporate responsibilities and practices in their professional life.
3. Discuss the contemporary developments in the business ethics and corporate governance
4. Develop critical thinking skills via the application of concepts and theories to business cases.

Recommended Text Book:

- Business Ethics & Corporate Governance - Fernando, A. C.; Pearson Education, 2nd edition

Reference books:

1. Business Ethics: Concepts and Cases – Velasquez, Manuel G.; Pearson Education, 7th edition
2. Corporate Governance - Banks, Erik; Macmillan, 2004

Course Outline:

Topic	Learning Outcomes	Case /Reading article/ Activity	Lecture / REGISTRATION / (Deemed to be University Under Section 3 of the UGC Act, 1956)	Chapters
TB: Introduction: ___Personal, professional & business ethics	Relevance of ethics at three personal, professional and business level	Introductory Lecture		

Introduction Need & significance of Business Ethics	Discuss the significance of Business ethics	HBR Article-1: How (Un) ethical Are You?	
Introduction Concepts of business ethic	Describing the framework of business ethics	HBR Article-2: Ethical Frameworks for Management	
Introduction Summary of various theories	Discuss the philosophies of business ethics	Case-1 discussion: Differences at work: Jenny (A) & (B)	
Ethical issues & Challenges: Ethical issues regarding different aspects of business	The executive functions: morality & ethical challenges		3-7
Environmental Ethics & Marketing Ethics	Role of corporations in environmental management and defining marketing ethics	HBR Article-3: What's a Business For?	
Ethical issues in HRM	Role of HRM in creating an ethical organization	HBR Article-4: Ethics in Practice	
Ethical issues in Financial management	Constraints to ethical practices in financial services	Case-2 discussion: Firing a hero	
Corporate social responsibility: Why CSR;	Logic and scope for CSR in business; The Indian perspectives		8 & 9
The external standards; investor's rights & protection.	Ethical governance	Article-5: What Aristotle Can Teach Firms About CSR	
CSR and ethics	Social responsibility of the business	Article-6: Is Business Bluffing Ethical?	
CSR as business strategy for sustainable development	Learning the significance of CSR in business strategy	Case-3 discussion: Can an 'Ethical' Bank Support Guns and Fracking	
Ethical Dilemmas	Discuss the ethical dilemmas		10 & 12
Sources of ethical problems	Describe the ethical problems	Video-1 discussion: 6mn clipping from 'Corporate'	
Test 1	Sessions 1-14 Chapters covered 1,2,3,7,8,9,10 &12		
Models of Business Conduct	Discussion on the Models of Business Conduct	Article-7: Can a Corporation Have a Conscience?	
Globalization and business ethics	Describing the Globalization and business ethics	Case-4 discussion: An Intern's Dilemma	
Ethical Decision Making	Applying moral philosophies to ethical decision making		11
Ethical models	Discussion on ethical models	HBR Article-8: Note on Human Behaviour - Situation Vs Character	
Kohlberg's model of cognitive moral development	Discuss the model of cognitive moral development	HBR Article-9: A Framework for Ethical Reasoning	
A Framework of ethical decision	Describing the Framework of	Case - 5: Jannalal Bajaj, Mahatma	

making	ethical decision making	Gandhi, and the Struggle for Indian Independence	
Corporate governance		Discussion on the emergence of Corporate governance	13,14,15
Theory and practice of corporate governance	Theoretical bases of corporate governance	HBR Article-10: Mergers & Acquisitions: legal context: basic framework for Corporate Governance	
Corporate Governance Committees	Corporate governance and society Prevailing models of Corporate Governance	HBR Article-11: Note on Governance Systems: US, Japan & Germany	
Corporate governance committees	Discuss the recommendations of the committees	HBR Case - 6 discussion: Tech Mahindra and the Acquisition of Satyam Computers (A)	
Internal Mechanisms of CG	Role of the Board, Directors, & Auditors in ensuring good corporate governance		16,17
Corporate management structure	Describing about the corporate management structure	HBR Article-12: Empowering the Board	
Role of the Board, Directors, & Auditors	Discussion on Role of the Board, Directors, & Auditors	Case-7 discussion: Accounting Fraud at WorldCom	
Test -2	Sessions 16-29 Chapters covered 11,13,14,15,16 &17		
External Mechanisms	Market for Corporate Control		18,19
Role of government in ensuring CG; Competition & regulation	Describing the role of government in ensuring CG in Competition & regulation	Case-8 discussion: Boeing's Corporate Governance crisis	
Role of SEBI	Describing the role of SEBI		21,22
Corporate Governance in India: Issues & challenges;	The Companies Act; & regulation of capital markets	Case-9 India 2014 – The Challenges of Governance	

Evaluation:

Keeping in line with continuous evaluation at IBS the following schedules have been drawn. Students are expected to go through the dates / sessions mentioned and prepare accordingly.

Component	Component Number	Weightage
Class Participation	1	10
Test I	2	15

Test II	3			15
Project report	4			20
End exam	At the end of the semester			40
	Total			100

Course Code: SLIT502

Course Name: Management Control Systems

Course Objectives:

- To provide a broad understanding of the control process, control systems and their applications in the real life business situations
- To make the students to acquire the essential skills to design, develop and implement appropriate control systems to real life business situations

Expected Learning Outcomes:

Upon completion of this course, students are expected to:

12. To understand and appreciate the significance of management control systems in an organization
13. To design, develop and execute appropriate control systems to accomplish the strategic objectives of the organization

Recommended Text Book:

- **Management Control Systems** by Robert Anthony and Vijay Govindarajan, 12th Edition, 2019, Mc Graw Hill Education (India) Private Limited

Suggested reference books:

- **Management Control Systems** by Joseph Maciariello and Calvin Kirby, 2nd edition, 2019, Prentice Hall.

Course Outline

Topic	Learning Outcomes	Case /Reading article/ Lecture / Activity	Chapters
Introduction to Management Control Systems	<p>Explain and appreciate the significance of implementing control systems in organizations.</p> <p>Describe various components of a management control system.</p>	<p>Managing Organizational Tensions (HBS 9-117-100)</p> <p>ATH Microtechnologies.</p> <p>Making the numbers (HBS: 9-108-091)</p>	

		Case 1-1: Nucor Corporation (A) (Text Book)	
Organizational Strategies	Students will be able to explain and appreciate why management control systems are important in implementing the corporate strategies.	Cooper Industries' Corporate Strategy A (HBS: 9-391-095)	2
Corporate Culture and Designing of Control Systems	Students will be able to explain how management control systems influence culture and human behavior and leading towards goal congruence.	Guidant Corporation: Shaping Culture through Systems (HBS: 9-198-076)	3
Organization Structure and Control	The students will be able to describe and compare different types of organizational structures and identify the appropriate control systems. Students will be able to appreciate the need of identifying responsibility centers of an organization.	Appex Corporation (HBS: 9-491-082) Case 5-2: North County Auto (Text Book)	4 - 5
Transfer Pricing	The students will be able to appreciate the role of transfer pricing as an internal management control tool.	Case 6-2: Birch Paper Company (Text Book)	6
TEST-1	Sessions 1 to 9	TEST-1 Chapters - 1, 2, 3, 4, 5, 6	
Management Control Process through Budgeting	The students will be able to explain and appreciate the role budget as a control tool.	Empire Glass Company (A) (HBS:9-109-043) Borealis (HBS: 9-102-048)	9
Analyzing and Reporting Financial Performance	The students will be able to explain the need of interactive control systems in an organization.	Variance Analysis and Flexible Budgeting (HBS 9-101-039) Exercises on material and labor variances	10

Management Compensation	The students will be able to explain the significance of rewards and compensation as management control tools.	Case 12-2: Crown Point Cabinetry (Text Book)	12
Management Control Systems in Service Organizations	The students will be able to explain and appreciate the need of management control systems in service organizations and its implementation.	Automation Consulting Services (HBS: 9-190-053)	14
Management Control Systems in Multinational Corporations	The students will be able to explain how to design management control systems in multinational corporations and describe the impact of cultural differences on management control.	Case 15-1: AB Thorsten (Text Book)	15
Management Control Systems in Projects	The students will be able to differentiate how projects organizations are different from manufacturing firms and explain how to design management control systems for project organizations.	Turner Construction Company: Project Management Control Systems (HBS: 9-190-128)	16
Enterprise Risk Management Systems	The students will be able to identify and understand different types of risks associated with an enterprise.	Enterprise Risk Management at Hydro One (HBS: 9-109-001)	
TEST-2	Sessions 11 to 20	TEST-2 Chapters – 9, 10, 12, 14, 15, 16	
Comprehensive view of Management Control Systems	The students will be able to explain the overall aspects and significance of management control systems.	Ranjana Kumar Interview in IIMB Management Review.

Total			100

Course Code: SLEC601

Course Name: PUBLIC POLICY

Course Objectives

The Introduction to Public Policy is a single credit course and the objectives of this course are

- To discuss how self-interested economic agents, both inside and outside government, drive public policy making and how they utilize specific ideas to influence the policy process.
- To discuss how institutions play a role in policy formulation and execution.
- To introduce the basic paradigms of Public Policy to management students in India.
- Widen the knowledge of current issues in public policy and current affairs and relate the concepts to what they observe.

Expected Learning Outcomes

At the end of the course, the student will be able to:

- Understand the features of different actors, processes and stages involved in public policy formulation and execution in India.
- Understand the functioning of different institutions involved in public policy making

Recommended Text Book:

1. Mathur, Kuldeep (2012), *Public Policy and Politics in India*, Oxford University Press, New Delhi

Curriculum

Topics

Ideas, Institutions and Interests: A Framework for Public Policy Analysis – 'Ideas' refer to the scholarly and theoretical discussions and empirical evidences,

Mathur, Kuldeep (2012), chapt. 1

THE ICFAI FOUNDATION FOR HIGHER EDUCATION
(Deemed-to-be-University Under Section 3 of the UGC Act, 1956)

'interests' refer to the gainers and losers from policy changes, and 'institutions' refer to the framework under which interest groups negotiate the ideas.		
Political Economy and the Role of the State – Utilitarianism and other ideas about the role of the state; Role of the state in developing countries; The evolution of the Indian state.	Mathur, Kuldeep (2012), chapt. 1	<u>Lecture</u>
The Institutions and Collective Decision-making – Introduction to Public Choice and other theories; Decision-making in Legislative bodies; Dilemmas of democracy	Mathur, Kuldeep (2012), chapt. 1	<u>Lecture</u>
Elected Representatives as Interested Participants – Principal-agent model; Historical Institutionalism; Non-functional delegation; Political resources	Mathur, Kuldeep (2012), chapt. 7	<u>Lecture</u>
Political Parties and Parliamentary Democracy – Coalition of interest groups; Median voter theory; National interest	Mathur, Kuldeep (2012), chapt. 3	<u>Lecture</u>
The Executive – The three levels of Indian government; Performance Management and Measurement issues, Intent and Ability	Mathur, Kuldeep (2012), chapt. 8	<u>Lecture</u>
Law, Economics and the State – Legislating from the Bench; Role of traditions and precedence; Judicial Activism and Policy Making	Mathur, Kuldeep (2012), chapt. 7	<u>Lecture</u>
The Bureaucracy – Niskanen Model; Permanent Executive vs. Temporary Executive; Bureaucratic elitism in a developing economy	Mathur, Kuldeep (2012), chapt. 9	<u>Lecture</u>
Service Delivery and Good governance – Minimizing delivery failures; Role of Non-Governmental Sectors; Private-Public Partnerships; SMART Governance	Mathur, Kuldeep (2012), chapt. 8	<u>Lecture</u>
Institutional Problems and Reforms – What should change and what should not? Constitutional Political Economy	Mathur, Kuldeep (2012), chapt. 6	<u>Lecture</u>
Administrative Reforms; Police Reforms; Regulatory Reforms	Mathur, Kuldeep (2012), chapter 10	<u>Lecture</u>

Department-Wise List of Electives**Finance Area Electives****Course Code: SHFI630****Course Name: Financial Analytics**

Introduction: Spreadsheets have become one of the most widely used analytical tools in the hands of managers, and hence this course will provide an application-oriented introduction to building excel models for solving business problems. A variety of real world managerial problems is logically modelled, solved and analysed using excel in real on job work environment. Financial models allow finance professionals to gauge the effect of important decision variables and parameters on the final outcome. Many finance books come with pre-programmed models which allow students to solve some problems and do what-if analyses. These models expose students to the power of financial models, but do not teach them how to build models that will be used by others. Most graduates end up learning these skills on the job through trial-and-error and a lot of hard work. This course is intended to fill that gap and equip students to be industry ready.

Course Objectives:

- To equip participants to appreciate and indulge in the Financial Analytics using excel.
- To provide necessary understanding of the capabilities of excel in order to solve real world finance problems.
- To implement the basic financial models learnt in corporate finance courses.
- To explores key ideas, principles, and frameworks that can add value to the financial reporting and analysis in organizations.

Learning Outcomes:

On completion of the module, students should be able to:

- Demonstrate the ability to draft, strategize and develop manageable pieces of problems in order to build financial models.
- Demonstrate an in-depth understanding of the excel tools to build well documented, fool-proof, interactive financial models.
- Demonstrate an understanding and capability to perform what-if analysis and tackle other subtler aspects of finance

THE ICAI FOUNDATION FOR HIGHER EDUCATION
(Deemed-to-be-University Under Section 3 of the UGC Act, 1956)

Prerequisites: Students should be familiar with financial theories and concepts related to the projects. Students should have intermediate level skills in Microsoft Excel (building formulas, relative and absolute addresses, basic statistical and mathematical functions, lookup and if functions, naming ranges, charting).

Evaluation: The evaluation of the learning outcomes will be based on three components, namely, 1. Class participation, 2. Non-Class Participation (Projects) and 3. End Term examination. The class participation will be evaluated on a continuous basis to ascertain active involvement of the students in the classroom dialogues. The non-class participation is aimed at equipping the students to comprehend the intricacies of Financial modelling and come up with solutions to certain identified problems. The end term evaluation is aimed at assessing the ability of students to relate their classroom learning to theoretical concepts and coming up with a solution / strategy in certain cases. For project draft, the students will be formed into several teams of 3 students. Each team will be entrusted with a task to come up with a draft, to strategize and develop financial models and innovations using the appropriate tools and techniques. The draft should entail details pertaining to problems being addressed and also the regulatory and theoretical framework in which the modelled solution will apply.

Academic Integrity Policy: Cheating, fabrication of submitted work, plagiarism and other forms of dishonesty are viewed seriously. Any violation of this nature will invite penalty which may amount to award of zero marks resulting in repetition of course. Anonymous peer evaluation will be conducted after each project and will be an important factor in determining the course marks/grade.

Text Book: Financial Analysis with Microsoft Excel, 7th Edition, Cengage (Timothy R. Mayes and Todd M. Shank)

Reference Books:

1. Chandan Sengupta, Financial Modeling Using Excel and VBA, Latest Edition.
2. Mary Jackson and Mike Staunton, Advanced Modelling in Finance using Excel and VBA, Latest Edition.

Course Plan:

Component	NPTEL Videos Links
Course Overview - Orientation	
D01 (Demo 1) – Stock Valuation	https://www.youtube.com/watch?v=PROdGBUybjs#action=share
P01 (Project 1) – Capital Budgeting	https://nptel.ac.in/courses/1141/0501/1141050101
P02 (Project 2) – Optimal Capital	https://www.youtube.com/watch?v=Z229yOq5vja

P03 (Project 3) – Portfolio Selection	https://nptel.ac.in/courses/110105035/27
P04 (Project 4) – Financial Statements' Forecasting and Valuations	https://youtu.be/Qw4HHMqX5I4
P05 (Project 5) – Options Valuation (Others)	https://www.youtube.com/watch?v=aAQFgf8XKys
P06 (Project 6) – Financial Planning	-NA-

Project Guidelines:

- Projects must be submitted before the class start time on the due date at my email (riteshdubey@ibsindia.org). Late projects will be assessed with a 25-point penalty (out of a total of 100 points).
- The project should be submitted in one Excel file named PXX-TeamYY, where XX is the project number (01, 02, etc.) and YY, is the team number (01, 02, etc.) For example, the file for Project 3 for team 7 should be named P03-Team07.
- Every project file must have a cover sheet showing the team and project numbers, names of the team members, and any other declarations.

Project Marks / Grades: Each project will be graded out of 100 points. I will evaluate the projects using the following four criteria:

- **Correctness / Accuracy (55 points):** To be considered correct, the model's logic should be implemented correctly and the spreadsheet should work as intended, i.e., should not result in errors or give wrong answers in response to user interaction. To ensure that your model is correct, do a lot of testing of the model.
- **Documentation (15 points):** To be considered well documented, there should be a description of the project for the user which should explain the purpose of the model, the various aspects of the model, how it works, how to use it, and how to interpret the results. There should also be documentation of technical aspects of the model so that someone trying to evaluate the model is able to understand how the model's logic has been implemented. The documentation can be provided in many different ways, e.g., text in cells, textboxes, cell comments, or embedded MS Word documents.
- **Layout (15 points):** To be considered a good layout, the spreadsheet should be aesthetically pleasing, not too busy, and have a logical and easy to follow structure. Use of too many colours and fonts doesn't qualify as well laid out spreadsheet.
- **Innovation (15 points):** To be considered innovative, the model should use some extension (conceptual or software related) not presented / discussed in the class.

Sl. No.	Component	Weightage
1	Project – 1 (Capital Budgeting)	10%
2	Project – 2 (Optimal Capital Structure)	10 %
3	Project – 3 (Portfolio Selection)	10 %

	Total	100

Course Code: SHFI626

Course Name: Banking and Financial Services Analytics

Course Description: Banking and Financial Services Analytics, or applications of Data Mining in banking and financial services firms, can help improve the risk management, customer understanding, risk and fraud analytics enable banks to maintain and grow to be more profitable. The importance of these measures has been implied in Basel II accord that explicitly emphasizes the need to embrace intelligent credit management methodologies in order to manage market uncertainty and minimize exposure risk. A number of financial institutions have been quick to recognize and adopt this emerging technology – and it is changing the banking landscape and giving banks and financial institutions previously untapped savings, margins and profit. The field of analytics has been empowering banks to learn from their abundant historical data, by applying data mining and predictive analytics to extract actionable intelligent insights and quantifiable predictions. Insights about these banking behaviors can be uncovered through multivariate descriptive analytics, as well as through predictive analytics..

Course Objective : The main three objectives of the course is to make student conversant with (i) Exploratory Data Analysis for Banking Risk Modelling and Customer Profiling; (ii) Credit Risk Analytics and (iii) Predictive Analysis for Banking and other financial Companies

Expected Learning Outcomes: At the end of the course the student will gain the following knowledge of:

1. How to predict bad loans and minimize risk of default
2. How to implement fraud detection and prevention and minimize operational risk
3. Developing, validating, stress-testing of PD, LGD, and EAD models for BASEL III
4. Creating business and project plans for credit risk scorecard development
5. Profiling Customers based on their past behaviours

Recommended Text Book: NA / Lecture Notes and SAS Knowledgebase

Suggested reference books:

- Business Analytics and Banking by Jovan Pehcevs
- Credit Risk Analytics by Bart Baesens, Daniel Roach, Harald Scheule

Course Outline

Topic	Learning Outcomes	Case /Reading article/ Lecture / Activity/NPTEL Videos
Introduction to the course	Introduction to Course Structure, Student Expectation, Evaluation Criteria	Introductory lecture
Exploratory Data Analysis	One, two and multidimensional visualizations of data, Clustering , segmentation ,classification of data, regression models, Market basket analysis	Hands on and lecture and discussion
Introduction to SAS and Excel	Implementing exploratory data analysis on a dataset	Hands on
Test-1		
Credit Scoring and Probabilities of Default	the idea of credit scoring, judgmental and statistical scoring: for both retail and nonretail exposures, potential of big data for credit scoring., Hazard Models, Link functions , Profit and Logit Models	Lecture and discussion
Default Correlations and Credit Portfolio Risk	Loss Distribution: the expected loss (EL), the Credit Value at Risk (VaR,), and the expected shortfall(ES).	Lecture and discussion
Loss Given Defaults and Recovery Rates	LGDs and exposure at default (EAD).	Lecture and discussion
Model Validation and Stress Testing	BASEL III Norms for validation and back testing	Lecture and discussion
Test2		
Predictive Analytics in Banking	Fraud Prediction : Logistic Regression	Lecture and discussion
Predictive Analytics in Banking	Data Mining for customer profiling based on customer Characteristics and Customer behavior	Lecture and discussion
Revision

 (Deemed to be University Under Section 3 of the UGC Act, 1956)

Expectations from Students

- a. Students must report to the respective sessions well before the announced time. Latecomers will not be permitted to join the class after the scheduled time. If late, the attendance for that session will be marked as absent.
- b. In the class discussion student is expected to participate actively and contribute to individual and group learning. Evaluation is based on active participation.
- c. Evaluation is a continuous process at IBS. Every student needs to be aware of the timelines given in the section below. Absence from these evaluations will mean non-awarding of marks in that particular component
- d. Each faculty has been given a scheduled consultation hour. Utilize this time to meet the faculty and clarify doubts if any, seek explanations and get mentored if needed.

Evaluation Timelines

Keeping in line with continuous evaluation at IBS the following evaluation schedule has been drawn. Students are expected to go through the dates / sessions mentioned and prepare accordingly.

NCP – 3

NCP 3 (PROJECT EVALUATION)

Project Work	The project is intended to make the students study the profile of various financial centres in the world. This content is not exclusively covered in the class room. Based on the geographical segmentation of financial markets, each group has to select one market. Prepare a report on the profile of financial markets in that country/geographical location. No format is specified for the report. The group can decide its own format. The report should be a comprehensive one. Plagiarism is strictly prohibited. The group has to make a presentation to the class. Marks for the project will be awarded based on a) the quality of the content in the report b) class presentation	Global Stock Exchanges and Regulators websites	The learning's
			<ol style="list-style-type: none"> 1. Understand the respective markets, the products, the intermediaries and regulators 2. Assess the depth of the market 3. Find out financial innovations in the market and the products or processes specific to the respective market 4. Issues and controversies in the respective market

Evaluation Pattern

THE ICFAI FOUNDATION FOR HIGHER EDUCATION
(Deemed-to-be-University Under Section 3 of the UGC Act, 1956)

Course Code: SLFI616
Course Name: Commodity and Commodity Derivatives

Course Overview

This course provides an introduction to commodities as a separate asset class and the significance of strategic asset allocation and risk diversification through investment in commodities. The course discusses the importance of commodity futures market as a dominant player in the price discovery mechanism, relevance of developing well-organized commodity spot markets, regulatory framework of commodity market in India, role of commodity exchanges, pricing of commodity futures and macroeconomic determinants of commodity prices. Moreover, this course is a blend of fundamental and technical analysis of various commodities in order to understand how to maximize the return from commodity investing. At the end of this course, students would be proficient enough to design and implement commodity trading strategies using the skills taught throughout the course.

Course Learning Objectives:

- To understand the rationale of investing in commodities via cash and futures markets.
- To appreciate the role of commodity exchanges and understand the mechanism of futures market in stabilizing the spot market price through effective risk transfer and price discovery.
- To provide basic understanding about the macroeconomic determinants of commodity price and futures pricing.
- To acquire essential skills to execute fundamental and technical analysis of various commodities in order to design and implement effective trading strategies.

Recommended text books:

- Getting Started in Commodities by George Fontanills (GSC)
- Commodities and Commodity Derivatives by Helytte Geman (CCD)
- The Handbook of Commodity Investing by Fabozzi, Fuss, Kaiser (HCI)

Supplementary Reading Materials:

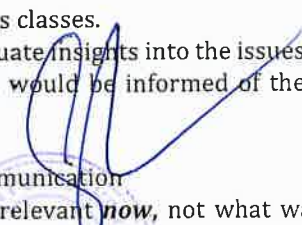

- Commodity Investing – Maximizing Returns through Fundamental Analysis by Dunby, Eckstein, Gaspar, Mulholland (DEGM)
- Commodities Rising – The Reality Behind the Hype and How to Really Profit in Commodities Market by Jeffrey Christian
- Hot Commodities by Jim Rogers

Expectations from the Students

Class Participation:

- It is assumed that students are aware of the concepts discussed in the previous classes.
- Students are required to carefully read the assigned readings to develop adequate insights into the issues.
- Each student will be evaluated daily on the basis of class participation and would be informed of their performance three times during the semester.
- The following are the parameters for evaluating the students.
 - Concepts, Analysis, Preparedness, Attitude, Discipline, Relevance and Communication
- Raise your hands if you wish to speak and contribute to the class what is relevant **now**, not what was relevant fifteen minutes back.
- Quality rather than the quantity of contribution is important.
- Students are expected to listen carefully to their peers and the instructor.
- Seek clarification for your doubts in the class room itself, so that others also get benefited of them.
- Coming late, using cell phones and cross talking in the class are strictly prohibited.

Class Participation Grading

 REGISTRAR
 THE ICEAI FOUNDATION FOR HIGHER EDUCATION
 (Deemed to be University Under Section 3 of the UGC Act, 1956)

- Grading would be a combination of the above points. Paying attention to the above would help a student to get 10. However, as the grading is relative in nature, it does not guarantee 10. For example, you may be good at concepts but somebody may be better than you.
- Similarly, not paying attention to the above points, especially indiscipline or wrong attitude towards your peers, would bring you closer to securing 0.

DELIVERY SCHEDULE

Topic	Concepts Covered	Reading Materials
Course Overview & Introduction.		
Commodities and Major Classifications	What is a Commodity? Major classifications- Bullions, Metals, Energy, Weather, Plantations, Oil & oil seeds, Cereals, Fiber, Spices, Pulses and other Agricultural commodities	Chapter 1: HCI Chapter 1: GSC
Significance of Investment in Commodities	Commodities as a separate asset class, Global demand and supply pattern changes, Strategic asset allocation and risk diversification through investment in commodities.	Chapter 3: HCI
Prospects for Commodity Market Participation	Investment in physical good, Commodity stocks, Commodity managed funds, Commodity index funds, Commodity derivatives; Commodity related ETFs and Commodity linked ETFs.	Chapter 1: HCI Risk Management at Apache (9-201-113)
Physical commodity markets	Importance of commodity spot market, Recent developments in commodity spot market mechanism and Major risks involved in commodity spot transactions.	Chapter 1: CCD
Commodity Derivatives Markets	Significance of commodity derivatives, Types of commodity derivatives, Commodity futures market, Participants in futures markets, The structure of commodity futures markets in India, Regulatory Framework: Forward Market Commission (FMC), Essential commodities Act, Forward Contract Regulation Act.	Chapter 2: CCD Noble Group (9-210-021)
Commodity Exchanges	Why commodity exchanges? Functions-Trading, Clearing and Settlement, Major global and Indian commodity exchanges.	Chapter 2: GSC CME Group (9-711-05)
Commodity Futures	Commodity futures, Distinction between futures and forwards contracts, Understanding futures contract specifications and terminology: calendar and settlement schedule, settlement mechanism, daily mark to market settlement, Margining-Initial margin, Daily mark to Market margin, open interest limits, Final Settlement: Cash settlement or physical settlement, Warehousing.	Chapter 1: GSC Note on Commodity Futures (9-293-018) American Barrick Resources- Managing Gold Price Risk (9-293-128)
Price Discovery	Equilibrium relationship between spot prices and futures prices, Price discovery in futures markets, Statistical tools: Co-integration, Granger-causality and Vector Error Correction Models (VECM).	Chapter 2: CCD Metallgesellschaft AG(9-194-097)
TEST I		
Pricing of Commodity Futures	Investment assets versus consumption assets, The cost of carry model, Theory of storage, Convenience yield, Economics of the commodity markets: Normal backwardation versus contango.	Chapter 2: HCI
Macroeconomic Determinants of Commodity Futures Returns	Commodities as an inflation hedge, Dynamic linkage of Monetary Policy and commodity returns, Commodities and exchange rates, Commodities and business cycles.	Chapter 4: HCI

Commodity Investing - Maximizing Returns through Fundamental Analysis	Understanding Energy-Crude oil, Natural Gas, Gasoline and Heating Oil. Understanding Precious Metals- Gold and Silver. Understanding Industrial Metals- Aluminium, Copper, Lead, Nickel, Tin and Zinc. Understanding Grains and Oil seeds Understanding Soft Agricultural Commodities and Plantation Products and Understanding Weather and Electricity	Chapters 7,8,11, 12 &13: CCD Chapters 31,32 & 33: HCI Chapters 4 to 19: CI Phelps Dodge(9-295-132)
TEST II		
Technical Analysis-Statistical Analysis and Stochastic Modeling of Commodity Returns	Sources of returns, Randomness and commodity prices, Distributional characteristics of commodity prices, Mean reversion, Univariate analysis, Serial correlation, Autoregressive process, Multivariate analysis, Commodity returns and inflation, Stochastic volatility and jumps.	Chapter 9: HCI Chapter 3: CCD
Dynamics of Commodity Returns Volatility	Factors affecting commodity return volatility, Effect of volume, open interest and maturity effect on volatility, Modeling commodity returns volatility- ARCH, GARCH and Asymmetric GARCH Models.	Chapter 2: GSC Chapter 1: CCD
Commodity Investing - More on Technical Analysis	Non Econometric Methods: Charts, Price patterns, Trend Analysis, Moving Average, Oscillators, Bollinger Bands, Elliott Wave theory and Fibonacci series. Econometric Methods: AR-MA process, ARIMA based forecasting.	Chapters 6 & 7: GSC
TEST III		
Concluding Session	Revision of the entire syllabus and doubt clearing	

Course Code: SLBK610
Course Name: Investment Banking

Course Objectives	The course is designed to
15	To introduce investment banking their role of investment bankers in the areas of assisting the individuals, corporations, and governments in raising financial capital by underwriting or acting as the client's agent in the issuance of securities (or both) and the other ancillary services provided by them
16	To introduce different methods of valuation, discounted cash flow, relative valuation and option pricing models. To introduce firm valuation and equity valuation
17	To introduce Blackstone Celenese simulation to the class to apply to practical situation gives on hand experience on valuation
18	To provide the students with conceptual foundation in the realm of investment banking with in-depth discussion of regulations

Learning Outcomes	At the end of the program the student shall be able to
14	Gain an understanding of the role of investment bankers in financial sector
15	Appreciate the difference between price and value.
16	Students will understand how valuation is to be done and different models of valuation.
17	Through simulation technique students will be gain practical exposure to apply valuation principles.
18	Students will understand the regulations of investment banking

Evaluation Pattern						
Component	Test-1	Test-2	Project	CP	Term End Exam	Total
Weightage (%)	15	15	20	10	40	100

Course Code: SLFI608

Course Name: Financial Risk Management

1. Course Objective:

This course gives students a conceptual knowledge and application of the derivative instruments and their applications in managing various types of financial risks. While doing so, students would understand the organizational aspects of those risk functions and their roles & responsibilities and attains problem solving ability. The emphasis is on mechanics, properties and valuation of forwards, futures, options and swap instruments. The student would learn how to value derivative instruments and use them for hedging, speculation, and arbitrage. The student would learn about risk management strategies and practices.

2. Learning Outcomes:

At the end of the course, the student will be able to:

- Conceptually understand the mechanics of Forwards/Futures, Options and SWAP markets
- Comprehend and apply the hedging strategies using futures for real world situations
- Analyze the trading strategies involving options which help the student in understanding problem solving techniques.
- get first-hand experience on valuation of Forwards/Futures, Options, and SWAPS which helps in interpreting and drawing inferences
- understand the basics of exotic derivatives as well as other types of derivatives such as weather derivatives

3. Recommended Text Book:

Hull, John C. & Basu, S., Options, Futures, and Other Derivatives, 8th Edition, Pearson, 2013. (JCH)

Suggested books:

- Dubofsky, David A., Derivatives: Valuation and Risk Management, Oxford Publication.
- Sundaram, R. K and Das, S.R., Derivatives: Principles and Practice, McGraw Hill Publications.

Topics	Key Concepts	Learning Outcome	Chapter Reading	Case details	Digital/ Software Tools	Swayam/NPTEL/YouTube Video Links
Introduction to Risk Management	To introduce the course content and give an overview of the course	Students would understand the importance of risk management in an organization	Ch-1	Why manage Risk? Industry Background Note (9-294-107)	https://www.nseindia.com/products/content/derivatives/equities/fo.htm	https://nptel.ac.in/courses/110105035/37
Introduction to Financial Risk Management	To explain students the importance of Financial Risk Management	Students will learn the dynamics of Financial Risk Management	Ch-1	Honeywell Inc. and Integrated Risk Management (9-200-036)	https://www.nseindia.com/products/content/derivatives/equities/fo.htm	https://nptel.ac.in/courses/110105035/37
Introduction to Derivative Instruments	To introduce the students to various types of derivative instruments such as futures/forwards, options, swaps.	Students should be able to appreciate what it means to take positions in forwards, futures, options and swap markets	Ch-2	Introduction to Derivative Instruments (295141)	https://www.nseindia.com/products/content/derivatives/equities/fo.htm	https://nptel.ac.in/courses/110105035/37

Forwards and Futures	To explain students: i. Differences between forwards and futures ii. Functioning of the futures market iii. Valuation of forwards/futures iv. Futures on stock, index and commodity	Students should be able to calculate and interpret the valuation of forwards and futures, profit arising out of mispricing and effective hedging	Ch-3,5	1. Application For Financial Futures – 3 (9-286-109) 2. Application For Financial Futures – 5 (9-286-109)	https://www.nseindia.com/products/content/derivatives/equities/fo.htm	https://nptel.ac.in/courses/110105035/37
Options	To explain students: i. The fundamentals of options ii. Functioning of the options market iii. Valuation models of Options iv. Options trading strategies/Option Greeks	Students should be able to estimate option prices using option valuation models and implement them for profitable option strategies	Ch-9,10,11,12,14	The Keller Fund's Option Investment Strategy (9-295-096)	https://www.nseindia.com/liveMarket/dynaContent/live_watch/optionChain/optionKeys.jsp?symbolCode=-10000&symbol=NIFTY&symbol=NIFTY&instrument=-&date=-&segmentLink=17&symbolCount=2&segmentLink=17	https://nptel.ac.in/courses/110105035/37
Swaps	To explain students: i. Swaps ii. Forward Rate Agreements (FRAs) iii. Currency Swaps iv. Interest Rate Swaps v. Swap Valuation	Students should be able to describe the positions for fixed rate payer and fixed rate receiver at initiation and during the life of interest rate swap and currency swap	Ch-7	Gaz de France (9-288-030)		https://nptel.ac.in/courses/110105035/37
Credit Derivatives	To explain students: i. Credit Default Swaps ii. Valuation of CDS iii. Risk Management from the perspective of	Students should be able to discuss implications of trading in credit default swaps and credit linked notes	Ch-24			https://nptel.ac.in/courses/110105035/37

	banks and investors iv. Risk Management challenges through credit derivatives					
Weather Derivatives	To explain students: i. Importance of weather derivatives ii. DD scales iii. Using futures, options, and swaps on DD scales	Students should be able to comprehend the mechanics of weather derivatives	Ch-225			https://nptel.ac.in/courses/110105035/37
Value at Risk (VaR)	To explain students: i. The VaR measure ii. Historical simulation method iii. Model building method iv. Monte-Carlo simulation v. Stress testing	Students should be able to measure Value at Risk using delta normal method and historical simulation method	Ch-21			https://nptel.ac.in/courses/110105035/37
Major Events	To explain students: i. Future of derivatives ii. Misuse of derivatives	Students should be able to appreciate the current risk management environment				

Course Code: SLFI611
Course Name: Financial Statement Analysis

Course Objective:

1. To enable students have an in-depth understanding of Assessing Performance of Companies and Financial Position;
2. To enable the student understanding of analyzing and interpreting financial statements of all types of business entities.
3. To enable students to apply the tools and techniques in understanding the complete statement analysis process;

Learning Outcomes:

At the end of the course, the student will be able to:

1. Analyze and interpret the information provided in the financial statements of different business entities;
2. Demonstrate the ability to apply various tools and techniques to analyze financial statements;
3. Demonstrate the ability to use critical thinking, analysis and synthesis for effective decision making;

Pre-requisites: Clear understanding of topics taught in the 1st Semester, Accounting for Managers

Recommended Text Book:

International Financial Statement Analysis by Thomas R Robinson, Elaine Henry, Wendy L Pirie and Michael A Broihahn, Wiley Publication, Third Edition, 2015

Suggested books:

1. The Analysis and Use of Financial Statements, by Gerald. I. White, Ashinpaul. C. Sondhi and Dov Fried - Third Edition - Wiley Publication, 2004;
2. Financial Accounting: Reporting & Analysis - Earl K.Stice & James D. Stice – South Western CENGAGE Learning (Publication)
3. Analysis of Financial Statements - Charles H.Gibson - South Western CENGAGE Learning (Publication)
4. Financial Statement Analysis - John J.Wild, K. R. Subramanyam & Robert F. Halsey - Tata McGraw Hills (Publication)

 (Deemed to be University Under Section 3 of the U.C. Act, 1956)

Course Code: SLFI617
Course Name: Financial Econometrics

Recommended Text: S. T. Rachev et al., *Financial Econometrics: From Basics to Advanced Modeling Techniques*, 2015

Suggested Readings:

1. Tsay R. *Analysis Of Financial Time Series (Econometrics)*, Wiley, 2002
2. W. Enders. *Applied econometric time series*, Wiley, 2005.
3. Chris Brooks. *Introductory Econometrics for Finance*, 2008
4. Damodar N. Gujarati. *Basic Econometrics*, 2007

Course Objectives:

The objective of this course is to extend the practical and analytical knowledge of students and equip them with techniques that will allow them to analyse finance-related issues. After studying this course students will be able to

- Define and compute measures of financial returns, interpret sample moments of financial return and discuss the stylised statistical properties of asset returns
- Analyse and estimate models of autoregressive (AR), moving average (MA), and autoregressive-moving average (ARMA).
- Apply the Box-Jenkins approach to time series models and forecast volatility using autoregressive conditional heteroscedastic (ARCH) models
- Estimate, interpret, and forecast with generalised autoregressive conditional heteroscedastic (GARCH) models
- Use vector autoregressive (VAR) models to analyse and interpret interaction between financial variables and examine the impact of shocks on financial variables using impulse response analysis
- Undertake tests of hypotheses and Granger causality in a VAR framework.
- Estimate and interpret Panel data regressions with fixed and random effects.
- Formulate limited dependent variable models, including logit and probit models, estimate and interpret logit and probit model and discuss models with multinomial linear dependent variables.

Course Structure

Unit 1: Statistical Properties of Financial Returns

- 1.1 Introduction
- 1.2 Calculation of Asset Returns
- 1.3 Stylised Facts about Financial Returns
- 1.4 Distribution of Asset Returns
- 1.5 Time Dependency
- 1.6 Linear Dependency across Asset Returns

Unit 2: Univariate Time Series and Applications to Finance

- 2.1 Introduction
- 2.2 The Lag Operator
- 2.3 Some Key Concepts
- 2.4 Wold's Decomposition Theory (Optional section)
- 2.5 Properties of AR Processes
- 2.6 Properties of Moving Average Processes

REGISTRAR
THE ICFAI FOUNDATION FOR HIGHER EDUCATION
(Deemed to be University Under Section 3 of the UGC Act, 1956)

- 2.7 Autoregressive Moving Average (ARMA) Processes
- 2.8 The Box-Jenkins Approach
- 2.9 Example: A Model of Stock Returns

Unit 3: Vector Autoregressive Models

- 3.1 Introduction
- 3.2 Vector Autoregressive Models
- 3.3 Issues in VAR
- 3.4 Hypothesis Testing in VAR

Unit 4: Modelling Long Run Relationships in Finance

- 4.1 Stationarity and unit root testing
- 4.2 Cointegration
- 4.3 Error Correction Models
- 4.4 Lead-Lag and Long term Relationships

Unit 5: Modelling Volatility – Conditional Heteroscedastic Models

- 5.1 Introduction
- 5.2 ARCH Models
- 5.3 GARCH Models
- 5.4 Estimation of GARCH Models
- 5.5 Forecasting with GARCH Model
- 5.6 Asymmetric GARCH Models

Unit 6: Panel Data

- 6.1 Introduction
- 6.2 The fixed effects Models
- 6.3 The Random Effects Models

Unit 7: Limited Dependent Variable Models

- 7.1 Introduction
- 7.2 The Linear Probability Model
- 7.3 The Logit Model
- 7.4 The Probit Model
- 7.5 Estimation using Maximum Likelihood
- 7.6 Goodness of Fit Measures
- 7.7 Example: Dividends, Growth and Profits
- 7.8 Multinomial Linear Dependent Variables
- 7.9 Ordered Response Linear Dependent Variable Models (optional section)

Course Code: SLIV602
Course Name: Wealth Management

Course Objectives: The course is designed to

- ☐ **Provide** an in depth qualitative and quantitative knowledge about the wealth management products and Personal financial planning.
- ☐ **Analyzing** the comparative advantage of different products in the financial market based on the risk appetite of the client, for advising the clients suitably
- ☐ **Formulate** a financial plan to the client based on their life style, life stage and their risk

appetite.

- ❑ **Evaluating** and redefining the Financial planning periodically, keeping in view the changes in the market
- ❑ **Creating** wealth for the customer, to ensure continued customer relationship and patronage.

Learning Outcomes: At the end of the programme the student shall be able to understand

- 1) The financial mathematics related to personal financial planning,
- 2) Wealth management products and services available in India and abroad, and
- 3) Techniques related to security analysis and portfolio management
- 4) Client profiling and assessing the risk appetite of the client
- 5) Investment planning, Retirement planning, Tax planning Insurance planning, Estate planning

Recommended Text Book: “Financial Planning: Theory and Practice by Sid Mitra and others (Reprint, 2015) published by Sage Publications, New Delhi

Suggested books:

- 1) An introduction to Wealth Management: IUP Hyderabad
- 2) Personal Investment & Tax Planning Yearbook by N.J.Yasaswy
- 3) Introduction to Financial Planning” by Indian Institute of Banking & Finance
- 4) Rich dad Poor Dad- by Robert Kiosaki.
- 5) Personal Financial Planning (Wealth Management)” – By S. Murali and K.R.Subbakrishna, Himalaya Publishing House

Course Name: Treasury Management

Course Objectives:

- To develop an understanding of the role of treasury for corporate and financial Institutions
- To make the students appreciate the foreign exchange and money markets and the instruments in each of the markets
- To help students appreciate the role of risk management in financial services companies and for corporates
- To help student understand the role of control in treasury department

Expected Learning Outcomes:

Upon completion of this course, students are expected to:

- To develop an understanding of the role and function of treasury for corporate and financial Institutions
- To make sense of the complexities in the foreign exchange and money markets
- To learn how to manage risk in financial services companies and corporates
- To evolve a corporate treasury control systems in their organization

Test -III			
Project presentations			
Each class would be divided into each group and allocated an MNC. The students would have to submit the project on the treasury and foreign exchange management of the company.			

Expectations from Students

- e. Students must report to the respective sessions well before the announced time. Latecomers will not be permitted to join the class after the scheduled time. If late, the attendance for that session will be marked as absent.
- f. Read the Case Study / material well prior to the class discussion. He/she is also expected to read the chapter indicated in the course plan as the faculty directs.
- g. In the class discussion student is expected to participate actively and contribute to individual and group learning. Evaluation is based on active participation.
- h. Evaluation is a continuous process at IBS. Every student needs to be aware of the timelines given in the section below. Absence from these evaluations will mean non awarding of marks in that particular component
- i. Each faculty has been given a scheduled consultation hour. Utilize this time to meet the faculty and clarify doubts if any, seek explanations and get mentored if needed.

Evaluation Timelines

Keeping in line with continuous evaluation at IBS the following evaluation schedule has been drawn. Students are expected to go through the dates / sessions mentioned and prepare accordingly.

Component	Component Number			Weightage
Test 1	1			10
Test 2	2			20
Test 3	3			10
Class participation	4			10
Project	5			10
Final Exam	6			40
	Total			100

The course is designed to help students appreciate the importance of understanding human behavior in financial decision making. It covers the theory and practice of behavioral finance, history of market crashes & bubbles, heuristics, emotional biases & cognitive errors that human beings are driven by, prospect theory, behavioral corporate finance, behavioral investing & other practical applications of behavioral finance

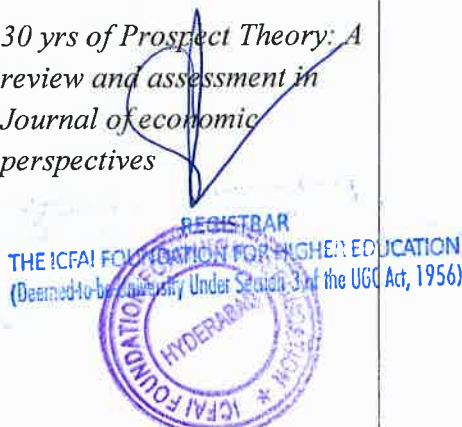

Course Objectives:

- ✦ Internalize heuristics and biases that can cause irrational financial decisions
- ✦ Understand the effects of behavioral factors in financial markets
- ✦ Learn behavioral features of corporate finance
- ✦ Understand the history of bubbles, manias and irrationality in financial markets
- ✦ Get an overview of research in the behavioral finance field (ex: Prospect Theory)
- ✦ Gain better appreciation of investment decision process

Course Outline:

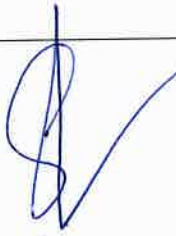

CHAPTER	Contents	Teaching Objectives	Learning Outcomes	Case Studies / White Papers
Behavioral Finance - Methodology:	<ul style="list-style-type: none"> • Overview • Traditional vs. Behavioral Finance • Modeling behavioral aspects of finance • Market Efficiency – Misconceptions & Anomalies 	Explain the differentiating features between traditional finance theories and the market behavior	The student shall understand the behavioural aspects of finance and the limitations of market efficiency theory.	<i>Vanguard White Paper – Introduction to Behavioral Finance</i>

<p>Finance - From Theory to Practice:</p>	<ul style="list-style-type: none"> • The Psychology of Risk Vs Uncertainty • Risk Attitude- Allais Paradox • Framing • Mental Accounting 	<p>Distinguish between risk, uncertainty.</p> <p>Explain framing & mental accounting.</p>	<p>The students relates investors risk perception using Allais Paradox and understands the role of framing and mental accounting in the decision making process.</p>	<p><i>Framing & Negotiation: 9-895-023</i></p> <p><i>The Framing Challenge</i> <i>What is the Real Challenge?</i> <i>HBR</i></p>
<p>Decision Making</p>	<ul style="list-style-type: none"> • The Expected Utility Theory • Discounted Utility Model. • Hyperbolic Discounting & its implications • Baye's Rule • Bayesian way of learning • Bounded Rationality 	<p>State the salient and differentiating features of different models & methods to economic decision making</p>	<p>The student shall comprehend the differences between expected utility and hyperbolic discounting theories and understand the utility of Baye's rule in improving the decisions and limits to human rationality</p>	<p><i>Bakshi's "Worldly wisdom in an equation"</i></p>
<p>Prospect Theory</p>	<ul style="list-style-type: none"> • Prospect Theory - Application to Finance • Risk Attitudes & Decision weights • Value Function vs. Weighting Function • Integration vs. 	<p>Discuss Prospect theory in detail</p>	<p>The student shall appreciate the utility of prospect theory; decision weights vs. probabilities, value & weighting functions, and integration & Segregation of gains & losses</p>	<p><i>When Do Losses Loom Larger Than Gains? By Dan Ariely</i></p> <p><i>30 yrs of Prospect Theory: A review and assessment in Journal of economic perspectives</i></p> 

	Segregation			
Irrational Exuberance - Bubbles & Crashes	<ul style="list-style-type: none"> • Tulip mania • Long Term Capital Management • The 1929 Market Crash • Mortgage Crisis of 2008 • Nifty fifty • The 2000 Tech bubble 	Recall and summarize the market bubbles & crashes in the context of human behavior	The student shall be able to identify the symptoms / indicators of market bubbles & effects of market crashes.	<p><i>GMO LLC's letter on spotting bubbles</i></p> <p><i>Who is to blame for the bubble? HBR - F0105A</i></p>
Test I				
Heuristics & Emotional Biases	<ul style="list-style-type: none"> • Perception, Memory & Heuristics • The Affect Heuristic • Loss Aversion Bias • Overconfidence Bias • Self Control Bias • Status Quo Bias • Endowment Bias • Regret Aversion Bias • The Disposition Effect 	Illustrate various heuristics and impact of emotional biases on financial decision making	Understands the implications of heuristics and emotional biases on financial decision making and learns the ways and means to mitigate their effects.	<p><i>The hidden Traps in Decision Making HBR-R0601K</i></p> <p><i>Understanding Behavioral Biases in Finance & Investing – Safal Niveshak</i></p>
Cognitive	<ul style="list-style-type: none"> • Cognitive 	Evaluate the	The student shall	<i>Using decision errors to</i>

<p>Errors</p>	<p>process</p> <ul style="list-style-type: none"> • Cognitive Errors and Emotional Biases • Conservatism Bias • Confirmation Bias • Representativeness Bias • Base Rate Neglect • Sample Size Neglect • Illusion of Control Bias • Hindsight Bias • Anchoring Bias • Availability Bias • Detection of Errors & Biases & dealing with them 	<p>impact of various heuristics and cognitive errors employed by human beings in decision making & ways to deal with them.</p>	<p>be able to recognize the cognitive errors humans suffer from, their financial implications and find suitable ways to mitigate the effects of the same.</p>	<p><i>help people help themselves</i> <i>HBR - R0T103</i></p> <p><i>Understanding Behavioral Biases in Finance & Investing – Safal Niveshak</i></p> <p><i>How cognitive illusions blind us to reason by Daniel Kahneman</i></p>
<p>Emotional Foundations</p>	<ul style="list-style-type: none"> • Evolutionary Theory • Emotion & Reasoning • Expertise & Implicit Learning • Neuro finance - Some Insights 	<p>Discuss the science behind & emotional foundations of financial decision making</p>	<p>Understand the evolution in human biases & errors and the insights from neuro Finance</p>	<p style="text-align: center;"></p> <p style="text-align: center;">REGISTRAR THE ICAFI FOUNDATION FOR HIGHER EDUCATION (Deemed-to-be-University Under Section 3 of the UGC Act, 1956)</p> <p style="text-align: center;"></p>

Social Proof & Herding	<ul style="list-style-type: none"> Fairness, Reciprocity & Trust Conformity Groupthink Herding 	Discuss how social influence leads to inefficient financial markets	The student understands the effects of social influence on human decision making	<i>The principle of social proof by Robert Cialdini</i>
Test II				
	<ul style="list-style-type: none"> Earnings Announcements 	Describe various market anomalies in detail.	The student understands how investors adjust to earnings announcements, momentum & reversal in financial markets, "Equity Premium" puzzle, risk perception of volatility on short term and long term equity returns.	<i>The Equity Premium Puzzle by Jeremy J Siegel & Richard Thaler</i>
Behavioral Finance - Explanation for Anomalies	<ul style="list-style-type: none"> (PEAD) Momentum & Reversal Noise Trading The Equity Premium Puzzle 			
Market Predictions	<ul style="list-style-type: none"> Market predictions The Illusion of Validity Pricing stocks to beat the market 	The teacher shall highlight the common pitfalls in predicting the prices of the stocks	The student shall understand the nature, scope and limitations of market predictions and the role of illusion of validity in prediction	<i>Everybody is an Expert by Louis Menand</i>
Behavioral Investing - Individual Investors	<ul style="list-style-type: none"> Riding losers too long Portfolios, Pyramids, Biases Retirement Savings Investor 	Discuss in detail the behavioral traps of individual investors	Understand how lack of self-control & myopic decision making affect individual wealth creation	<i>The disposition to sell winners too early & ride losers too long by Hersh Shefrin in Journal of Finance</i>

	Myopia & Self Control			
Behavioral Investing - Institutional Investors	<ul style="list-style-type: none"> • Open Ended Mutual funds & misframing • Close Ended Mutual funds & Discounts • Fixed Income Securities & Behavioral phenomena • The Money Management Industry • Framing Effects, Regret & style Diversification 	Discuss how financial institutions play into biases of market participants	<p>Comprehends relative contributions of skill & luck in a fund manager's performance</p> <p>Understands obfuscation games that mutual fund industry uses to induce opaqueness in to frames of investors and the factors that drive discounts in close ended mutual funds.</p>	<i>Behavioral finance at JP Morgan: 9-207-084</i>
Capital Budgeting	<ul style="list-style-type: none"> • Rational Managers & Irrational Investors • Managerial over confidence • Behavioral Capital Budgeting • Dividend Policy 	Discuss how behavioral biases & errors affect managerial decision making	Appreciates the effects of behavioral biases on corporate managers and the implications of over confidence on capital allocation	<p><i>Why do Managers Choose Poor strategies? 9-391-172</i></p>  <p>THE ICFAI FOUNDATION FOR HIGHER EDUCATION (Deemed-to-be-University Under Section 3 of the UGC Act, 1956)</p>

Managers & Analysts	<ul style="list-style-type: none"> Corporate Takeovers & Winners Curse IPO's Underperformance Analyst's Optimism in Earnings Prediction 	<p>Illustrates the behavioral implication in corporate takeovers & mergers</p> <p>Discuss the effects of analyst's optimism in earnings prediction.</p>	<p>Understands the reasons for under performance of IPO's, behavioral implications in corporate takeovers & mergers and the effects of analysts optimism in earnings prediction</p>	<p><i>Sense & Nonsense in modern corporate finance by Sanjay Bakshi</i></p> <p><i>Misunderstanding the Nature of Company Performance by Phil Rosenzweig</i></p>
TEST III				
Options, Futures & Foreign Exchange	<ul style="list-style-type: none"> Option prices and Market sentiment Commodity Futures Excessive Speculation in Foreign Exchange Market 	<p>Explains the role of sentiment in speculation, option prices, foreign exchange market & other derivatives markets</p>	<p>Assesses the effects of sentiment on speculation & how does it affect option prices, foreign exchange market & other derivatives market?</p>

Course Code: SLFI604
Course Name: Mergers and Acquisitions

Course Objectives:

Mergers and Acquisitions continue to be amongst the preferred strategic options available to the companies seeking to grow and prosper in the rapidly changing global business scenario. The objectives of this course are two-fold. First, the course is intended to provide a comprehensive background in the strategic, economic, financial and organizational aspects of mergers, acquisitions and divestments. Secondly, the course will seek to provide a practical framework for managerial decision making in the context of acquisition activities, (for example, the determination of exchange ratios between the common stocks of the acquired and acquiring companies). It will feature inputs from contemporary readings and popular case studies on the subject.

Learning Outcome:

This course focuses on the major aspects of mergers and acquisitions as well as other corporate restructuring transactions: deal strategy, deal analysis, and deal design. We will cover the reasons why these transactions are done, the mechanics of the transactions, the valuation of the firms involved, various aspects of deal structure, and the roles of the parties involved. As such, this course allows the students to pull together material covered in previous finance courses, while also linking financial decision-making with the overall strategy of the firm and dabbling in law, accounting, and organizational behavior.

Expectations from Students

- t. Students must report to the respective sessions well before the announced time. Latecomers will not be permitted to join the class after the scheduled time. If late, the attendance for that session will be marked as absent.
- u. Read the Case Study / material well prior to the class discussion. He/she is also expected to read the chapter indicated in the course plan as the faculty directs.
- v. In the class discussion student is expected to participate actively and contribute to individual and group learning. Evaluation is based on active participation.
- w. Evaluation is a continuous process at IBS. Every student needs to be aware of the timelines given in the section below. Absence from these evaluations will mean non awarding of marks in that particular component
- x. Each faculty has been given a scheduled consultation hour. Utilize this time to meet the faculty and clarify doubts if any, seek explanations and get mentored if needed.

Evaluation Timelines

Keeping in line with continuous evaluation at IBS the following evaluation schedule has been drawn. Students are expected to go through the dates / sessions mentioned and prepare accordingly.

Component	Component Number		Weightage
Class Participation	1		10
Test I	2		10
Test II	3		20
Project report	4		20
End exam	At the end of the semester		40
	Total		100

Electronic and Web resources: Swayam Videos, Syndicated Databases

Course Code: SLFI622

Course Name: Quantitative Finance and Financial Modeling using SAS

Course Objectives:

- To learn Base SAS Programming for SAS 9.4
- To test the finance theories & models that were learnt in SA, PMMF, FRM, etc.
- To acquire an applied and advanced knowledge in financial modeling, data analysis and data analytics..

Expected Learning Outcomes:

On completion of the module, students should be able to:

1. Learn the application of SAS software
2. Apply the knowledge acquired in finance courses using the data in SAS software
3. Able to develop financial models using large datasets
4. Learn different research methodology using SAS

Recommended Text Book:

- **QFFM: NA / Lecture Notes and SAS Knowledgebase**

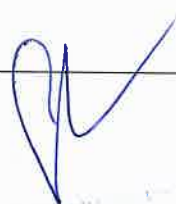

Suggested reference books:

- **QFFM: Using SAS in Financial Research (2002 or Later), Ekkehart Boehmer, John Paul Broussard, and Juha-Pekka Kallunki, SAS Publishing**
- **SAS for forecasting time series (2nd Edition), John C. Brocklebank, David A. Dickey, SAS Publishing**

Course Outline

Topic	Learning Outcomes	Case /Reading article/ Lecture / Activity/NPTEL Videos	Chapters
Course Overview - Orientation	Introduction to prerequisites, Course Structure, Student Expectation, Evaluation Criteria and Academic Integrity Policy	Introductory lecture	Lecture Notes / SAS Knowledg

THE ICFAI FOUNDATION FOR HIGHER EDUCATION
(Deemed-to-be-University Under Section 3 of the UGC Act, 1956)

Understanding the SAS Environment	SAS Keywords (DATA, PROC, INFILE, LIBRARY, DATE, TIME, etc.). After completing these topics, the students should be able to import and export raw data in readable formats.	https://www.youtube.com/channel/UC6JU4JQQw-mqS8NqfzeYWgQ	ebase
Data Processing	SAS Statements (Flow Control, if-then-else-end, where, merge, append, KEEP, DROP, DELETE, etc.) Students should be able to further process the read data and manage the variables and datasets for analysis. Merging, Appending, Sub setting of datasets should be learnt and understood.		Lecture Notes / SAS Knowledgebase
Data Analysis	Statistical Analysis (MEANS, UNIVARIATE, FREQ, TABLE, CORR, TTEST, TABULATE, REG, etc.) Students should be able to analyze and interpret the various outputs arrived at after running the various SAS Procedures. They should learn the common SAS Procedures used in Finance and Financial Economics.	https://www.youtube.com/watch?v=Z229yOq5vjA	Lecture Notes / SAS Knowledgebase
Test 1	Students will be able to work and learn with real-life hands-on assignment using raw dataset		
Data Analysis (Advanced Topics)	SAS Procedures / Statements (Loop Do-While, RETAIN, ARIMA, AUTOREG, TIMESERIES, IML, LAG, %macro, etc.) Students should be able to understand and apply SAS Procedures and Statements for arriving at Time Series Statistics. They should comprehend and interpret the usage of various advanced time series procedures and statements.		Lecture Notes / SAS Knowledgebase
Asset Pricing	Asset Pricing Models (CAPM, Single Factor / Multi Factor, Valuation of Stocks, Estimating Beta). After completing this topic, students should be able to model asset return distributions and also apply CAPM for valuation of stocks.		Lecture Notes / SAS Knowledgebase

 REGISTRAR
 THE ICFAI FOUNDATION FOR HIGHER EDUCATION
 (Deemed-to-be-University Under Section 3 of The UGC Act, 1956)

Portfolio Management	Markowitz Model, Efficient Frontier, Portfolio Evaluation (Sharpe's Ratio, Treynor's Ratio), Portfolio Selection. Students should be able to determine optimal portfolio weights, efficient frontier and also test the timing and selection skills of portfolio managers.		Lecture Notes / SAS Knowledge base
Options Pricing Models	Binomial Option Pricing Model, Black & Scholes Option Pricing Model, Forecasting Volatility, Modeling Implied Volatility, Volatility Index. Students should learn to compute the Option Pricing Models using SAS and understand and interpret the outcomes.		Lecture Notes / SAS Knowledge base
Test - 2	Students will be able to work and learn with real-life hands-on assignment / model using raw dataset		
Fixed Income Securities	Valuation of Convertible Bonds, Forward Rates, Application of Bootstrapping, Modelling Term structure of Interest Rates, Bonds in Portfolio Management, Application of Duration and Convexity. Students should be able to understand the valuation and use of fixed income securities in portfolios.		Lecture Notes / SAS Knowledge base
Value at Risk (VAR)	Parametric and Non-Parametric Estimation of VaR, VaR of Portfolio (Stocks, Options, Bonds). Students should be able to learn and apply the concepts of Value at Risks in the context of various combinations of portfolio.		Lecture Notes / SAS Knowledge base
Event Study	Event Study Methodology, CAR. Should learn the Event Study Methodology and Interpret the implications of the same in real life scenarios of Business and Economy.		Lecture Notes / SAS Knowledge base
Project Presentation	Student will be presenting his / her findings from the research project that they would have completed using SAS Data Analysis and Modelling.		

Algorithmic Trading / High Frequency Trading	HFT / AT / Program Trading, Measuring Costs, Trading Strategies, Buy/Sell Identification (Tick Test, LR Algorithm). Student should learn and understand the importance of the AT and HFT in the current market microstructure and identify the trends.		Lecture Notes / SAS Knowledge base

Course Code: SLFI609

Course Name: Portfolio Management and Mutual Funds

Course Objectives: The objective of Portfolio Management and Mutual Fund course is to provide students an overview of construction, management and rebalancing of a portfolio and mutual funds.

Learning Outcome:

By the end of the course, student will learn:

1. Understanding objectives and constraints and preparing investment policy statement
2. Construction, management and rebalancing of portfolios based on risk and return parameters.
3. Various asset pricing models and portfolio selection models
4. Constructing minimum variance portfolio and evaluation of portfolio performance
5. Various equity and bond portfolio management strategies and using derivatives in portfolio management
6. Mutual funds, various documents, investment plans and regulatory framework associated with mutual funds.

Recommended Text:

Course Code: SLFI610
Course Name: Project Appraisal and Finance

THE ICAI FOUNDATION FOR HIGHER EDUCATION
 (Deemed-to-be-University Under Section 3 of the UGC Act, 1956)

Course Code: SLF1610		Course Title: Project Appraisal and Financing (PAF)	
Course Objectives	<ul style="list-style-type: none"> This course enables the students to learn project financing in depth including assessing the real option values embedded in the projects. They can learn different models of financing projects by creation of SPVs. In short it enables to be financial architects to model the financial deals to mitigate project risks. 		
Topics	Chapter Objectives	Learning Outcomes	Cases details
Introduction	To explain the students as to how to appraise the project and how project financing is different from corporate financing	Students will get an overview of project appraisal and financing and its importance to corporate.	1. Ocean Carriers
Cost of Capital	To explain different methods of calculation of cost of capital.	To understand the importance of cost of capital and how its effect on project selection	1. Midland Energy Resources 2. Business Valuation and Cost of capital * 3. Note on APV *
Project Cash-flow Estimation and Project Selection	To prepare project cash flows and project selection criteria	Students will be able to select best out the available projects.	1. Flash Memory Inc. 2. MIRR a better measure *
Capital Rationing and Project Selection	To explain project selection under capital rationing Prepare them for simulation game	Students will be able to select projects in fund restricted situation	New Heritage Doll Company
Risk Analysis and Project Selection: Sensitivity Analysis, Scenario Analysis, Ratio Analysis and Simulation	Risk Analysis and Project Selection: Sensitivity Analysis, Scenario Analysis, Ratio Analysis and Simulation	To understand various risks in projects and ways to mitigate risk	South-port Minerals
	To hand over simulation game to students	Students will get on hand experience on project selection when there is a budget constraint	Pit-falls in evaluating risky projects * 
Real-options	Real-options in Capital Budgeting: Decision Trees and Black Scholes Mortan models Application of Real options	Students will be able to appreciate that projects have options embedded in them which can effect project selection	 1. Real Option Exercises 2. Bidding for Antamina 3. Investment Opportunities as Real Options *
Project Finance: Introduction, Project Finance v/s Corporate Finance, Use of project Finance	To explain how project fiancé can be used and how it is different from corporate finance	To understand how what is project finance and how corporate risk can be mitigated using project finance	1. BP- Amco (A) 2. BP- Amco (B) 3. An overview of project finance 2009 update * 4. Note on Caspian Oil Pipelines *

Social Cost-benefit Analysis of Projects LM and UNIDI O approaches	To explain what is SCBA and various methods of calculation of ERR	To understand Social Cost-benefits of Projects	1.Nghe An Tate 2.An Economic Framework for Assesing Development Impact *
Structuring Project Finance: Sources of Financing, Choice of Financing, Factors Affecting Financing, Effect of Valuation	To explain Structuring Project Finance: company	Students will be able to understand and apply different models of project structuring.	1.HK Disneyland 2.Petrolera Zuata
Basel II Accord and Project Finance	To explain how bankers viewed the riskiness of project financing loans	Project finance from Bankers perspective	Basel II
Project Finance in Emerging markets	Project Finance in Emerging markets	Students will understand the current scenario	Chad - Cameroon Project
Forming a Project Company Detailed Project report	Forming a Project Company Preparation of DPR	Students will understand the usefulness of creation of SPV in financing risky projects.	Australia - Japan Cable
Prescribed Text Book: Projects by Prasanna chandra			
Reference Readings: Project financing by Stefano Gatti			

EVALUATION PATTERN								
Component	CP 1	TEST 1	CP 2	TEST 2	CP 3	TEST 3	TERM END	TOTAL
Weightage (%)	10	10	10	10	10	10	40	100

INSTRUCTIONS TO STUDENTS:

- 1) Attend the classes regularly. Minimum attendance required for the course is 75%. Late comers will be marked Absent
- 2) Students who do not fulfill the required minimum attendance criteria will be given 'F' grade, even though they score good marks in a test.
- 3) No makeup tests will be conducted for the tests not taken by the student on scheduled dates. Conducting a makeup test is at the discretion of the faculty member. The student cannot claim it as a right.
- 4) Come prepared to the class by reading the prescribed case / chapter scheduled for the day, so that class room discussions would be brisk and meaningful and facilitate learning.
- 5) Seek clarification for your doubts in the class room itself, so that others too, would get benefitted of them. Please note that no doubt is too small to be dealt in the class room.
- 6) Coming late, wearing dress other than the formal ones, using cell phones, bringing the newspapers / periodicals, cross talking, sitting in a seat other than the allotted ones, giving proxy attendance in the class are strictly prohibited.
- 7) Do not indulge in unfair practices in and outside the class room, tests / assignments / examinations, etc. They warrant disciplinary action.
- 8) Please refer to IFHE Code of Conduct and Discipline Rules given in the Student's Hand Bok. Follow discipline to avoid its enforcement.

Course Code: SLBK603
Course Name: International Banking

Course Objectives:

- Provide the students an essential exposure to international monetary system and international banking operations
- Understanding the foreign exchange market
- Calculate the exchange rates and determine the exchange rates for different customer transactions.
- Appraise the risks involved in international trade transactions
- Describe the regulatory framework for International banking operations

Expected Learning Outcomes:

Upon completion of this course, students are expected to:

1. Gain the requisite knowledge for assuming positions in domestic and multinational banks that are actively engaged in international banking activities.
2. Assess and analyzer international financing decisions
3. Determine and forecast exchange rates
4. Take measures to mitigate risks in international transactions and take advantage of opportunities in the global markets.

Recommended Text Book:

Foreign Exchange Practice, Concepts & Control: by C. Jeevanandam 16th Edition, Sultan Chand & Sons

Suggested reference books:

- International banking operations by *Indian Institute of Banking and Finance*, 2nd edition, Macmillan publications

Course Outline

TOPIC	LEARNING OUTCOMES	CASE DETAILS	Ch
Introduction to International banking	<ul style="list-style-type: none"> • Become familiar with Globalization concept and understand significance of international trade. • Appreciate the role of international banking in the international business. 		1
International Trade theories	<ul style="list-style-type: none"> • Understand the importance of international trade and exchange system • Explain the essence of theories of international trade. 	<p>The economic gains from trade- Comparative advantage: HBS 9-796-183</p>	2
Balance of Payments	<ul style="list-style-type: none"> • Comprehend the BOP statement, its constituent elements, and analyze them 	<p>Reading the Balance of Payments HBS: 9-705-025</p>	3

International Financial organizations	<ul style="list-style-type: none"> • Conversant with the organization and functions of WTO and trade blocks • Appreciate the roles of IMF, IBRD, BIS, IFC, ADB, etc. in international finance 	World Trade Organization HBS: 9-703-015 International institutions HBS: 9-796-116	4
Foreign Exchange Market in India and abroad	<ul style="list-style-type: none"> • Conversant with the international foreign exchange markets, their timings, players, intermediaries, regulators etc. 	Foreign Exchange Markets and Transactions HBS: 9-205-016	5
International banking products and services	<ul style="list-style-type: none"> • Become conversant with the deposit, loan and service products offered by a foreign exchange designated bank 	A glance at the web site of any forex designated bank branch, to know	5,32
Correspondent banking	<ul style="list-style-type: none"> • Appreciate the need for correspondent banking relationship and understand the different services provided by the correspondent banks 		5,32
Day to day Foreign Exchange transactions in a Designated Bank branch	<ul style="list-style-type: none"> • Elucidate the various transactions in a foreign exchange designated bank branch like Currency / T.C purchase and sale; opening of L.C, Negotiation/ purchase /collection of export bills etc., • Ascertaining the different exchange rates applicable for different business transactions 	A glance at the web site of any forex designated bank branch, to know the transactions and application of applicable exchange rates	5, 32
Basics of Exchange Arithmetic	<ul style="list-style-type: none"> • Understand the two ways quotes for various transactions and their constituent elements there in 	Solving the practical problems in the class	12
Exchange rate determination for Export and Import transactions and their cancellation	<ul style="list-style-type: none"> • Calculate exchange rates for export and import trade transactions and cancellation there of 	Solving the practical problems in the class	12
TEST 1	Sessions 1-10	Chapters 1-5,12,32	
Exchange rate determination for Forward contracts and their cancellation	<ul style="list-style-type: none"> • Calculate exchange rates for export and import trade transactions and cancellation there of 	Solving the practical problems in the class	12
Rollover of contracts	<ul style="list-style-type: none"> • Compute the payoff for rollover of forward contracts 	Solving the practical problems in the class	12
Salient features of FEMA	<ul style="list-style-type: none"> • Comprehend the FEMA regulations related to Non-resident accounts, remittances in and out of India, and foreign investments 		5
Non -Resident Accounts	<ul style="list-style-type: none"> • Conversant with the opening and operations in the non-resident accounts • Compare and contrast the NRO, 		31

	<ul style="list-style-type: none"> NRE, FCNR accounts Understand the need for opening the RFC account 		
Foreign currency accounts for the resident Indians	<ul style="list-style-type: none"> Explain the opening and maintaining the RFC D, EEFC, DDA and other foreign currency accounts permitted to be opened by resident Indians 	RBI Master circulars	31
Remittance of Foreign Currency	<ul style="list-style-type: none"> Comprehend the remittance facilities available to NRIs Understand the remittance facilities available to resident Indians 	RBI Master circulars	17
International Capital Flows	<ul style="list-style-type: none"> Describe the foreign investments in India, and analyze their differentiating features 	Protecting the Foreign Investors HBS: 9-706-044	31
Methods of settlement in International Trade and INCO terms	<ul style="list-style-type: none"> Understand, the different methods of settlement of international trade transactions like advance payment, direct export, Collection of Bills, letters of credit etc Able to explain the significance of INCO terms 	Note on international trade finance. HBS: 9-211-007	18, 23
Exchange and Trade control mechanism in India	<ul style="list-style-type: none"> Appreciate the method of exchange control by RBI and trade control by DGFT 	Export and Import of goods and services (www.rbi.org.in)	18, 30
TEST 2	Sessions 12-20	Chapters 5,12,17,18,23,30,31, and Reading material	
Documentary Credits	<ul style="list-style-type: none"> Define a documentary credit, and state the different types of letters of credits and the various parties to a letter of credit Describe the L.C Mechanism 	Noble Group HBS :9- 210-021	19
Negotiation of documents under L.C	<ul style="list-style-type: none"> Conversant with the salient features of UCPDC-600 Precautions to be taken while negotiating documents under L.C 	Practical exercises	19
Bank Finance for Exports and Imports	<ul style="list-style-type: none"> Able to explain packing credit, import loan, discounting & purchase of bills etc., 	Financial assistance to Exporters and Importers: http://www.eximbankindia.in	24, 27
Incentives to Exporters	<ul style="list-style-type: none"> Enumerate the various benefits available to exports 	RBI master circular	
EXIM Bank	<ul style="list-style-type: none"> Understand the role of EXIM Bank in promotion of exports 	EXIM Bank web site THE ICFAI FOUNDATION FOR HIGHER EDUCATION (Deemed to be University Under Section 3 of the UGC Act, 1956) HYDERABAD	24, 27
Risk Management in International Trade	<ul style="list-style-type: none"> Elucidate the different types of risks in international trade 		7,10, 11,28
Credit risk Management	<ul style="list-style-type: none"> Explain the importance of foreign exchange derivatives and credit 	A note on credit Derivatives HBS: 9-205-111	7, 10

	derivatives in International trade		
Insurance and risk management	<ul style="list-style-type: none"> Appreciate the role of ECGC in Export trade Understand the importance of marine insurance in export trade 		11, 28
Test 3	Sessions 22-29	Chapters: 7,10,11,19,24,27,28	
Alternate sources of finance to Exporters	<ul style="list-style-type: none"> Examine; Factoring, Forfaiting ADR, GDR, etc. as alternate sources for export finance. 	A note on Depository Receipts HBS: 9-803-026	32, 33
Basel norms on trade finance	<ul style="list-style-type: none"> Explain the impact Basel Capital norms (Basel I-II /III) and leverage requirements to trade finance by banks 	Trade finance treatment under Basel norms www.bis.org	
Foreign Trade Policy of India	<ul style="list-style-type: none"> Comprehend the salient features of the foreign trade policy of India. 	Latest Exim Policy (www.eximin.net)	

Expectations from Students

- dd. Students must report to the respective sessions well before the announced time. Latecomers will not be permitted to join the class after the scheduled time. If late, the attendance for that session will be marked as absent.
- ee. Read the Case Study / material well prior to the class discussion. He/she is also expected to read the chapter indicated in the course plan as the faculty directs.
- ff. In the class discussion student is expected to participate actively and contribute to individual and group learning. Evaluation is based on active participation.
- gg. Evaluation is a continuous process at IBS. Every student needs to be aware of the timelines given in the section below. Absence from these evaluations will mean non awarding of marks in that particular component
- hh. Each faculty has been given a scheduled consultation hour. Utilize this time to meet the faculty and clarify doubts if any, seek explanations and get mentored if needed.

Evaluation Timelines

Keeping in line with continuous evaluation at IBS the following evaluation schedule has been drawn. Students are expected to go through the dates / sessions mentioned and prepare accordingly.

Component	Component Number			Weightage
Test I	1			15
Test II	2			20

Marketing Area Electives

Course Code: SLMM627
Course Name : Rural Marketing

Course Objectives

The course is designed to enable students to get an appreciation of Markets in Rural India. To elaborate further, this course aims to help the student...

- To identify the rural myths and the importance of Rural Markets.
- To verify the opportunities and Challenges in Rural India
- To analyze the strategies and practices for entry and sustainability in Rural Markets

Learning Outcomes

At the end of the course, the student is expected to

1. Develop an appreciation for the theory and practice of Rural Marketing
2. Develop a broad perspective of how Rural Markets operate.
3. Understand as to how organizations strategize to succeed in Rural Markets.

Text Books

As no single book would cover the entire course, we propose to rely on a combination of books viz.,

Recommended Text Book:

- *Rural Marketing*- Pradeep Kashyap, 3rd Edition, 2016, Pearson Publication (PK)

Suggested books:

- *Rural Marketing – Targeting the Non-urban consumer*, Sanal Kumar Velayudhan, 2007, Response Books. (SKV)
- *Rural marketing* -Awadesh Kumar Singh, Satyaprakash Pandey, New Age International Publications (AS)

Course Outline

Topic		Content/Case/Readings	Chapter Readings
Introduction	•	• Introduction to the course	
Rural Markets & Scope of the rural market	•	• India's Amul – Keeping up with the Times (Case code:	PK – 1 SKV – 1

		HBS: 9-516-116)	
Rural Economic and Marketing Environment	•	• SEWA trade facilitation center - Changing the Spool –(Case code: HBS: 9-810-044)	PK – 2 SKV – 2
Understanding the Rural buyer / Consumer Behaviour	•	• Unilever in India: Hindustan Lever's Project Shakti (Case code: HBS: 9-505-056)	PK – 3 SKV – 3
Rural Marketing Research - New Age Innovation in Rural Research	•	• Market Research on Effectiveness of Product Promotion Activities of Tata Shakti GC Sheets –(ICMR-MKTG309) • <i>Selecting a Research Project</i>	PK – 4 SKV – 4 AS – 8
TEST 1			
MNCs in Rural India	Discussion/ Guest Lecture		
Rural Market Segmentation and BoP markets	•	• Tata Motors: The Tata Ace - (Case Code: HBS: 9-108-011)	PK – 5 SKV – 3
Hatts &, Melas		Student's Documentary	
Rural Product Management Strategy	•	• Hindustan Unilever's 'Pure it' Water Purifier. (Case code: HBS: 9-511-067)	PK – 6 SKV – 5
Pricing Strategy in Rural Markets	•	• Sarvajal: Water for All (Case code: HBS:9-211-028)	PK – 7 SKV – 5
Innovative Rural Distribution and Channel management	•	• The ITC eChoupal Initiative (Case code: HBS: 9-604-016)	PK – 8 SKV – 11
TEST 2

 THE ICAI FOUNDATION FOR HIGHER EDUCATION

 (Deemed to be University Under Section 3 of the UGC Act, 1956)

 Course Code: **SLMM601**

 Course Name: **Marketing Research**

Course Objective: The course will develop the skills necessary to do *independent* marketing research (Problem Identification, Research Design, Data collection, Data analysis, and communicating research results). Augmented with case studies, lectures, and research notes, course aims to deepen the

understanding of methods for collecting, analyzing, and summarizing data pertinent to solving marketing problems.

Learning Outcomes: At the end of the course a student should:

- Be able to translate a marketing problem into a feasible research question.
- Should understand and execute a marketing research project independently.
- Should possess basic knowledge and skill of Marketing research data analysis.

Recommended Text Book: Marketing Research: An Applied Orientation, 6/e by Naresh K Malhotra, Satyabhushan Dash. Indian Edition: Pearson.

Suggested books:

- Multivariate Analysis by Hair, Black, Babin, Anderson and Tatham, sixth Edition, Pearson Publication
- Marketing Research: A South Asian Perspective, By: Gilbert A, Churchill Jr., Dawn Iacobucci and D Israel. Indian Edition: Cengage Learning.
- Introduction to Qualitative Research, By Uwe Flick – 4th South Asian Edition. Sage

Software Requirements:

- SPSS Version 21.0, Excel, R Studio

Course Code: SLMM609

Course Name: Retail Management

Need for the Course

The retail management course is one of the widely offered by B-School across the world. The Indian retail industry has emerged as one of the most dynamic and fast-paced industries due to the entry of several new players. It accounts for over 10 per cent of the country's Gross Domestic Product (GDP) and around 8 per cent of the employment. India is the world's fifth-largest global destination in the retail space. Indian Retail Industry has immense potential as India has the second largest population with affluent middle class, rapid urbanisation and solid growth of internet. India has replaced China as the most promising markets for retail expansion, supported by expanding economy, coupled with booming consumption rates, urbanizing population and growing middle class. The Indian retail trading has received Foreign Direct Investment (FDI) equity inflows totalling US\$1.09 billion during April 2000–September 2017, according to the Department of Industrial Policies and Promotion (DIPP). The Government of India has taken various initiatives to improve the retail industry in India.

This course will enable students to develop decision making skills related to retailing in the areas including merchandise and expense planning, store layout, product line and resource determination, pricing, promotional strategies, customer service, financial planning and control. Besides, the course also covers latest trends in the Indian retail industry such as omni-channel retailing, customer shopping experience management. The overall outline of the course is based on India specific issues and challenges faced by retailers.

Objective of the Course: Upon completion of this course, students will be able to:

- i) Apply retail management concepts and theories in a business situation.
- ii) Develop and evaluate a retail management program.
- iii) Should have an in-depth appreciation and understanding of the unique challenges inherent in managing retail services.
- iv) Identify strategies and key success factors governing retail businesses.

Learning Outcomes for Students

Students should appreciate

- Importance of Retailing in our society.
- Retail strategies focused on merchandise, location, pricing, communication, customer service, human resource, and store design/layout
- How the above strategies can be integrated while developing their overall retail strategy.

Required Text:

- *Retail Management* by Michael Levy, Barton Weitz and Ajay Pandit. Eighth Edition, 2011, Tata McGraw Hills

Please note that a new edition of this book is expected to be released around October this year. Once available, the current edition will be replaced with the new edition.

Supplementary Texts

- *Retail Management: A Strategic Approach* by Barry Burman, Joel Evans and Mini Mathur, Eleventh Edition, 2010, Prentice Hall
- *Managing Retailing* by Piyush Kumar Sinha and Dwarika Prasad Uniyal, Second Edition, 2012, Oxford University Press

Major Institutes following the course outline along with recommended textbook

- Indian Institute of Management, Ahmedabad
- Leonard N Stern School of Business, New York University
- Texas A&M University
- Fisher College of Business, The Ohio State University
- Warrington College of Business, The University of Florida
- University of Tennessee

REGISTRAR

THE ICFAI FOUNDATION FOR HIGHER EDUCATION
(Deemed-to-be-University Under Section 3 of the UGC Act, 1956)

Course Code: SLMM610

Course Name: **PRODUCT MANAGEMENT**

Course Objective & Scope: This course has specific objectives of getting students accustomed to the concepts and practices of modern product marketing & management. This will enable the student's decision making at a managerial position on areas like product conceptualization, product introduction, product commercialization and finally delineation/ deletion, with a sound understanding on product centric issues from customer and marketing perspectives. This course will offer a simulated environment in classroom with a demonstrative value to managerial decision making.

Text Book

Product Strategy and Management; by Michael Baker and Susan Hart, Pearson, 2nd Edition, 2012

Attendance Policy: & Dealing with unfair means

Students will not be allowed for internal components of evaluation if their attendance is less than 60%. Submitting copied material by student may lead to award of zero marks in the respective component.

Pedagogy: The teaching methods and treatment of various topics have been designed keeping in mind the latest industry trends and changing scenario. The sessions have been planned thoroughly with an optimum blend of case discussion, lecture, in-class assignment, and surprise tests/ quizzes (CPs & NCPs).

Make up Policy:

There will be no makeup exam conducted in any case. However, in case done in consultation with Dean's office, the standard of the test will be tough.

Evaluation Plan	
Component	Weightage
I. Class Participation (CP):	30

First Evaluation	10
Second Evaluation	10
Third Evaluation	10
II. Non-class Participation (NCP):	30
NCP1 Quiz/ Test	10
NCP2 Quiz/ Test	10
NCP3 Assignment/ Project	10
III. Semester End Exam	40
TOTAL=	100

N.B.:

Ø CP marks will be declared at the end of Session no. 10, 21 & 32.

Ø Details of NCP-1, 2 and 3 will be informed later through CR/ group-mail

Ø Group assignment/ Project may have a class presentation component/ details will be intimated subsequently through CR/ group-mail.

Course Code: SLMM611

Course Name: Customer Relationship Management

Course Description:

This elective course in the MBA program enables students to learn and appreciate Customer Relationship Management (CRM) strategies and tools. The course utilizes a number of Harvard Business School (HBS) articles and cases to introduce a wide range of CRM issues, problems faced by firms and management reactions to those problems. The course incorporates various class activities like assignment, project and simulation exercise to ensure students are able to apply concepts to real business scenario. The course also teaches how to generate insights from customer data, generate visualizations and create dashboards for decision making.

Course Objectives:

1. To discuss the role of customer relationship management in decision making.
2. To describe how to formulate customer relationship marketing strategies.
3. To discuss how to acquire, retain and manage customers.
4. To discuss types and functioning of loyalty programs.
5. To discuss how marketers can use customer data to generate valuable insights.

THE ICFAI FOUNDATION FOR HIGHER EDUCATION
(Deemed-to-be-University Under Section 3 of the UGC Act, 1956)

Learning Outcomes:

At the end of the course the student is expected to be able to:

- A. Appreciate the role of CRM in today's dynamic marketing environment.
- B. Explore the realities and implications of CRM from the perspectives of both customer and marketer.
- C. Understand and enhance the consumer journey.
- D. Learn to create CRM driven marketing strategy.
- E. Draw insights from voice of customer for designing consumer focused strategy.
- F. Efficiently launch, manage and drive CRM initiatives.
- G. Understand vital CRM metrics and create CRM dashboards.

Course Name: Digital Marketing

Course Objectives:

The course enables students to learn key digital marketing strategies leveraged by marketers in a dynamic marketing environment. The hands on course specifically focus on how businesses create, market and deliver value in a digital ecosystem. The course utilizes Harvard Business School (HBS) cases to introduce a wide range of internet marketing issues faced by online marketers. These cases serve as a foundation for critically analyzing situations and acquiring evidence-based, ethical decision-making skills using marketing theory and marketing metrics. Further, the course will expose students to contemporary digital marketing metrics and analytic tools, such as Web Analytics, Campaign Performance Analytics, Social Media Analytics, and other web metrics to integrate marketing performance with a firm's strategic thrust to meet corporate goals.

Learning Outcomes:

At the end of the course the student is expected to be able to:

- A. Explore the realities and implications of digital marketing and e-commerce from marketers' perspective.
- B. Efficiently plan, create, manage and measure digital marketing campaigns.
- C. See the similarities and differences between traditional and modern marketing approaches; and also to understand where to draw a line between both.

D. Draw business insights from digital marketing research reports available on various analytics reports.

Revision/Closing Remarks				

Course Code: SHMM630
Course Name: Marketing Analytics

Course Description:

“Marketing Analytics” refers to a broad set of statistical approaches used to improve managerial decisions pertaining to marketing domain. Some of these activities provide descriptive summaries of the past and the present, while few others generate predictive forecasts of how the future will unfold, and few others culminate in prescriptive advice about how the company should formulate marketing strategies. This course is designed in response to the need for analytics talent in the marketplace which the industry is looking for today in a candidate. The purpose of this course is to convey the benefits of a systematic analytical approach toward marketing decision-making, and to build skills, knowledge and confidence in various topics covered in this course. It aims at preparing future managers who can (1) appreciate the importance of data to build and leverage competitive advantage of the firm, (2) understand the multiplicity of tools, techniques and packages, and their usefulness; and (3) can apply these to assist decisions in different functional areas of marketing.

Learning Objectives:

1. To learn various packages currently in use in Industry to graphically represent marketing (small & big) data and make inferences.
2. To understand how to apply analytical models to support marketing decisions on segmentation, targeting, positioning, product design, pricing, retail merchandising, customer relationship/ value management, personalization & customization, social/ web media optimization, viral marketing etc.
3. Use predictive/ forecast models for finding customer lifetime value, and churn; and granularize data.

Statistical SW packages:

Microsoft Excel 2010+, SPSS 20.0+, R, RQDA, R-Studio, Python (Basics), Tableau/ Spotfire (Demo)

Prescribed Reading Resources:

1. Text Book: Marketing Analytics: Data driven techniques with Microsoft Excel, Wayne L Winston, Wiley Publishers, 2014.
2. IBM SPSS manual (Available at: <http://www-01.ibm.com/support/docview.wss?uid=swg27047033>)
3. R/ R-Studio manual (Available at: <https://cran.r-project.org/manuals.html>)
4. Misc.- Students are encouraged to self-learn various tools and packages available (Youtube playlists)

Evaluation Components: This course will have no CP components.

Course Code: SLMM612

Course Name: Brand Management (BDM)

Course Objectives

Branding is the central component of marketing strategy and the dominant theme in marketing today, affecting not just Consumer Goods but also B2B, Services, and NGO"s . This course will give students a deeper understanding of the importance of Brands, Brand Management and the process of Brand Development in today's competitive business landscape. This course provides insights into how to create profitable brand strategies by building, measuring and managing brand equity.

Learning Outcomes

At the completion of the course the students will be able to :

- To get an overview of the Brand Management function (such as role of brands, concept of brand equity, and the advantages of creating strong brands).
- To understand a comprehensive and holistic idea about the various Brand Management Strategies.
- To understand the process of developing and sustaining successful brands.
- To appreciate the importance of brand management in the global context.

Required Reading (Prescribed Text)

- **Brand Management – Principles and Practices. Kirti Dutta**

Additional Reading -

Strategic Brand Management 3rd Edition by Kevin Lane Keller

Building Strong Brands By David Aaker

Course Name: **Marketing Analytics**

Course Description:

"Marketing Analytics" refers to a broad set of statistical approaches used to improve managerial decisions pertaining to marketing domain. Some of these activities provide descriptive summaries of the past and the present, while few others generate predictive forecasts of how the future will unfold, and few others culminate in prescriptive advice about how the company should formulate marketing

THE ICFAI FOUNDATION FOR HIGHER EDUCATION
(Incorporated under the provisions of the UGC Act, 1956)

strategies. This course is designed in response to the need for analytics talent in the marketplace which the industry is looking for today in a candidate. The purpose of this course is to convey the benefits of a systematic analytical approach toward marketing decision-making, and to build skills, knowledge and confidence in various topics covered in this course. It aims at preparing future managers who can (1) appreciate the importance of data to build and leverage competitive advantage of the firm, (2) understand the multiplicity of tools, techniques and packages, and their usefulness; and (3) can apply these to assist decisions in different functional areas of marketing.

Learning Objectives:

1. To learn various packages currently in use in Industry to graphically represent marketing (small & big data and make inferences.
2. To understand how to apply analytical models to support marketing decisions on segmentation, targeting, positioning, product design, pricing, retail merchandising, customer relationship/ value management, personalization & customization, social/ web media optimization, viral marketing etc.
3. Use predictive/ forecast models for finding customer lifetime value, and churn; and granulize data.

Statistical SW packages:

Microsoft Excel 2010+, SPSS 20.0+, R, RQDA, R-Studio, Python (Basics), Tableau/ Spotfire (Demo)

Prescribed Reading Resources:

1. Text Book: Marketing Analytics: Data driven techniques with Microsoft Excel, Wayne L Winston, Wiley Publishers, 2014.
2. IBM SPSS manual (Available at: <http://www-01.ibm.com/support/docview.wss?uid=swg27047033>)
3. R/ R-Studio manual (Available at: <https://cran.r-project.org/manuals.html>)
4. Misc.- Students are encouraged to self-learn various tools and packages available (Youtube playlists)

Evaluation Components: This course will have no CP components.

Course Code: SLMM602

Course Name: Consumer Behaviour

Consumer Behaviour is a core marketing elective that deals with understanding the situational, contextual and personal influences on consumers. In a consumer driven market, it is essential to understand both the psyche of consumers as well as the other influencing factors, in order to derive meaningful and effective marketing strategies. This course is designed to enable an understanding of the psychological (individual) and social (environmental) influences on consumers. The course would therefore be a study of consumers from various perspectives, borrowing from various disciplines of social sciences.

By default, the study of consumer behavior is an evolved subject with numerous theories and concepts. For management students though, the challenge lies in meaningful application of these topics. This course is therefore designed to extract both an understanding as well as application of the concepts of consumer behavior.

Course Objectives

- Provide Insight into consumer behaviour for marketing decisions.
- Enable Understanding of consumer behavior from multi-disciplinary perspective.

- Enable understanding of consumer behavior from research perspective to capture data for decision making.

Learning Objectives

- Understanding the consumer behaviour principles.
- Understanding the consumer as an individual – Exploring the concepts of motivation, personality, perception, Learning & Attitude.
- Understand how to use Consumer Behaviour related information for decision making
- Understand the social and cultural dimensions of consumer behavior.

Course Title: Retail Management

Need for the Course

The retail management course is one of the widely offered by B School across the world. The Indian retail industry has emerged as one of the most dynamic and fast-paced industries due to the entry of several new players. It accounts for over 10 per cent of the country's Gross Domestic Product (GDP) and around 8 per cent of the employment. India is the world's fifth-largest global destination in the retail

space. Indian Retail Industry has immense potential as India has the second largest population with affluent middle class, rapid urbanisation and solid growth of internet. India has replaced China as the most promising markets for retail expansion, supported by expanding economy, coupled with booming consumption rates, urbanizing population and growing middle class. The Indian retail trading has received Foreign Direct Investment (FDI) equity inflows totalling US\$1.09 billion during April 2000–September 2017, according to the Department of Industrial Policies and Promotion (DIPP). The Government of India has taken various initiatives to improve the retail industry in India.

This course will enable students to develop decision making skills related to retailing in the areas including merchandise and expense planning, store layout, product line and resource determination, pricing, promotional strategies, customer service, financial planning and control. Besides, the course also covers latest trends in the Indian retail industry such as omni-channel retailing, customer shopping experience management. The overall outline of the course is based on India specific issues and challenges faced by retailers.

Objective of the Course: Upon completion of this course, students will be able to:

- i) Apply retail management concepts and theories in a business situation.
- ii) Develop and evaluate a retail management program.
- iii) Should have an in-depth appreciation and understanding of the unique challenges inherent in managing retail services.
- iv) Identify strategies and key success factors governing retail businesses.

Learning Outcomes for Students

Students should appreciate

- Importance of Retailing in our society.
- Retail strategies focused on merchandise, location, pricing, communication, customer service, human resource, and store design/layout
- How the above strategies can be integrated while developing their overall retail strategy.

Required Text:

- *Retail Management* by Michael Levy, Barton Weitz and Ajay Pandit. Eighth Edition, 2011, Tata McGraw Hills

Please note that a new edition of this book is expected to be released around October this year. Once available, the current edition will be replaced with the new edition.

Supplementary Texts

- *Retail Management: A Strategic Approach* by Barry Burman, Joel Evans and Mini Mathur, Eleventh Edition, 2010, Prentice Hall
- *Managing Retailing* by Piyush Kumar Sinha and Dwarika Prasad Uniyal, Second Edition, 2012, Oxford University Press

Major Institutes following the course outline along with recommended textbook

- Indian Institute of Management, Ahmedabad
- Leonard N Stern School of Business, New York University
- Texas A&M University
- Fisher College of Business, The Ohio State University
- Warrington College of Business, The University of Florida
- University of Tennessee
- Thompson Rivers University
- Florida Gulf Coast University

Course Name: Brand Management (BDM)

Course Objectives

Branding is the central component of marketing strategy and the dominant theme in marketing today, affecting not just Consumer Goods but also B2B, Services, and NGO's. This course will give students a deeper understanding of the importance of Brands, Brand Management and the process of Brand Development in today's competitive business landscape. This course provides insights into how to create profitable brand strategies by building, measuring and managing brand equity.

Learning Outcomes

At the completion of the course the students will be able to :

- To get an overview of the Brand Management function (such as role of brands, concept of brand equity, and the advantages of creating strong brands).
- To understand a comprehensive and holistic idea about the various Brand Management Strategies.
- To understand the process of developing and sustaining successful brands.
- To appreciate the importance of brand management in the global context.

Required Reading (Prescribed Text)

- Brand Management – Principles and Practices. Kirti Dutta

The total marks for the internal evaluation would be 60 marks and would have 60% weight-age.

Course Code: SHMM625

Course Name: Digital Marketing

Course Objectives:

The course enables students to learn key digital marketing strategies leveraged by marketers in a dynamic marketing environment. The hands on course specifically focus on how businesses create, market and deliver value in a digital ecosystem. The course utilizes Harvard Business School (HBS) cases to introduce a wide range of internet marketing issues faced by online marketers. These cases serve as a foundation for critically analyzing situations and acquiring evidence-based, ethical decision-making skills using marketing theory and marketing metrics. Further, the course will expose students to contemporary digital marketing metrics and analytic tools, such as Web Analytics, Campaign

Performance Analytics, Social Media Analytics, and other web metrics to integrate marketing performance with a firm's strategic thrust to meet corporate goals.

Learning Outcomes:

At the end of the course the student is expected to be able to:

- A. Explore the realities and implications of digital marketing and e-commerce from marketers' perspective.
- B. Efficiently plan, create, manage and measure digital marketing campaigns.
- C. See the similarities and differences between traditional and modern marketing approaches; and also to understand where to draw a line between both.
- D. Draw business insights from digital marketing research reports available on various analytics reports.

	Discovering Statistics with SPSS- Andy Field (e book).	

Course Code: SLHR601
Course Name: HR Planning

 THE ICFAI FOUNDATION FOR HIGHER EDUCATION
 (Deemed-to-be-University Under Section 3 of the UGC Act, 1956)

Course Description: This is an HRM elective course that is designed to provide both a conceptual and practical study of human resource planning and strategic staffing within organizations.

Upon completing the course, you will be able to develop an integrative framework and activities of HR planning and strategic staffing in an organization congruent with the business strategies. The course aims at positioning and aligning HR activities, specifically HR planning and staffing with the business goals/strategies so that you can understand HR's role and strategic importance in an organization. The emphasis is that HR is not a standalone activity and the ownership of HR should belong to the line/business managers and HR professionals are their strategic partners.

Some specific topics of this course include: aligning HR with strategy, HR planning and staffing; HR forecasting process, ascertaining HR supply, succession management, IT for HR planning, downsizing and restructuring, staffing for international operations, among others.

This course is of importance to those with interests in the field of HRM as well as to managers in all functional areas of an organization who need to build and develop the KSAs to effectively manage people. Organizations gain sustainable competitive advantage through people thus making HRM an important partner in the strategic planning and decision-making process. By the end of this course, you will gain an understanding of why effective HR practices are critical to the success of any organization and the strategic planning role that HR professionals now play in organizations.

B. Scope: The course is designed to help HR managers plan and make decisions about the allocation of resources for effective management of people in organizations, within a given strategy. It deals with making the inventory of current utilization, finding out/forecasting manpower requirements, understanding manpower supply and procurement plans both for domestic and international operations.

C. Course Objectives: The objectives of this course are -

- ✓ To focus on how HR can create an alignment with business strategy and contribute to business performance.
- ✓ To understand the impact of the external environment on staffing.
- ✓ To understand the strategic importance of staffing.
- ✓ To develop a workforce plan.
- ✓ To evaluate the current issues and methodologies used in workforce planning.

THE ICFAI FOUNDATION FOR HIGHER EDUCATION
(Deemed-to-be-University Under Section 3 of the UGC Act, 1956)

- ✓ To compare decision-making models.
- ✓ To explain the interdependence of staffing with other HRM functions.
- ✓ To provide linkage of business strategy to HR strategies-policies and systems.
- ✓ Discuss current issues in staffing.
- ✓ To create practical understanding of an organization strategy with HR planning to create sustained competitive advantage.
- ✓ To help appreciate how HR Planning is critical to the firm's survival and its relative success.

D. **Course Outcomes:** At the end of the course, the student would have an understanding of -

- ✓ The strategic role and importance of HR planning and staffing in alignment with the business goals and strategies.
- ✓ Formulating effective staffing strategies and solutions for different organizations.
- ✓ Evaluating and critiquing various staffing and selection methods and recommend suitable strategic choices in an organization.
- ✓ Conducting competency-based interview and evaluating interview performance.
- ✓ Making strategic employment decisions and gauge effectiveness of the staffing systems.

Note: Session no.11 and 22 are meant for internal evaluation. Project evaluation will be spread over several classes, the schedule for which will be circulated in advance.

I. Evaluation Components

Class Participation: Students shall be evaluated on class participation (CP) once during the semester. CP shall have a weightage of 10 Marks and shall be finalized and submitted at the end of 33rd session respectively.

Non-Class Participation: Internal assessment will

S.N	Component	Weightage
-----	-----------	-----------

be conducted thrice during the semester. The first Internal test will be held in the 11th session. The second Internal test will be held in the 22nd session. Although the Project evaluation will be spread over several classes from Session 23 to 32, the third internal assessment/submission/presentation will be held in the 33rd Session. The details of the components are as follows:

NCP-1: Descriptive Test: 20 Marks
 NCP-2: MCQ Test (Online/Offline): 20 Marks
 NCP-3: Project: 10 Marks

1	Class participation	10%
2	Non-Class Participation	50%
3	End Semester Exam	40%
Total		100%

Comprehensive Examination: A comprehensive examination of three hour-duration will be held at the end of the semester for 40 Marks.

Attendance: It is mandatory for a student to achieve minimum attendance stipulated in the academic regulations. A student has to attend all the continuous assessment components and other evaluation components conducted by the School/University.

J. Academic Integrity Policy: Cheating, fabrication of submitted work, plagiarism and other forms of dishonesty are viewed seriously. Any violation of this nature will invite penalty which may amount to award of zero marks.

K. Conduct:

- a. Students must report to the sessions well before the scheduled time. *Latecomers will not be permitted to enter the class.*
- b. It is *mandatory to study the case in advance and actively participate in the discussion.*

- c. It is *mandatory to have the case study in hand during class-room discussion*. Those who do not have hard copy of case study will not be permitted to sit in the class and will be marked absent.
- d. In the class discussions students are expected to participate actively and contribute to individual and group learning. Evaluation for CP is based on active participation.
- e. Wherever applicable, group assignments require each student to contribute to the group effort. This enhances group effectiveness and leads to greater appreciation of working in groups.
- f. Dressing: Formal.
- g. Do not roam in the academic areas.
- h. Do not attend classes in chappals/shorts/informal t-shirts.
- i. Students are expected to show high regard and appreciation for in-class discipline and *desist from using mobile phones*.

Course Code: SLHR607

Course Name: Performance Management & Reward Systems

Course Objective: This course is designed to make the students well-equipped on the front of managing the performance of workforce on business lines by mitigating the evils in the course of action. Precisely, the issues connected with keeping the employees satisfied with proper compensation packages, incentives, rewards etc as a form of recognition of their talent and performance.

Learning Outcomes: At the end of the course a student is expected to understand the basic objectives behind the performance management systems that are being evolved in corporate premises. The basic postulates concerning the process of appraising the performance of employees in line with expectations set forth by the firm would be grasped by the students. The balancing of employees' priorities and organizational preferences could be identified in the process of PMS and the students can easily manage the payroll functionalities and employees assessment procedures on strategic lines.

Evaluation Timelines

Keeping in line with continuous evaluation at IBS the following schedules have been drawn. Students are expected to go through the dates / sessions mentioned and prepare accordingly.

Component	Component Number			Weightage
Class Participation	1			10
Non Class Participation	1 (Test.1)			20 (MCQs)
Non class participation	2 (Test.2)			20 (Descriptive)
Non Class Participation	3 (Test.3)			10 (Mini Project Presentations)
End exam	At the end of the semester			40
	Total			100

*All NCPs will be done through Online/Offline mode only in the class room or Lab depending on the possibilities. (In case if we prefer online it will be intimated to students)

THE ICFAI FOUNDATION FOR HIGHER EDUCATION
(Deemed-to-be-University Under Section 3 of the UGC Act, 1956)

Performance till Midterm will be announced by end of session No. 16 in each course which means each student will know his / her performance in one CP and two NCPs. The final result will be declared after the end examinations. Before the student takes the end examination he / she will be aware of the progress in each course up to an extent of 60 marks. Students not taking the evaluation according to the timelines mentioned above will not be given another opportunity excepting in rare circumstances of extreme illness or hospitalization.

Course Code: SLHR608
Course Name: Training and Development

Course Description:

Human resource development encompasses three components viz., education, training and development. It aims at enhancing abilities and motivating people to positively contribute towards superior performance at individual, group and organizational level. Innovative training and development practices would help in better financial performance of organizations. It also helps in meeting the competitive challenges. When customers demand high quality of products and services, constantly updating the knowledge and skills of employees is the only solution.

This course deals with the various aspects of the Training and Development (T&D) function from needs identification to training evaluation and future trends in training. It deals with the three major phases in training like Pre-training, Training and Post-training. It also deals with the Trainer's role, attitude, personality, etc. Students can gain insights into various Training methods, Training models and Evaluation methods.

Course Objectives:

The objectives of the course are to:

- Familiarize students with the core concepts of training and development.
- Explain students the process of training and development in line with current practices by organizations
- Introduce students with specific training processes such as needs assessment, design, training methods and evaluation models in greater detail
- Be acquainted with various tools and techniques available for making T & D more effective.

Learning Outcomes:

The learning outcomes are:

- To ensure students understand the basic concepts in training and development and appreciate the different processes involved in T&D.
- Acquire competencies to design & execute training and development programs independently
- Strike rapport between precept and practice and deliver results to audiences—both in academia and industry

Recommended Text Book:

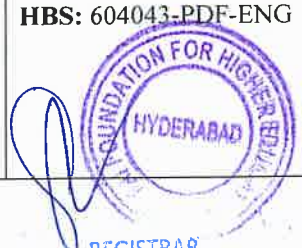

- Blanchard, P. Nick, Thacker, James, and Ram, Anand V. (2019). Effective Training: Systems, Strategies and Practices. Pearson Education, 5/e

Conduct

- ii. Students must report to the sessions well before the scheduled time. *Latecomers will not be permitted to enter the class.*
- jj. It is *mandatory to study the case in advance and actively participate* in the discussion.
- kk. It is *mandatory to have the cast study in hand during class-room discussion.* Those who do not have hard copy of case study will not be permitted to sit in the class and will be marked absent.
- ll. In the class discussions students are expected to participate actively and contribute to individual and group learning. Evaluation for CP is based on active participation.
- mm. Wherever applicable, group assignments require each student to contribute to the group effort. This enhances group effectiveness and leads to greater appreciation of working in groups.
- nn. Dressing: Formal.
- oo. Do not roam in the academic areas.
- pp. Do not attend classes in chappals/shorts/informal t-shirts.
- qq. Students are expected to show high regard and appreciation for in class discipline and *desist from using mobile phones.*

Course Code: SHHR615
Course Name: Industrial Relations & Employment Laws

THE ICFAI FOUNDATION FOR HIGHER EDUCATION
 (Deemed-to-be University Under Section 3 of the UGC Act, 1956)

Course Objective:

This course is designed to facilitate working knowledge of industrial relations and employment laws from a managerial perspective and to enable students to interpret and apply these laws.

Prescribed Text Books:

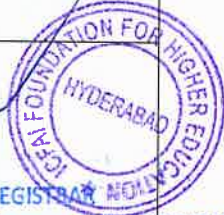

1. Handbook of Industrial Law, N.D. Kapoor, Sultan Chand and Sons, 2018
2. Industrial Relations Second Edition, C.S. Venkata Ratnam and Manoranjan Dhal, Oxford University Press, 2018

Suggested Readings:

1. Industrial Relations and Labour Laws, Piyali Ghosh and Shefali Nandan, McGraw Hill, 2017
2. Industrial Relations and Labour Laws, Arun Monappa, Ranjeet Nambudiri and Patturaja Selvaraj, Tata McGraw Hill Education, 2017
3. Labour and Industrial Laws, P K Padhi, PHI Learning, 2017
4. Industrial Relations and Labour Laws, S C Srivastava, Vikas Publishing, 2012
5. Industrial Relations, Trade Unions and Labour Legislation, P.R.N. Sinha, Indu Balaand Seema Priyadarshini, Pearson Education, 2017
6. ILO working paper series
7. Labour Law Reporter
8. Indian Journal of Industrial Relations

Course Outline:

Topic	Learning Outcomes	Cases/Exercise
Introduction to industrial relations and employment laws	<ul style="list-style-type: none">• Explain the changing aspects of industrial relations and the new economic and employment trends that are emerging.• Understand the essential concepts of industrial relations and their interrelationship at the personal, organisational and national levels.• Explain the different approaches to Industrial Relations• Understand the importance of possessing the knowledge of employment laws and the linkage of these laws with management of the organization.	Discussions and case: A popular HR Chief Burned to Death, People Management Dynamics at the Indian Subsidiary of Suzuki LtdHK 1081 Hongkong University - HBR case study
The Factories Act, 1948 – <ul style="list-style-type: none">• Health• Safety• Welfare• Working Hours• Employment of Women• Penalties and procedures	<ul style="list-style-type: none">• Describe the importance of the Act.• Explain the provisions related to health, safety, welfare and working hours in the act• Develop awareness about the regulatory environment and coverage of various statutory measures under the act	Discussions Practical problems from the text book – Industrial Law by N. D. Kapoor Case: IKEA Global Sourcing Challenge : Indian Rugs and Child Labor (A) HBR Case Study

<p>The Employees/ Workmen Compensation Act, 1923</p> <ul style="list-style-type: none"> • Fatal Accidents Act, 1855 • The Employers' Liability Act, 1938 • Compensation and distribution of compensation 	<ul style="list-style-type: none"> • Understand employer's liability for compensation and amount of compensation • Describe the procedure for compensation 	<p>Discussions</p> <p>Practical problems from the text book – Industrial Law by N. D. Kapoor</p>
<p>The Employees State Insurance Act, 1948</p> <ul style="list-style-type: none"> • Administration of the Scheme • Role of Inspectors • Contributions • Benefits • Penalties 	<ul style="list-style-type: none"> • Describe the administrative arrangements for the ESI Act and contributions • Explain the benefits and compensation provided by the ESI Act 	<p>Discussions</p>
<p>The Employees Provident Funds and Miscellaneous Provisions Act, 1952.</p> <ul style="list-style-type: none"> • The PF Scheme 1952 • The Pension Scheme 1995 • Administration of the Scheme • Role of Inspectors • Penalties and Offences 	<ul style="list-style-type: none"> • Explain the major provisions of the Employee Provident Fund Scheme, Employee Pension Scheme and the Employee's Deposit Linked Investment Scheme • Calculate the opening balance, contribution, interest rate for the EPF account • Describe the conditions and procedure of withdrawal of Provident Fund 	<p>Case - Employee Provident Fund Scheme - Boon Or Bane? – HBR Case Study (New Case)</p> <p>Discussions</p> <p>Saradha group's Chairman Mr.Sudipto Sen gets 3 years imprisonment for defaulting on depositing the provident fund dues of employees – Web source</p> <p>Mohammed Kutti v. Reynolds pens Vs Regional PF commissioner - Web source</p>
<p>The Payment of Gratuity Act, 1972</p> <ul style="list-style-type: none"> • Payment of Gratuity • Compulsory Insurance • Protection of Gratuity • Role of Inspectors • Penalties and Offences 	<ul style="list-style-type: none"> • Describe the objectives and importance of the act • Calculate gratuity on the basis of last drawn wages and completed years of service 	<p>Discussions</p> <p>Can Gratuity be withheld?</p> <p>Mahanadi Coalfield Ltd Vs Ravindranath</p>
<p>The Payment of Wages Act, 1936 and Payment of Minimum wages Act, 1948.</p> <ul style="list-style-type: none"> • Rules of payment of wages • Maintenance of Registers and Records • Penalty and offences • Minimum Wage Act 	<ul style="list-style-type: none"> • Explain the wage system in India and the relevant key legislations • Explain the provisions of the Payment of Wages Act, 1936 • Explain the provisions of the Minimum Wages Act, 1948 	<p>Discussions</p>  <p>THE ICFAI FOUNDATION FOR HIGHER EDUCATION (Deemed-to-be-University Under Section 3 of the UGC Act, 1956)</p>

<p>The Industrial employment (Standing Orders) Act, 1946 and the Contract Labour (Regulation and Abolition) Act, 1970</p> <ul style="list-style-type: none"> • Draft Standing orders • Certification of Standing orders • Responsibility of contractors • Penalties 	<ul style="list-style-type: none"> • Understand the mutual obligations of employers and employees in the context of employment relationships • Explain the essential ingredients of the Industrial Employment(Standing Orders) Act, 1946 and Contract Labour (Regulation and Abolition) Act, 1970 • Explain the significance of standing orders for guiding employment relationships 	<p>Discussions and drafting Standing Order. (Exercise)</p> <p>Contract Labour at Regency Hospital: Legal and HR Dynamics - HBR Case</p>
<p>The Apprentices Act, 1961.</p> <ul style="list-style-type: none"> • Contract of Apprenticeship • Training Rules • Obligations of employers and Apprentices • Penalties and offences 	<ul style="list-style-type: none"> • Explain the objectives and importance of the act • Describe the group of industries covered under the act, designated trades and apprenticeship rules 	<p>Discussions</p>
<p>Maternity Benefit Act, 1961 and the Maternity Benefit (Amendment) Act, 2016. The Sexual Harassment of Women at Workplace (Prevention, Prohibition and Redressal) Act, 2013 Payment of Bonus Act, 1965</p>	<ul style="list-style-type: none"> • Describe the objectives and scope of the acts • Explain the importance and major provisions of the Acts 	<p>Discussions</p>
<p>Industrial Relations - Concepts, Perspective and Globalization.</p>	<ul style="list-style-type: none"> • Understand the interaction pattern among labour, management and state • Identify the various components involved in the economic, political and social circumstances governing industrial relations. • Explain the impact of globalization on industrial relations 	<p>Discussions and Case: Parental Impositions - text book case – Industrial relations by Venkataratnam)</p>
<p>Trade Union Act, 1926. Trade Unionism – Theoretical foundations and legal framework: Concepts, History, Objectives, Functions, Types, Structure, Trends, and Challenges.</p>	<ul style="list-style-type: none"> • Understand the theoretical foundations of the trade union movement • Describe the emergence, history and growth of trade unions in India • Explain the procedure for recognition and registration of trade unions 	<p>Discussions and Court rulings - Supreme court judgment in case of Tamil Nadu government employees strike – Web source</p>
<p>Collective Bargaining – Patterns, Process, legal framework, negotiations, stakeholders, issues and concerns.</p>	<ul style="list-style-type: none"> • Understand the concept and nature of collective bargaining • Describe the legal framework of collective bargaining • Understand the process and techniques of collective bargaining at the national, industrial and organizational levels. 	<p>Discussions and Case: Collective bargaining: GM – UAW deal (CDC)</p>
<p>The role of Government in Industrial relations: Philosophy, Types, Instruments, State intervention, challenges.</p>	<ul style="list-style-type: none"> • Understand the importance of the role of Government • Understand the different types of legal and institutional state interventions and the means by which governments intervene • Analyse the role of the state in the context of economic liberalization 	<p>Discussions and Case: Power sector reforms leave employees in the lurch (text book case) Chapter 10 – Industrial Relations by Venkataratnam</p>

Employee Grievance: Causes, consequences and redressal mechanism	<ul style="list-style-type: none"> Understand the legislative backdrop of the grievance procedure in the organization Understand the redressal mechanism 	Discussions
Discipline and Disciplinary Action: Causes, consequences, principle of natural justice.	<ul style="list-style-type: none"> Understand the importance of discipline and disciplinary action requirement in the organization. Understand the policy and procedure to be adopted 	Discussions and Court case. Amar Chakravarty Vs Maruti Suzuki – Supreme court judgment. Web source.
Workers participation in management.	<ul style="list-style-type: none"> Describe the requirement for workers participation in the decisions. Explain the various means of worker's participation in management 	Discussions and Case Individual Enterprises (text book case) Industrial Relations by Venkataratnam
Industrial Disputes Act, 1947 <ul style="list-style-type: none"> Conciliation Machinery Adjudication Machinery Role of National Tribunal Strikes and Lockouts Lay-off and Retrenchment Unfair labour practices Penalties 	<ul style="list-style-type: none"> Describe the nature of industrial conflicts and the factors leading to it Understand the causes and consequences of industrial conflicts Understand the legal framework for dealing with industrial and individual disputes. 	Discussions and Case Labour Dispute at Dr. Reddy's: Tip of the Iceberg in a Globalization Effort – HBR Case
Recent amendments to the Labour Laws <ul style="list-style-type: none"> The Payment of Gratuity (Amendment) Act, 2017 The Payment of Wages (Amendment) Act, 2017 Maternity Benefit (Amendment) Act, 2016 	<ul style="list-style-type: none"> Analyze the recent amendments and the changing dynamics in industrial relations and employment laws 	Discussions

Evaluation Timelines:

Keeping in line with continuous evaluation at IBS the following schedules have been drawn. Students are expected to go through the dates / sessions mentioned and prepare accordingly.

Component	Component Number		Weightage
Class Participation	1		10
Test	1		20
Test	2		20
Test	3		10
End exam	At the end of the semester		40
	Total		100

Before the student takes the end examination he / she will be aware of the progress in each course up to an extent of 60 marks. Students not taking the evaluation according to the timelines mentioned above will not be given another opportunity excepting in rare circumstances of extreme illness or hospitalization.

Course Code: SLHR612
Course Name: Competency Mapping and Assessment

Course Objective:

This course is designed to:

- Understand the fundamentals of competency management
- Understand the process and techniques of competency mapping and developing competency models.
- Understand the concept of the assessment centre, identification and design of competency assessment tools.
- Understand integration of competency profiling to other HR applications

Learning Outcomes:

- Understand the theoretical perspectives of competency management
- Develop competency based studies
- Develop competency models
- Develop and administer assessment centre exercises
- Integrate competency based HR practices into the organizational processes

Recommended Text Book:

1. Competence at work: Model for superior performance; Spencer & Spencer, Wiley India Pvt. Ltd.
2. The Handbook of Competency Mapping: Understanding, Designing and Implementing Competency Models in Organizations, Seema Sanghi ,Sage Publications

Reference Books:

1. 360 degree feedback, competency mapping and assessment centres, Radha R Sharma, Tata McGraw-Hill Publication.
2. Assessment Centres, Nitin Sawardekar, Sage Publication
3. Competency Based HRM, Ganesh Shermon, Tata McGraw-Hill Publication.

The evaluation broadly falls into the following scheme:

Table
Suggested Weightages of Different Evaluation Components

S.No.	Components of Evaluation	Weightage (%)
1.	Objective tests (MCQs)	20
2.	Written Tests	20
3.	Project/ Seminar	10
4.	Class Participation	10
5.	Comprehensive Examination	40
	Total weightage	100

Schedule for Evaluation Components:

Objective test (MCQs) will be conducted in the 11th session of the course.

Written test (Descriptive) will be conducted in the 20th session of the course.

Project/Seminar: The students are required to use one of the competency mapping techniques in a project, present, and submit the report in the 33rd session.

Course Code: SLHR602
Course Name: Strategic HRM

I. COURSE OBJECTIVES

- To provide linkage of business strategy to HR strategies-policies and systems.
- To equip the students with tools and techniques essential as strategic contribution of HRM to organizational success.
- To create practical understanding of an organization strategy with human resources management function to create sustained competitive advantage.
- To focus on how HR can create an alignment with business strategy and contribute to business performance.
- To help students appreciate how HRM is critical to the firm's survival and its relative success.

II. COURSE LEARNING OUTCOMES

At the end of the course, the student would have an understanding of -

- Relevance of SHRM in managing the organizations in 21st century.
- Design and develop HR strategies that facilitate and contribute to corporate strategy.
- Critically evaluate HR principles and systems in place and ensure they underpin HR strategy required for corporate strategy.
- Critically appraise the strategies for maximizing and maintaining HR productivity.

- Analyse the integration of organisational processes, systems, structures and culture for use in strategic decision-making pertaining to HRM.
- Formulate and implement fair and ethical employment practices.
- Distinguish between effective and ineffective leadership styles, and propose effective leadership styles to facilitate innovation within the organization.
- Demonstrate an in depth understanding of the principles underlying strategic resourcing, reward management, performance management, learning and development.

III. TEXTBOOK

- Strategic Human Resources Management by Jeffrey A. Mello, Cengage Learning.

IV. SUGGESTED READINGS

- The HR Scorecard by Becker, Brian E, et al. HBS Press.
- Aligning human resources and business strategy: The key to improved Business Performance by Dreher, George F./ Dougherty, Thomas W. Tata McGraw Hill.
- Handbook of strategic HRM by Armstrong Michael/ Baron Angela, Jaico Publishing House.

V. EVALUATION COMPONENTS

Class Participation: Students shall be evaluated on class participation (CP) once during the semester. CP shall have a weightage of 10 marks and shall be finalized and submitted at the end of 33rd session.

Tests Three internal assessment tests will be conducted during the semester. Details of the test are given in the **Table 1**. Schedule for the test would be announced in advance.

Comprehensive Examination: A comprehensive examination of three hour-duration will be held at the end of the semester for 40 marks.

Attendance: It is mandatory for a student to achieve minimum attendance stipulated in the academic regulations. A student has to attend all the continuous assessment components and other evaluation components conducted by the School/University.

#	Component	Weightage
1	Class Participation	10%
2	Test 1: Descriptive/MCQ Test	10%
3	Test 2: MCQ/Descriptive Test	20%
4	Test 3: Project Work	20%
5	End Semester Exam	40%
Total		100%

Academic Integrity Policy: Cheating, fabrication of submitted work, plagiarism and other forms of dishonesty are viewed seriously. Any violation of this nature will invite penalty which may amount to award of zero marks.

VI. CONDUCT

rr. Students must report to the sessions well before the scheduled time. *Latecomers will not be permitted to enter the class.*

ss. It is mandatory to study the case in advance and actively participate in the discussion.

REGISTRAR
 THE IGCN FOUNDATION FOR HIGHER EDUCATION
 (Deemed-to-be-University Under Section 3 of the UGC Act, 1956)

- tt. It is *mandatory to have the cast study in hand during class-room discussion*. Those who do not have hard copy of case study will not be permitted to sit in the class and will be marked absent.
- uu. Students are expected to participate actively in classroom discussions and contribute to individual and group learning. Evaluation for CP is based on active participation.
- vv. Wherever applicable, group assignments require each student to contribute to the group effort. This enhances group effectiveness and leads to greater appreciation of working in groups.
- ww. Dressing: Formal.
- xx. Do not roam in the academic areas.
- yy. Do not attend classes in chappals/shorts/informal t-shirts.
- zz. Students are expected to show high regard and appreciation for in class discipline and *desist from using mobile phones*.

Course Code: SLHR604
Course Name: Global HRM

Course Objective:

The course is designed to give students a practical overview of the Global Human Resources function in a contemporary business organization. The course will focus on current International Human Resources programs and practices used in the best global business organizations. Information from outside CEOs and human resources executives, along with cases will be used to demonstrate practical issues in Global Human Resources management. Students will gain practical management knowledge as to how Human Resources functions operate in Global business organizations.

Learning Outcomes:

When you have completed this course, you should be able to analyze the use of Human Resource Management principles in your own organization, and perhaps introduce them; in addition you will be able to

- identify and discuss the main tasks associated with HRM
- assess the main perspectives on management and explain their relationship to HRM
- explain the importance of the cultural context for HRM
- discuss the challenges that multi-national corporations face in managing HR in some major economies
- evaluate the importance of parent–subsidiary relationships in relation to HRM
- assess the extent to which multi-national corporations have the freedom to impose common approaches to HRM in their international operations
- embed organizational learning and knowledge within the strategic GHRM function
- discuss the challenges of managing culture within an international joint venture
- examine expatriation from the perspectives of both the parent company and the overseas subsidiary/partner

Performance till Midterm will be announced by end of session No. 16 in each course which means each student will know his / her performance in one CP and two NCPs. The final result will be declared after the end examinations. Before the student takes the end examination he / she will be aware of the progress in each course up to an extent of 60 marks. Students not taking the evaluation according to the timelines mentioned above will not be given another opportunity excepting in rare circumstances of extreme illness or hospitalization.

I. Case Preparation

Preparing for class discussion of cases is likely to require significantly more effort than you might anticipate. Be assured, however, that your effort preparing cases will significantly improve your ability to participate in class discussions.

- Try first to get a quick sense of the whole case. What can you learn from the title, headings, and outline? What do the introduction and conclusion (if present) reveal about the problem?
- If this is a case requiring a decision, who is the key decision maker? What decision does he/she have to make? What are the objectives of the decision maker? What other actors are there in the case? What are their objectives?
- At this point, it might be helpful to reread the case carefully, underlining or highlighting key facts.
- Try to identify the key problems on a piece of paper. Then go through the case again, sorting out the relevant information for each problem. What are the resources and constraints associated with each problem?
- What are the possible courses of action for the decision maker? Try to identify and rank alternative solutions. What are the likely short and long term consequences of the policies that you have identified?
- You must also bear in mind that most problems will have several acceptable solutions or answers, but it will not always be the case that a perfect solution can be found. At times, even the best solution will still have some unsatisfactory consequences

2. Guidelines for case discussions:

- All students are expected to participate in class discussions. The students will be fully prepared with case and relevant theoretical part from the prescribed text book to engage in active learning through discussion and interaction.
- Please raise your hand and wait to be called before you speak.
- Any candidate can be chosen randomly by the faculty member to answer a question related to the case/chapter; therefore, it is mandatory for every candidate to be ready with the answer. The answers will be evaluated by the Faculty Member
- Do not wait too long to get involved in the discussion. The longer you wait to participate, the harder it may seem to become involved.
- Present your ideas with **conviction** and **care** supporting them with relevant facts in the case.
- Most importantly **listen** to the comments of your classmates. You can compare or contradict the previous point but repetition of points already discussed will
- Students indulging in disruptive behavior during the class will be penalized with negative marks

Course Code: SLHR606

Course Name: Organization Development: Diagnosis and Intervention

Course Objectives:

- To understand the importance of Change and the need to respond to the changes in the industry
- To impart the knowledge of Organization Development concepts, tools and techniques that are meant for improving the functioning of individuals, groups and organizations
- To develop the application of applied behavioral science concepts to the function of the organization

Expected Learning Outcomes:

Upon completion of this course, students are expected to:

22. Develop behavioral science knowledge can be used to develop organizational strategies, structures, and processes.
23. Cultivate a legal orientation towards management of Human Resources and the HRM Processes
24. Apply employee laws while dealing with the problem related to employee and employers
25. Analyze the gaps between theory and practices to enhance the employee relations

Recommended Text Book:

- **Organization Development and Change** by Thomas Cummings and Christopher Worley
Cengage Publications, Dec 2013

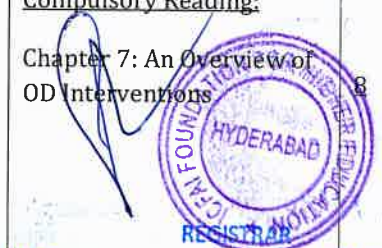

Suggested reference books:

Organization Development: Behavioral Science Interventions for Organization Development, by Wendell L French, Cecil H Bell, --- Pearson publications.

(Deemed-to-be-University Under Section 3 of the UGC Act, 1956)

Keeping in line with continuous evaluation at IBS the following evaluation schedule has been drawn. Students are expected to go through the dates / sessions mentioned and prepare accordingly.

Component	Component Number			Weightage
Class Participation	1			10
Test I	2			20
Test II	3			20
Project report	4			10
End exam	At the end of the semester			40
	Total			100

Course Code: SLHR609
Course Name: Leadership Skills and Change Management

Course Objectives:

- To impart theoretical dimensions of Leadership as an essential element of managerial traits required in the current business scenario.
- To understand different styles, models of leadership generally followed in the past and present times along with external and internal influencing factors they dealt with.
- To equip the students with critical thinking abilities that facilitate the flow of changes happening across the industry to have their positive impact on company
- To manage the changes as part of Leadership style and the permutations and combinations involved in the process for better results.

Expected Learning Outcomes:

Upon the completion of the course a student is expected to

- Understand the basic theoretical postulates of Leadership phenomenon.
- Examine the complexities and contradictions in the exercise of Leadership across various functional domains.

- Follow the change phenomenon and execute the change management strategies suited to the organization with the critical thinking abilities.

Suggested Text Books:

1. Leadership in Organization: by Gary V Yukl
2. Leading Change – by John.P.Kotter

Course Outline:

Topic	SWAYAM Videos	Case
Introduction: Leader & Leadership in organization	https://www.youtube.com/watch?v=1SxxcSTeRc&list=	
The nature of Leadership, Indicators of Leadership Effectiveness,		Leadership for a Changing world- HBR
Conceptualization of Leadership Theories, Other Bases for comparing Leadership Theories		Centre for Creative Leadership :HBR
Managerial Traits & Skills		Text book case: National Products
Nature of Managerial work		Text Book case: Acme Manufacturing company
Effective Leadership Behavior: Ohio state Leadership studies, Michigan Leadership studies , experiments on task and relations behavior		Text Book case: Consolidated Products
Leadership Behavior Taxonomies, Specific Task Behavior , Specific Relations Behavior		Text Book case: Air Force Supply Squadron
Participative Leadership		Text Book Case: Alvis Corporation
Early contingency theories- LPC Contingency Model, Path-goal theory of Leadership, situational Leadership		Text Book Case: Foreign Auto shop Part-1
Leadership substitutes theory, Multiple Linkage model, Cognitive Resources theory		Foreign Auto shop Part-2
Power & Influence, Power types and sources, How Much power leader should have		Theory behind practice- Leadership- HBR
Leader-Member exchange theory, Leader attribution about subordinates, correcting performance deficiencies		Text Book Case: Cromwell Electronics

Follower attribution and Implicit theories, Impression management, Follower contribution to leadership , Integrating roles of leader and followers		Text Book case American Financial Corporation
Charismatic and Transformational Leadership	https://www.youtube.com/watch?v=Nm1bLTfxN-I&index=	Case study- Text Book- Metro Bank Replacement by Video
Change Process in Organizations, Influencing Organization culture, Developing vision	https://www.youtube.com/watch?v=1gVY9hK47WE&index=	CEO- The change agent- ICMR Case Part-1 Replacement by Video
Developing vision, Procedures for developing vision	Result Oriented Leadership	CEO- The change agent- ICMR Case Part-2 Replacement by Video
Implementing change, Guidelines for Leading change		Social Intelligence & Leadership-HBR
Innovations and Organizational Learning		Leadership for Globalization- HBR
Conception of Ethical Leadership; Dilemmas in Assessing Ethical Leadership		Text book case: Unethical Leadership at Enron
Ethical, Servant, Spiritual and Authentic Leadership		Authentic Leadership- HBR
The Nature of teams, Determinants of Team Performance; Leadership in Teams and Decision Groups		Leadership Team-HBR
Leadership in Different Types of Teams, Decision Making in groups		Text book case- Southwest Engineering Services
Strategic Leadership, How Leaders influence organizational performance		Leadership that gets results- HBR
Constraints on Executives, Conditions Affecting the need for strategic Leadership		Text Book case: Columbia corporation
How Leaders influence Organizational performance		Jack Welch and Jaffery Immelt- Continuity and change in strategy, style and culture
Conditions affecting the need for strategic Leadership Strategic Leadership by Executives		Leadership at all levels HBR
Development of Thought Leadership: An Essential		Text Book case Federated Industries

Requirement of Contemporary times. (change incorporated in the light of AOL Process findings of 2017 on Critical Thinking skills rubric)		
Special techniques of Leadership training, Learning from experience, facilitating conditions for Leadership development		Leadership can be Learned- HBR
Cross-cultural Leadership, Cultural value dimensions and Leadership		Text Book Case: Madison, Jones & Conklin
Gender and Leadership, Managing Diversity		Women & Labyrinth of Leadership-HBR
Overview & Integration		Text Book Case: Turnaround at Nissan

Evaluation :

Component	Component Number		Weightage
Class Participation	1		10
Non Class Participation	1 (Test.1)		20 (MCQs)
Non class participation	2 (Test.2)		20 (Descriptive)
Non Class Participation	3 (Test.3)		10 (Mini Project Presentations)
End exam	At the end of the semester		40
	Total		100

Minimum Attendance for CP/NCP evaluation is: 60 % of the sessions during assessment period.

Course Code: SHHR630
Course Name: HR Analytics

Course Objectives:

- Defining Analytics research and HR Application—Advantages of measuring HRM. Consequences of not measuring HRM, Common problems/ Obstacles with HR Analytics.
- To know about the standard HR metrics to measure various facets of HR related outputs and about indices and metrics to measure them.
- To learn practical application of concepts learned through software.

Learning Outcomes:

- Understanding of HR Analytics

- Application of quantitative methods
- Software Usage

Reading Material:

- **Text Book:** Essentials of Business Analytics by Camm, Cochran, Fry, Ohlmann, Anderson, Sweeney, Williams, Cengage Learning Publishers.

Reference Book:

8. How to measure Human Resource Management (3rd ed.)- Fitz-Enz, J. & Davison, B. (2002), McGraw-Hill.

TOPIC	CASE/ ARTICLE/ CONTENTS/ NUMERICALS	LEARNING OBJECTIVES
Introduction to HR Analytics	Introduction to analytics. Importance of HR analytics. Challenges and trends in HR analytics. Analytical methods and models (Descriptive, predictive and prescriptive analytics);	Understanding advantages of measuring HRM, techniques in HRA, common problems/ obstacles with HR analytics.
	Reading Materials:	
	1. HR joins the Analytics revolution, HBR (2014)	
	2. Learning from practice: how HR Analytics avoids being a management fad, Rasmussen, T. & Ulrich, D. (2015), <i>Organizational Dynamics</i> .	
Introduction to HR Metrics	Measuring HR Performance (efficiency & effectiveness), HR Measures (classification, examples, and exercise)	To know about the standard HR metrics. To measure various facets of HR related outputs
	Key HR metrics (Time to fill, Career path ratio, Cost per hire, HR headcount ratio Direct labor cost, Recruitment metrics and Training evaluation model including Kirkpatrick Model), Standards (Introduction to TDRP, CIPD, & Saratoga)	
	Reading materials:	
	1. How to measure Human Resource Management (3 rd ed)- Fitz-Enz, J. & Davison, B. (2002), McGraw-Hill.	
	2. The ROI of Human Capital: Measuring the economic value of employee performance. Fitz-enz, J. (2001). Amacom publishers.	
	Case study:	
	1. Banerjee, P. & Purkayastha, D. (2016). Training Metrics: Calculating Training ROI. ICMR (case code: CLHR/043).	
	2. Priyadarshini, C., Banerjee, P. & Purkayastha, D. (2016). Recruitment Metrics: Calculating Hiring Costs. ICMR (case code: CLHR/042)	
	Other resources:	
	TDRP, Saratoga, & CIPD reports	

Descriptive analytics	Types of data, preparing data (issues with bad data, missing values, data cleaning) Introduction to MS Excel (basic functions), creation of HR Dashboards (slicers, speedometer, pivot table, and advanced functions such as LOOKUP, INDEX, etc.) Overview of Tableau.	Learning to use MS Excel for HR functions
	Reading material:	
	Essentials of Business Analytics by Camm, Cochran, Fry, Ohlmann, Anderson, Sweeney, Williams Video on Dashboards: https://www.youtube.com/watch?v=t6IiCqhfgoU	
	Teaching mode: Practical session (laptop is must)	
Tools and Techniques I	Basic concepts of correlation and regression analysis, ANOVA, t-Test, Chi-square test, and Mann Whitney test using MS Excel & SPSS.	Hypotheses formulation and testing using HR data.
Reading Material: Discovering Statistics with SPSS- Andy Field (e book).		
Tools and Techniques II	Logistic regression, demand forecasting, trend analysis using exponential smoothing using SPSS. Interpreting outputs from SAS and R-commander.	Understanding the application of logistic regression and interpretation of results
Reading Material:		
1. Discovering Statistics with SPSS- Andy Field (e book).		
2. Strategic HR Planning – Monica Belcourt - Chapter 6,7		
Case Study: Sensing (and Monetizing) Happiness at Hitachi (HBS Case No: 418019-PDF-ENG)		
Tools and Techniques III	Normality test, reliability and validity analysis, cluster analysis, and factor analysis	Learning to find out data suitability and categorizing data
Reading Material: Discovering Statistics with SPSS- Andy Field (e book).		
Tools and Techniques IV	Unsupervised learning algorithms using cluster analysis	Applications of unsupervised learning

	Reading Material: Discovering Statistics with SPSS- Andy Field (e book).	algorithms
Tools and Techniques V	Neural networks (Introduction, background, how the human brain works a neuron model, a simple neuron, pattern recognition example, a complicated perceptron, different types of neural networks, network layers and structure, training a neural network, learning process, and neural networks in use) and decision trees in SPSS	Applications of supervised learning algorithms
	Reading Material: Discovering Statistics with SPSS- Andy Field (e book).	

Course Code: SHHR625
Course Name: Managerial Psychology

Course objectives:

It is expected that at the end of the course, the student will have developed the following:

- Understanding of the dynamics of personal and organizational performance through insights from the field of managerial psychology.
- Critically understanding and evaluating the factors that influence effective and ineffective decision making and the application of these factors to business decisions;
- Application of psychological principles and knowledge in the areas of recruitment & selection, training & development, performance appraisal, rewards, retention, conflict resolution, communication, coaching etc.

Topic/Area Covered	Case/Readings	Learning outcomes
Introduction to Managerial Psychology		The student should be able to: 1. Understand what Managerial Psychology 2. Understand the role and skills of managers
Personal effectiveness: Dimensions of personal effectiveness, understanding one's personal effectiveness, increasing personal		1. Describe the concept of personal effectiveness; 2. Identify your own personal effectiveness and category to which they belong, and 3. Identify ways to increase their own personal

effectiveness		effectiveness and help others to enhance their personal effectiveness.
Managerial styles: analysis of different managerial styles and how these may affect others, and the way in which they interact or work towards organizational objectives; Examining individual managerial styles and action for improvement		<ol style="list-style-type: none"> 1. describe various managerial styles 2. identify own managerial style and effectiveness 3. identify key actions to improve managerial style
Role efficacy: Concept of role and role efficacy, Increasing role efficacy		<ol style="list-style-type: none"> 1. Describe the concept of role and role efficacy; 2. Identify the roles that exist for a few personnel in different organizations; 3. Examine the efficacy of their roles 4. Develop specific action points for enhancing role efficacy in different situations.
Cognitive style: Psychological types, Basic preferences, where you find them at work, working with the types	<p>International use of the Myers-Briggs Type Indicator</p> <p>498038-PDF-ENG</p> <p>How Managers minds work</p> <p>74304-PDF-ENG</p>	<ol style="list-style-type: none"> 1. Describe the concept of psychological types and cognitive style 2. Understand one's cognitive style
Leadership style, understanding one's leadership style, Development level of teams, Matching leadership styles to the team's development level, Raising team's development level, Enhancing leadership		<ol style="list-style-type: none"> 1. Identify own leadership style, efficiency and flexibility; 2. Assess the development level of others, and 3. Adapt the appropriate leadership style to different situations to be a more effective leader
Emotions and Managerial effectiveness		<ol style="list-style-type: none"> 1. Understand emotions, intelligence, and combined emotional intelligence (EI) on managerial effectiveness
The manager as a decision-maker: Psychological models of managerial decision-making, Irrational decision making	<ol style="list-style-type: none"> 1. Mr. KLM (A): Jacob Veldhuyzen (ES1171-PDF-ENG) 2. Mr. KLM (B): Captain van Zanten (ES1181-PDF-ENG) 	<ol style="list-style-type: none"> 1. Identify the steps in the analytical model of decision making and distinguish between the various types of decisions that people make 2. Describe different individual decision styles and the various organizational and cultural factors that influence the decision-making process. 3. Identify the various factors that lead people to make imperfect decisions.
Assessing people: The evaluation process, formal methods of evaluation, day to day assessment of people, role of intuition		<ol style="list-style-type: none"> 1. Understanding the process of evaluation 2. Evaluating different assessment methods
Influencing other people: Influence	Harnessing the	<ol style="list-style-type: none"> 1. Apply and suggest in the theories or tactics to achieve a specific goal or solve a specific case

THE ICFAI FOUNDATION FOR HIGHER EDUCATION
 (Deemed to be University under Section 3 of the UGC Act, 1956)

and motivation, emotion, authority, power tactics, manipulation, collaborative models	science of persuasion 7915-PDF-ENG	2. Discuss the details, advantages, problems, and pitfalls of a suggested or analyzed influence strategy
Group decisions, group pressure and the individual, Communication nets, taking groups seriously: designing organizations around small groups		1. Describe the advantages and disadvantages of group decision making 2. Analyze decision biases and understand the dimensions of individual differences in the process
Managing the organization: The Managing process, the volatile organization, organizational missions and strategies, managing people in large numbers		1. Provide a comprehensive evaluation of the organizations environment, discern the relationships between the internal and external environments, and utilize this theoretical approach to promote organizational effectiveness
The changing organizational environment	Eastern Condiments: The Changing Curry Company ISB086-PDF-ENG	1 understand of the overall processes required within the organizational change process including its role in strategic management, 2. analyze and effectively cope with the forces of organizational change internally and externally, 3. develop an understanding of the sources of change resistance and the various methods for coping, 4. examine the role of communications and leadership within the change management processes,
Internal assessment		

Evaluation Timelines

Keeping in line with continuous evaluation at IBS the following schedules have been drawn. Students are expected to go through the dates / sessions mentioned and prepare accordingly.

Component	Component Number	Weightage
Class Participation	1	10
Class Participation	2	10
Class Participation	3	10
Non Class Participation	1	10
Non class participation	2	10
Non Class Participation	3	10
End exam	40	
Total	100	

Class Textbook:

Compilation of readings from several books

Recommended readings:

1. Bahrami, Leavitt, *Managerial Psychology: Managing Behavior in Organizations*, 5th Ed., U. Chicago, 1988
2. Leavitt, Pondy, Boje, *Readings in Managerial Psychology*, 4th edition, University of Chicago, 1988
3. Cialdini, Robert B. *Influence: Science and Practice*. 4th ed. Boston, MA: Allyn and Bacon, 2000.
4. Pareek, U., & Purohit, S. (2010). *Training instruments in human resource development and OD* (3rd ed.). New Dehli: Tata McGraw Hill.
5. Haslam, S. A. (2002). *Psychology in organization*; Sage Publication: Thousand Oaks.
6. Dan Ariely, *Predictably Irrational* (2008; repr., New York: HarperCollins, 2010)
7. Kahneman, Daniel, *Thinking, fast and slow* (Macmillan, 2011).

Course Code: SLHR613
Course Name: Corporate Communication

Need for the module

The role of corporate communication is multi-directional. Corporate communication is required to create a company image that lets the public (both internal and external) know more about the people behind the products and services they are using or investing in. Corporate communication also attempts and solves any irregularities in the company's claims. Coordination with different players in the industry is achieved with corporate communication.

Corporate communication has direct impact on the work and profile of an employee, irrespective of his position in the organizational chart. Every manager needs to understand corporate communication, not only those who are officially in charge of corporate communication or public relations.

Career Prospects

Corporate Communication Executive, Manager, Public Relations Officer. PR Manager, Vice-President or General Manager, Corporate Communication at corporations, non-profit agencies, entertainment, sports & travel, government, education, military

Objectives of the Course

1. At the end of the course, the students will understand how the companies control their public image and craft a consistent corporate voice
2. To know that communication has extended its responsibility beyond traditional areas like media and technology
3. To keep a track of larger social, political, economic and cultural environment in which companies conduct business
4. To understand the impact of managing government and community relations on business reputation and strategy goals

Format of the course

REGISTRAR
THE ICFAI FOUNDATION FOR HIGHER EDUCATION
(Deemed-to-be-University Under Section 3 of the UGC Act, 1956)

The course has been compiled by looking into curricula of various B-Schools, (both Indian and abroad) and referring to various books and publications.

The course broadly will adhere to the IBS format of 3 credits and 33 sessions. The delivery would include case based pedagogy, classroom discussions, assignments and presentations. Industry experts advice and inputs would also be taken into consideration.

Student Learning Objectives

1. At the end of the course, the students will understand how the companies control their public image and craft a consistent corporate voice
2. To know that communication has extended its responsibility beyond traditional areas like media and technology
3. To keep a track of larger social, political, economic and cultural environment in which companies conduct business
4. To understand the impact of managing government and community relations on business reputation and strategy goals

Student Learning Outcomes

At the end of the course, the students will be proficient in the various nuances of the working of the corporate with respect to corporate relations with the stake-holders, handle the media relations effectively and project a positive image of the corporate by maintaining government and community relations

<u>Text and Reference Books</u>	<u>Author/ publication</u>
Corporate Communications – A 21 st century primer	Joseph Fernandez, Response books, a division of Sage publications
Corporate communication – A guide to theory & practice	Joep Cornelissen, 3 rd edition, Sage Publications
Management communication – a case analysis approach	James S O'Rourke IV, 4 th edition Pearson
The power of Corporate Communication	Paul A Argenti and Janis Forman, McGraw Hill

Detailed Syllabus

1. **Corporate communication – A brand new world**
 - a. Roots/ history of corporate communication
 - b. Difference between marketing communication and corporate communication
 - c. Corporate Communication wheel and corporate communication tree
 - d. Corporate Communication Mix
 - i. Primary Communication – communicating products, services, annual reports, staff, investors, customers, society

- ii. Secondary Communication – controlled forms of communication like advertisement and media
- iii. Tertiary communication – word of mouth/ spin
- iv. Strategic importance of Corporate Communication
- e. Tools of corporate communication
 - i. Newsletters – vendors and advisory boards
 - ii. Financial reports – Investors, Analysts, Media
 - iii. Intranet – Employees, Advisors, vendors
 - iv. Social Media
 - v. Press Releases & Press Conferences
- f. Responsibilities of a CC Manager
 - i. Communication Plan, adaptability, anticipation of crisis, media relations, advocacy or lobbying using paid advertising and free publicity, professional ethics

2. Strategic Communication – Internal and External, Oral and written

- a. Speech writing
- b. Stakeholders –how companies promote the pursuit of excellence for employee care, Government, Suppliers, Banks, Customers, Investors, Society
- c. Improving identity, image and reputation from vision to reality
- d. Investor relations – enhancing your company’s health and wealth
- e. Technology driven oral communication – Vodcasts, podcasts
- f. Government relations and corporate philanthropy
- g. Blogs, Email, twitter, facebook, website management

3. Media and Public Relations

- a. Concepts, Structure, Practices & Strategic PR
- b. PR Practices-Planning & Execution
- c. Strategic use of Media for Corporate Communication
- d. Traditional vs new media
- e. New Product Launches
- f. Press Releases
- g. Fragmentation of mass media, development of new media and technology to create communication trends
- h. Company profiling
 - i. Managing content of corporate websites, and/or other external touch points
 - ii. Managing corporate publications – for the external world
 - iii. Managing print media
- i. Current trends, counseling, responsibilities of PR Manager, models of PR
- j. Issues management and conflict resolution
- k. Etiquettes in Social Media
- l. Corporate response to negative news/feedback

OP & IT Area Electives (Semester – III)

Course Code: SLIT609

Course Name: Business Intelligence & Analytics

Course Objectives: This course gives an introduction to the field of business analytics, which extensively use data, statistical and quantitative analysis, exploratory and predictive models, and fact-based management to take decisions and actions. It includes meaning and use of various business modeling techniques like Predictive, Clustering and Association techniques. Text and web mining methods are also discussed along with the application of data mining techniques to business decision making situations. In addition to working with software, students actively participate in the delivery of this course through case and project presentations.

The course will be covered using R, SPSS and SAS

Course Learning Outcomes:

At the end of the course, the student is expected to

- Business problems and to support managerial decision making
- Become familiar with the processes needed to develop, report, and analyze business data

REGISTRAR

THE ICFAI FOUNDATION FOR HIGHER EDUCATION
(Deemed to be University Under Section 3 of the UGC Act, 1956)

- Learn how to use and apply selected business analytics software to solve the business problem
- Hands on handling data using R, SPSS and SAS

Recommended Text Book:

- Data Mining Techniques For Marketing, Sales and Customer Relationship Management, Gordon S. Linoff and Micheal J A Berry, Wiley Third Edition

Suggested reference books:

Expectations from Students

- aaa. Students must report to the respective sessions well before the announced time. Latecomers will not be permitted to join the class after the scheduled time. If late, the attendance for that session will be marked as absent.
- bbb. Read the Case Study / material well prior to the class discussion. He/she is also expected to read the chapter indicated in the course plan as the faculty directs.
- ccc. In the class discussion student is expected to participate actively and contribute to individual and group learning. Evaluation is based on active participation.
- ddd. Evaluation is a continuous process at IBS. Every student needs to be aware of the timelines given in the section below. Absence from these evaluations will mean non awarding of marks in that particular component
- eee. Wherever applicable, group assignments require each student to contribute to the group effort. This enhances group effectiveness and leads to greater appreciation of working in groups.
- fff. Formal dressing is suggested for all students. Do not roam in the academic area/ attend classes in chappals / shorts / informal t shirts
- ggg. Students are expected to show high regard and appreciation for in class discipline and desist from using mobile phones. This disturbs the class ambience and unnecessarily diverts attention of other students as well as the faculty member.
- hhh. Each faculty has been given a scheduled consultation hour. Utilize this time to meet the faculty and clarify doubts if any, seek explanations and get mentored if needed.
- iii. Attendance is compulsory in all sessions. However refer to guidelines in your academic handbook for exceptions.

Evaluation Timelines

Keeping in line with continuous evaluation at IBS the following schedules have been drawn. Students are expected to go through the dates / sessions mentioned and prepare accordingly.

Component	Component Number	Weightage
Class Participation	1	10

Test	1			20
Test	2			20
Test / Project	3			10
End exam	end semester			40
	Total			100

Course Code: SLIT610

Course Name: Business Analysis

Course Objectives: The course is designed to prepare the students to make a career of “Business Analyst”. This course is all about managing the client requirements to execute any project. To execute the project inside organization according to client’s requirement, the Business Analyst needs to gather and manage the requirements with the help of certain tools. These tools give better representation of client’s functional and non-functional requirements to project team. This course discusses about various Business Analysis Techniques to understand Business Systems and shows efficient ways to manage requirements

Course Learning Outcomes:

At the end of the course, the student is expected to

- Understand the significance of Business Analysis and various Business Analysis Techniques.
- Understand the different knowledge areas and techniques used in Business Analysis
- To realize the challenges in current trends of managing business processes for Information System and Software development.

Recommended Text Book:

- *The Business Analyst's Handbook*, Howard Podeswa, PHI Course Technology, Cengage Learning, New Delhi, 2009.

Suggested reference books:

1. A Guide to the Business Analysis Body of Knowledge® (BABOK® Guide) Version 2.0, Kevin Brennan, International Institute of Business Analysis, 2009.
2. Business Analysis – Visualizing Business Processes and Effective Software Solutions, Pradeep Hari Pendse – PHI Learning,
3. UML For The IT Business Analyst, Howard Podeswa, Course technology, Cengage learning
4. Business Analysis Techniques: 72 Essential Tools for success, James Cadle, Debra Paul, Turner, BISL publication, UK.
5. Seven Steps to Mastering Business Analysis, Barbara A. Carkenor, J.ROSS Publishing, USA.
6. Business Analysis, Pradeep Hari Pendse, PHI publications.
7. Business Analysis, Debra Paul, Donald Yeates, James Cadle, BCS Publication, UK.

Evaluation Timelines

Keeping in line with continuous evaluation at IBS the following schedules have been drawn. Students are expected to go through the dates / sessions mentioned and prepare accordingly.

Component	Component Number			Weightage
Class Participation	1			10
Test	1			15
Test	2			15
Test / Project	3			20
End exam	At the end of the semester			40
	Total			100

Course Code: SHOM601

Course Name: Supply Chain Analytics

Course Description:

Recent developments in information and communication have led to the rapid increase of data-driven decision making. Supply chain analytics has become one of the fastest growing business intelligence application areas. The topics covered in this course include supplier analytics, sales and operations planning, location analysis and network management, demand-supply matching, inventory management and sourcing. The primary goal of the course is to familiarize the students with tactical and strategic issues surrounding the design and operation of supply chains, to develop supply chain analytical skills for solving real life problems, and to teach students a wide range of methods and tools -in the areas of predictive, descriptive and prescriptive analytics- to efficiently manage demand and supply networks.

Course Learning Outcomes:

Define supply chain and its management. Define data and data analytics.

Discuss and identify the key goals and performance drivers of the supply chain. Also, define the key supply chain performance metrics.

Data mining of procurement and vendor data. Analyze the data and make appropriate sourcing decisions.

Analyze sales data and make production and inventory decisions.

Develop supply chain network design models. Use excel solver to solve optimization models pertaining to location and other network related decisions.

Discuss waiting line concept and its application in supply chain design.

Discuss various statistical tools used in supply chain planning.

Discuss importance of information in supply chain coordination and collaboration.

Recommended Text Book:

- Chopra S. and Meindl P. (2012). *Supply Chain Management: Strategy, Planning and Operation*, 5th Edition, Pearson Education, USA.
- Feigin G. (2011). *Supply Chain Planning and Analytics: The right product to the right place at the right time*, Business Expert Press, New York, USA.

Course Outline:

Topic	Key Concepts	Swayam links
Introduction (L)	*Overview of Supply Chain Analytics	https://www.youtube.com/watch?v=9FDKcxea3h8&index=5&t=0s&list=PLGit8yny_3ANzZMsJJjeuxMg-S0f0hGcn
Performance Metrics	* Measure of supply chain performance	https://www.youtube.com/watch?v=ZiUCB6HDc8&index=8&list=PLGit8yny_3ANzZMsJ

(N)		JjeuxMg-S0f0hGcn
	* Key costs and performance metrics	
	* fundamental issues and trade-offs	
Inventory Management		
(N)	* Deterministic inventory models (single & Multi period)	
	* p model	
	* q model	
	* Price-break model	
	* Inventory systems	
	* Excel examples	
Waiting lines in supply chain		
(L)	* M/M/1 model	
	* M/M/c model	
Test – 1 covering syllabus from session 1 to session 11. Also CP1.		
Supply chain network design		
(G)	* Modeling supply chain as network	https://www.youtube.com/watch?v=01b11XeMaaw&list=PLGit8yny_3ANzZMsJJjeuxMg-S0f0hGcn&index=23
	* Facility location models	
Optimization in supply chain		
(N)	* Linear programming	https://www.youtube.com/watch?v=slrZqL44e6Q&index=27&list=PLGit8yny_3ANzZMsJJjeuxMg-S0f0hGcn
	* Integer programming	
	* Warehousing and transportation models	
	* Assignment problem	

REGISTRAR

 THE ICFAI FOUNDATION FOR HIGHER EDUCATION
 (Deemed to be University Under Section 3 of the UGC Act, 1956)

	* Use of solver	
	* Sensitivity analysis	
Sales and Operations Planning (N)	* Aggregate sales planning	
	* Material requirement planning	
	* Excel examples	
	Test – 2 covering syllabus from sessions 11 to 21, Also CP2.	
collaboration in supply Chains (G)	* IT requirements for effective supply chain coordination	
	* Aligning supply chain for collaboration	
	* Measures of supply chain collaboration	
	* Use of statistical tools	
Demand Forecasting (G)	* Introduction to demand forecasting	
	* Simple Exponential Smoothing Model	
Use of statistical tools in supply chain planning (L)	* Simple linear regression	https://www.youtube.com/watch?v=l9mEbE3CGBQ&list=PLGit8yny_3ANzZMsJJjeuxMg-S0f0hGcn&index=5
	* Multiple linear regression	
	* Data reduction techniques	
	* Advanced statistical tools	

Test – 3 covering syllabus from session 21 to 32. Also CP3.		

Evaluation Timelines

Course Code: SHOP451

Course Name: Project Management

Course Objectives: In this comprehensive course, you will learn the fundamentals of project management: how to initiate, plan, and execute a project that meets objectives and satisfies stakeholders. This course helps students to explore relevant frameworks, methodologies, techniques and tools that can help in planning, organizing, motivating and controlling processes, material and human resources. Project Management is therefore an art. It is also a science as it provides a systematic approach that enables and supports the art.

Project Management is an essential part of managerial art. To that extent what counts for success in managing projects is a combination of experience and improvisation. Most projects are complex and frequently the resources required for completion within the required time and scope is in flux. The use of frameworks assist the project manager/(s) and his/her team to provide a structure and a system that will bring order to plan, implement and track projects. You will discover the approaches and techniques that make project managers successful, covering topics such as:

- Analyzing stakeholders
- Defining expectations
- Defining project deliverables
- Analyzing scope
- Developing schedules
- Mitigating risk
- Contingency planning
- Establishing and applying effective change controls
- Performance reporting
- Communicating status to project stakeholders

Course Learning Outcomes:

At the end of the course a student is expected acquire conceptual understanding necessary to manage projects.

Recommended Text Book:

- Project management: The managerial process; 6th Ed, Clifford Gray , Eric Larson, Guatam desai McGraw Hill.

Suggested reference books:

- Project Management for Engineering, Business, and Technology: Principles & Practice, John M. Nicholas & Herman Steyn, 4th Edition, Routledge

Course Outline:

PROJECT MANAGEMENT COURSE (SL OM 607)

Topic	Session objectives	Expected Learning Outcomes	Chapter Reading	Case	Digital or software tools used	Video resource

Course Name: Supply Chain Management

Course Objectives:

- To understand the nature of supply chains and trace the historical perspective, leading to their development and growth.
- To discuss the goal of supply chain and explain the impact of supply chain decisions on the success of a firm.

Course Learning Outcomes:

At the end of the course, the student will be able to:

- Understand the significance of Logistics and supply chain management.
- Understand, appraise and integrate the supply chain
- Understand how logistics play an important role in redefining value chain excellence of firm.
- Develop Analytical & Critical understanding, & skills for planning, designing and operation of the supply chain
- Understand firm can achieve competitive advantage through supply chain & Logistics excellence

Recommended Text Book:

- Supply Chain Management: Strategy, Planning and Operation, Sunil Chopra, Peter Meindl and Dharam Vir Kalra, 6th Edition, Pearson Education, Delhi

Suggested reference books:

- Designing and Managing the supply Chain, Simchi Levi, David Simchi Levi, Philip, 3rd Edition, McGraw Hill International edition.
- Exploring the Supply Chain theory and Practice, Upendra Kachru, 1st Edition, Excel Books New Delhi.

7	End-Term Exam	40%

Course Code: SLOM601

Course Name: Service Operations Management

Course Objectives:

- To develop an understanding of the underlying processes involved in the creation and delivery of services.
- To understand the major issues in the service delivery process and the various parameters required to be assessed before and during the service design process.
- Design and execute competitive service strategies.
- To identify qualitative and quantitative metrics towards assessment of various service parameters to improve the service delivery process.

- To understand and quantitatively identify the efficiency frontier in services using Data envelopment Analysis.

Course Learning Outcomes:

Upon completion of this course, students are expected to:

1. Develop and identify the nature of the service and design the underlying strategy.
2. Apply the concepts related to location, layout, logistics, servicescape, and quality parameters towards optimal managerial decision making.
3. Develop, execute and evaluate the success of service operations programs.
4. Identify the usage of yield management to better the utility of service facilities and enhance productivity.

Recommended Text Book:

- Service Management: Operations, Strategy, Information Technology. James A. Fitzsimmons & Mona J. Fitzsimmons, McGraw Hill Education (8th Edition)

Suggested reference books:

- Service Management and Operations. Cengiz Haksever, Barry Render, Roberta S. Russell & Robert G. Mudrick, Pearson education.
- Service Operations Management. Richard Metters & Kathryn King – Matters and Madeleine Pullman, Thomson-South

Course Outline:

Topic	Learning Outcomes	Case /Reading article/ Lecture / Activity	Chapter Reading
Role of services in an economy	Understand stages of economic development Nature of service sector Role of service manager	Introductory Lecture	1
The nature of services	Understand service classification Identify the service package Understand open view of services	Article: Liljander, V., & Strandvik, T. (1995). The nature of customer relationships in services. Advances in services marketing and management, Vol. 4, No. 141, pp. 67-102.	2

Service strategy	<p>Classifying the services for strategic insights</p> <p>Understanding the competitive environment of services</p> <p>Identification of competitive service strategies</p>	<p>Article: Sparks, L. (2013). Reciprocal Retail Internationalisation: the Southland Corporation, Ito-Yokado and 7-Eleven convenience stores. The Internationalization of Retailing, Routledge, pp. 63-102)</p>	3
Services and information technology	<p>Understanding the technological innovation in services</p> <p>Competitive role of information in services</p>		5
The service delivery system	<p>Understanding service blueprinting</p> <p>Service process designing</p> <p>Identification of optimal routes through vehicle routing – CW Algorithm (constrained and unconstrained)</p>	<p>Article: Shostack, G. L. (1984). Designing Services That Deliver, Harvard Business Review, Jan., Vol. 62 No.1, pp. 133-139</p>	4
TEST-1	Sessions 1 to 10	TEST-1 Chapters: 1,2,3,4,5	
The supporting facility	<p>Understanding design layout, process flowcharting</p> <p>Identification of the parameters of Walk-Through Audit and use as a diagnostic tool</p>		7

Evaluation Timelines

Keeping in line with continuous evaluation at IBS the following evaluation schedule has been drawn. Students are expected to go through the dates / sessions mentioned and prepare accordingly.

Component	Component Number			Weightage
Class Participation	1			10
Test I	2			20
Test II	3			20
Project report	4			10
End exam	At the end of the semester			40
	Total			100

4. Teaching and Evaluation

ICFAI Business School (IBS), Hyderabad has unique and innovative approach to business education that focuses on providing the right knowledge, imparting the right skills for enduring success in management careers, and shaping the right attitudes.

As practice precedes the theory in business, equal emphasis is placed on concepts and applications. This blending of ideas and actions is achieved through various pedagogic techniques like lectures, case studies, business games, simulations and summer internship programs.

What matters in business is what one can actually do. Doing well implies mastering and applying the skills- professional, personal and human-required for effective decision making and execution.

Teaching and evaluation at ICFAI Business School (IBS), Hyderabad are customized to reflect the objectives of MBA program, with each course being delivered in a manner that maximizes the learning experience of students.

Teaching

Case Approach

The case study method is a key component of academic program at ICFAI Business School (IBS), Hyderabad. Almost all the courses in the program are taught through case studies developed by Case Research Centre and Harvard Business School Publishing (HBSP). ICFAI Business School (IBS) Hyderabad has a licensing arrangement with Harvard Business School publishing to use HBSP cases.

A successful manager should be able to identify and frame business problems and move across a variety of organizational, political and geographic boundaries to solve problems. The pedagogy adopted at ICFAI Business School (IBS) Hyderabad chooses to nurture and enhance this skill in the management students. ICFAI Business School (IBS) Hyderabad adopted the student centric learning style and case discussion is the primary pedagogy used in the teaching-learning process. The other tools and resources used at the school include simulation, audio & video clippings, experiential sharing in the form of invited lectures from practitioners, live projects, assignments and internships.

A case is a story or a situation that one encounters in real life careers. Cases illustrate issues and factors and reveal realistic complexities and tensions. Cases compel students to identify the problem on hand and define its context and parameters. It provides an opportunity to reflect on the theoretical framework and underscore prevailing assumptions and principles. It helps the student learn the art of self learning which is required throughout the career. Conceptually, case teaching assumes that learning is more effective if students discover or construct knowledge with faculty guidance than if they sit passively and receive content from a distant "sage on the stage".

Case teaching enhances learning by engaging students in a powerful way. Case teaching actively connects students with course content and shifts responsibility for learning to students. With faculty as their guide, students discover a body of knowledge and master life learning skills.

The case method gives students the vital practice to get their hands around and to formulate possible tools for analysis and resolution. They learn to distinguish relevant and irrelevant information and formulate possible strategies and recommendations for action.

The case method also develops communication skills needed in informal, spontaneous discussions and at professional meetings. Students learn to penetrate the substance of the case quickly and analyze and articulate their conclusions in ways persuasive to others in the group. Students learn to anticipate questions and objections of others and ways to convince their point of view to the group.

Facts, principles and concepts learnt in the course of the case discussion are understood well.

Course Syllabus

The syllabus is comprehensive and is updated regularly based on the inputs from faculty, subject experts, visiting business leaders and accomplished alumni. It also offers the flexibility to focus on specific areas of interest. Core and elective courses along with group projects and autonomous learning allow students to develop their full potential.

The detailed syllabus provides information regarding each course offered in various semesters, the topics to be discussed, learning outcomes and relevant reference books. It also contains a list of case studies to be discussed in each course and the suggested schedule of sessions for classroom instruction and case discussion.

The syllabus for each course is available on SIS. Students should note that the main reference book does not determine the syllabus. It may not cover the entire syllabus and may also include additional topics not mentioned in the syllabus. For this reason, students are strongly advised to refer to the other reference books specified for each course.

Apart from reading course specific books, students are expected to read financial dailies, business magazines and browse relevant websites. An important aspect of ICFAI Business School (IBS) education is developing student ability to apply course based inputs to understand and interpret current events.

The Course Handout: The course handout is given by the faculty to students at the beginning of each course. It provides the detailed schedule of instruction, format and scope of assessment. It is a communication that facilitates effective academic delivery. The Course Handout is an important document that gives students a clear picture regarding the learning objectives, learning outcomes, and other course related information such as pace, coverage, level of treatment, reading assignment, home tasks, components of evaluation, their frequency, duration, tentative schedule, relative weightage of various components and faculty consultation hours.

The faculty plays a significant role in ensuring quality education through interactive teaching, continuous multi criteria evaluation and consistent feedback.

Faculty Consultation: The faculty members for each course will be available for consultation, once a week at a prescribed hour at their cabins. The day and time of consultation is announced in the annexure to the timetable. During this time, students can approach the faculty for clarification of doubts.

Evaluation

IBS Hyderabad follows a continuous evaluation process. The evaluation components used by the faculty may typically consist of surprise quizzes, tests, case discussions, home assignments, project work, seminar etc. The evaluation is evenly spread throughout the semester and the course handout indicates the date when each evaluation component is scheduled as well as the marks allotted for the component. The School conducts comprehensive written exam after conclusion of class room instruction. The evaluation broadly falls into the following scheme:

Table 4.1

Suggested Weightages of Different Evaluation Components

S.No.	Components of Evaluation	Weightage (%)
1.	Written Tests	20
2.	Objective Tests (MCQs)	20
3.	Project/ Seminar	10
4.	Class Participation	10
5.	Comprehensive Examination	40
	Total Weightage	100

The individual weightages for each component may vary depending upon the nature of the course. The faculty members teaching the course may decide weightage for class participation within the range of 0-10%. Wherever possible, the performance of the students in the internal evaluation components will be discussed in the class giving as much detail as possible like the highest, lowest and average performance. The comprehensive examination is conducted after completion of class room teaching. Feedback to the students on internal evaluations will be given on continuous basis. The answer scripts of comprehensive examinations will be shown to the students for verification of marks and marking pattern.

Plagiarism: Presenting other's work/material as one's own is plagiarism. Plagiarism includes reproducing ideas, opinions, theories, graphics, language, quotes (written or oral), facts, statistics and illustrative material, etc., of others without their acknowledgement.

Plagiarism would result in academic action against students leading to:

- a. In the first instance, a written warning.

- b. In case of repetition, cancellation of the registration to the course.

Attendance

Attendance is mandatory for all sessions. Students who fail to achieve a minimum attendance level of 75% in any subject will not be permitted for the comprehensive examination for that particular subject. For students with attendance between 65-74%, the Dean-Academics will recommend to the Director. The Director may at his discretion grant permission to such students based on genuine reasons. In all other cases, students will have to repeat the subject(s) whenever it is offered next, as per the rules that govern such repetition. Those students will be awarded Not Cleared (NC) report for that subject(s). However, the student will be permitted to progress to next semester.

Leaves of Absence:

Generally, students are not encouraged to apply for leave of absence as this will disrupt the momentum of study and may hinder or delay the acquisition of a degree. However on medical, compassionate grounds students have to submit proof of sickness immediately after returning to the campus along with a written application to Dean through Academics Office. The loss of sessions, attendance, evaluation, and examination will not be compensated in such cases.

Leave applications in triplicate can be downloaded online, endorsed by SSD and submitted to Hostels & Security.

Unfair Means

Students must not resort to unfair means during any evaluation component. Any of the following events (inclusive but not exhaustive) will be considered as unfair means during continual evaluation, assignments and comprehensive examinations.

- a. Possessing unauthorized material like notes or small slips in pockets, or on body or in any other form like cell phones, vanity bags and purses, whether used or not.
- b. Copying from other students.
- c. Allowing/enabling other students to copy from one's paper.
- d. Taking or giving any kind of assistance to other students.
- e. Communicating with a student in or outside the examination hall during examination timings.
- f. Referring to any notes, slips or other sources in the restroom.
- g. Visiting any place other than restroom during examination.
- h. Indiscipline and disruptive conduct.
- i. Resorting to any other unfair means to provide or obtain advantage.
- j. Carrying mobile/any smart devices during examination time. (All such devices shall be confiscated).

Use of unfair means would result in academic action against students leading to

- a. Cancellation of student's registration for the subject(s).
- b. Cancellation of registration for subsequent semester.
- c. Disqualification and / or cancellation of scholarship.
- d. Cancellation of academic initiative, facility for late registration, amendment to registration and makeup examinations.
- e. Cancellation of any fee waiver.

Section - 5
Grading Policy

Grading Policy

ICFAI Business School (IBS) Hyderabad does not emphasize on numerical marks as the only absolute indication of student's performance. Thus, at the end of the semester, letter grades A, B, C, D or E are awarded to students for each course based on their overall performance, which is relative to the performance of all students evaluated.

a. Letter Grades

The letter grades have points associated with them in a quantified hierarchy. The letter grades, their applicability and connotation are given below:

Grade	Qualitative Meaning	Grade Point Associated
A	Excellent	10
B	Very Good	8
C	Average	6
D	Fair	4
E	Exposed	2

In order to arrive at these letter grades, the total marks in a particular course for the students pursuing the course are tabulated in a descending order (equivalently a histogram). The performance of the course is analyzed in terms of the average, highest and lowest marks and dividing-lines between the clusters of students. Gaps and dips between the clusters and the nature of the clusters will guide in drawing the dividing lines between the grades

b. Notations

Certain events/facts are reported in the academic record of student by suitable notation. These notations are not to be construed as grades and do not contribute towards the calculation of CGPA. The various events/facts recorded and reported are listed below.

- Grade Awaited (GA)
- Not Cleared (NC)
- Withdrawn (W)
- Registration Cancelled (RC)
- Discontinued from the Program (DP)

Grade Awaited (GA) will be recorded in the academic record of the student in the following cases:

- i. If the faculty has failed to evaluate a student in a course or on a project, assignment or any other component of evaluation on time.
- ii. If a student has not been able to appear for the comprehensive examinations on the scheduled date, due to genuine personal reasons the student may convert the "GA" report into a letter grade by taking up a "make up" examination provided he/she has been permitted to do so.
- iii. If the grading of the student is withheld for any reason.

When "GA" appears in the Grade sheet of the student in the immediately preceding semester, then he/she will not be allowed to register for the subsequent semester until the "GA" is converted into a letter grade.

Not Cleared (NC) will be recorded in the academic record of the student in the following cases:

- i. If a student registered in a course(s)/SIP does not give adequate opportunity to evaluate him/her by remaining absent from most of the continual evaluation components.

REGISTRAR
THE ICFAI FOUNDATION FOR
EDUCATION
(Act, 1956)

- ii. If a student is absent for more than 4 weeks continuously.
- iii. If a student does not meet the minimum attendance criteria of 75% for the course and is not permitted to appear for comprehensive examinations.
- iv. If a student is absent for the comprehensive examinations.

In all these cases, the student will have to repeat the course(s)/SIP whenever it is offered in the regular offering in the next academic year. The student in the subsequent registration will carry "NCR" (NC Repeat) against the grade for the course(s)/SIP in grade sheet and transcript. The student with "NC" notation in a course(s) is not eligible for Summer Term.

Withdrawn (W): An event will be recorded as Withdrawn (W) in the academic record of the student in the following cases:

- i. The student is unable to register for the course(s)/SIP for a genuine personal reason like health problems / family problems or other unavoidable circumstances with information to the campus.
- ii. The student is unable to cope with the normal semester load and withdraws from the course(s) to reduce his/her academic load for a particular semester.

The request for withdrawal should be made within four weeks of the commencement of the semester.

In such cases the grade sheet/transcript of the student will indicate "W" notation against the course(s).

The student will have to re-register for the course(s) in the next regular offering. The withdrawal being within four weeks, the fee paid by the student will be adjusted. If the course with "W" notation is a pre-requisite course, the registration to course(s) of the subsequent semesters will only be possible upon obtaining a letter grade in the course with "W" notation. In case the course with "W" notation is elective course and same is not offered in any academic year, student can opt for any other elective and obtain letter grade.

In case the withdrawal is made after four weeks, the event will be recorded as "NC" (Not Cleared).

Registration Cancelled (RC): An event will be recorded as Registration Cancelled (RC) in the following cases:

- i. Non submission of proof of graduation within October '31 in I Semester.
- ii. Not meeting the eligibility criterion for admission.
- iii. Breach of discipline or unprofessional behavior.
- iv. When disciplinary action is taken against a student for resorting to unfair means during Examination.
- v. Non-payment of fee.

Discontinued from the Program (DP): An event will be recorded as Discontinued from Program (DP)

- i. When the student has failed to Register for a course(s)/SIP on the stipulated dates.

Grade Point Average (GPA)

The GPA is used to describe performance of a student in all courses in which he/she is awarded letter grades for a particular semester. It is the weighted average of grade points of all letter grades received by the student in a semester and is computed as follows:

$$\text{GPA} = \frac{(C_1G_1 + C_2G_2 + C_3G_3 + \dots)}{(C_1 + C_2 + C_3 + \dots)}$$

Where C_1 C_2 C_3 denote Credits associated with the courses taken by the students and G_1 , G_2 , G_3 ... are the grade points of the letter grades awarded in the respective courses. The reports "NC", "GA", "RC", "W" and "DP" will not affect the calculation of GPA.

5.3 Cumulative Grade Point Average (CGPA)

The CGPA is used to describe overall performance of a student in all courses in which he/she is awarded letter grades from first semester till the latest semester. It is the weighted average of grade

THE ICAI FOUNDATION FOR HIGHER EDUCATION
(Deemed-to-be-University Under Section 3 of the UGC Act, 1956)

points of all letter grades received by the student from his/her entry into the program and is computed as follows:

$$\text{CGPA} = \frac{(C_1G_1 + C_2G_2 + C_3G_3 + \dots)}{(C_1 + C_2 + C_3 + \dots)}$$

Minimum Academic Requirements

The regulation for minimum academic requirement has been framed keeping in mind the educational policy of the University, which interlinks and at the same time distinguishes between the performance of a student in a single course and in his/her overall cumulative performance.

Accordingly, the objectives of the minimum academic requirement regulation is to ensure that the student meets minimum standards in majority of the courses pursued and also to alert the student on his/her performance at the end of every semester to enable him/her to improve in subsequent semesters and eventually attain graduation requirements in time.

The details of minimum academic requirements to be fulfilled by the student at the end of each semester are given below:

- i. Should have pursued the named specified courses of program structure
- ii. Should not have withdrawn or discontinued from any specific courses. Should not have NC or RC in any course.
- iii. The cumulative number of D and E grades secured by a student at the end of each semester should not exceed the number given in the table below:
- iv. The student should secure a minimum CGPA of 5.5 at the end of each semester and should always try to maintain grade levels within the table shown below.

Semester	Cumulative No. of D & E Grades	Cumulative No. of E Grades
First	3	1
Second	6	2
Third	8	3
Fourth	10	4

Any deviation will attract provisions of summer term examination or repeating a course or courses under Re-Registration category and progressing to successive semester will be withheld.

At the end of Third Semester: Failure to meet the minimum academic requirement will have the following implications:

- a. The guardian/parents will receive a notice from the campus and the student will have to seek counseling sessions with the faculty mentor he has been assigned to
- b. Student will not be eligible for placement assistance and would be considered as out of placement process.

At the end of Fourth Semester: Student who does not meet the minimum academic requirements will not graduate.

Graduation Requirement

The MBA program consists of a sequence of courses taken over multiple semesters. To complete the program, a student needs to satisfactorily complete the evaluation requirements for all the required courses including summer internship program with minimum required CGPA and grades consideration mentioned herein.

A student is deemed to have fulfilled the graduation completion requirements when the following conditions are satisfied.

- i. The student has to complete minimum 98 program credit units.

- ii. The student has to complete 30 credit courses and SIP
- iii. The student has obtained a minimum CGPA of 5.5.
- iv. The cumulative number of D and E grades of the student should not exceed 10, out of which, the number of E grades should not exceed 4.
- v. The student has obtained A, B or C grade in Summer Internship
- vi. The student has completed the program within seven years from the commencement of the program.
- vii. The student does not have any Fees due.
- viii. The student does not have any disciplinary case pending investigation.

Certification

a. Grade Sheet

Grade sheet is a complete record of courses done, grades obtained by the student, showing GPA and CGPA and other information for a semester. The Grade sheets are issued after each of the semester by the Student Services Department.

Students can obtain duplicate copies of grade sheet on payment of `150 for each copy.

b. Program Completion Certificate

The students who have completed the Program and waiting for results will be given a Program Completion Certificate. This certificate is valid till the date of declaration of results / issue of Provisional Certificate.

c. Transcript

Transcript is chronologically organized information of courses, grades, GPA, CGPA obtained in various semesters during the program which is issued on successful completion of the program. Three Transcripts will be issued to the student on successful completion of the MBA program.

Students can obtain additional transcript on payment of `500 for each copy.

d. Provisional Certificate

Students who fulfill the graduation criteria successfully will be given a Provisional Certificate.

e. The MBA Degree Certificate

Students who fulfill the graduation criteria will be awarded the MBA Degree certificate. Students who wish to request for a duplicate copy of MBA Degree certificate will have to apply for the same along with the prescribed fee and an indemnity bond on `100 stamp paper. Please refer Annexure VII.

Period Completed after Graduation	Fee
Below 5 years	` 1,000
Above 5 - below 15 years	` 3,000
Above 15 years	` 6,000

Section - 6

Summer Internship Program (SIP)

Internship is an important component of education at ICFAI Business School (IBS) Hyderabad. Internship provides a chance to students to bridge the gap in their perception between the academic institution and corporate world. In order to gain corporate exposure the students are supposed to undertake a project in the selected companies.

The students are encouraged to generate SIPs on their own (Self-generated) depending on their contacts. The self-generated summer projects are evaluated by a SIP Committee in terms of quality, standards and learning, location etc. In case the students are unable to generate internships / projects by themselves, IBS assists in generating internships.

Students undertake a 12-week internship at a relevant organization after completing the first year of the MBA program. The SIP, which would be a simulation of real work environment, requires that the students undergo the rigor of corporate environment both in form and substance. In the process, it provides an opportunity for students, to satisfy their inquisitiveness to know more details of working environment, exposes them to team work, leadership qualities, time management, and technical skills. For proper coordination and ensuring organized and smooth conduct, every student would be placed under the guidance of faculty members. Besides, a representative of the industry/organization where the student undergoes the SIP would also guide the students and assist the faculty in monitoring the students' progress. SIP is evaluated for a score of **10 credits** in the overall evaluation.

In case a student pursuing SIP outside Hyderabad does not meet the minimum academic requirement of 5.5 CGPA at the end of second semester the eligible students for Summer Term will have to come to the campus and appear for the Summer Term examinations. It is the responsibility of the student to note this point while opting for SIP outside Hyderabad and has to give an undertaking to this effect and proceed to SIP.

Grading of SIP

On completion of SIP, letter grades will be awarded to students based on their performance. Students who do not give sufficient opportunity for evaluation are awarded NC report. Students with NC report or D or E grades in SIP will have to repeat the internship in the next regular offering on payment of prescribed fee of `15,000. However, these students are eligible to progress to Semester-III.

REGISTRAR
THE ICFAI FOUNDATION FOR HIGHER EDUCATION
(Deemed-to-be-University Under Section 3 of the UGC Act, 1956)

Section - 7

Repeating Courses

Credit Courses

A student, who has not met minimum academic requirements to progress to Semester III or the program completion requirements, has the option to repeat a credit course either in summer term (subject to summer term conditions) or through regular semester to improve the grade. However, students having NC/RC reports in the courses will have to repeat courses only in regular offering to convert the NC/RC reports to letter grades, subject to

- The core course, which the student wants to repeat, is part of the current program.
- The elective course which the student wants to repeat, if not offered, can be substituted with another elective on offer.
- The student has to pay the course repetition fee @ ` 7,500 per course.

The students who have already met the minimum academic requirements to progress to further semester or graduation requirements are not eligible to repeat a course, just for improving the grades.

Make-up Examination

In case a student misses an evaluation component due to genuine reasons, student can be granted a make-up examination for that evaluation component by the faculty. Normally a make-up examination is granted only for written tests. In granting a make-up, the faculty would judge the genuineness of the circumstances under which the student missed the component of evaluation and expected to maintain the record. In this regard, the decision of the faculty will be final. The make-up examination would be held within a week of the test conducted.

In case of make-up for the comprehensive examination the student has to submit an application to the Dean through the Academics Office. The Dean, Academics will recommend to the Director who has the necessary discretion for granting permission in this regard. The make-up examination would be held within 15 days of the completion of the comprehensive examinations.

Summer Term Examinations

Summer Term Examination is offered to students who have not met minimum academic requirements as explained herein.

- A student can register for any four courses out of those where the student procured D and E grades and is falling short of 5.5 CGPA.
- The Summer Term Examinations are offered to students to improve the D & E grades within the prescribed limits and to those who have reasonable chance of progressing to III Semester.
- The grade will be decided on the marks secured only in the Summer Term Examination.

The decision of whether or not to offer the Summer Term Examination for a course in a particular academic year will rest with the School. There is no make-up examination for Summer Term Examination.

Students undertaking SIP outside Hyderabad will have to come to ICFAI Business School (IBS) Hyderabad campus and appear for the Summer Term examinations. The onus of arranging leave from SIP Company for Summer Term Examination rests with the student.

To be eligible for Summer Term, after **second semester** a student must meet the following conditions:

- i. Student who has not met the minimum academic requirements to progress to the third semester having secured cumulative number of not more than 10 D & E grades, out of which, E grades not exceeding 6 and D grades not exceeding 4 at the end of second semester and a CGPA of less than 5.5.
- ii. Provided a student opts for four or less than four Courses from among the D grades and E grades obtained from both first and second semesters.
- iii. Students with more than stipulated D & E grades have to get Re-Registered for these courses in the Regular offering without progressing to next semester.

Students should submit an application form as given in Annexure IV of this handbook along with prescribed fee of ` 2,500 per course by way of a DD drawn in favor of “*IFHE Fee Collection A/c MBA 2018*” payable at Hyderabad to the Controller of Examinations for Summer Term Examinations.

To be eligible for Summer Term, after **semester four** a student must meet the following conditions:

- i. Student who has not met the minimum academic requirements to graduate having secured cumulative number of not more than 14 D & E grades, out of which, E grades not exceeding 8 and under 6 D's at the end of fourth semester and a CGPA of less than 5.5
- ii. Provided a student opts four or less than four Courses from among the D grades and E grades obtained from semester three and four.
- iii. Students should submit an application form as given in Annexure IV of this handbook along with prescribed fee of ` 2,500 per course by way of a DD drawn in favour of “*IFHE Fee Collection A/c MBA 2018*” payable at Hyderabad.

Students with the following academic conditions are **not eligible for Summer Term**

- i. Students who have met minimum academic requirements to progress to the third semester or met the graduation completion requirements.
- ii. Students who have more than 10 cumulative D & Es, out of which, E grades exceeding 6 at the end of second semester and fourteen D grades and E grades put together out of which E grades are exceeding 8 at the end of fourth semester.
- iii. Students with RC or NC remarks, in any course who ought to repeat such courses along with their junior batch. Courses with RC/NC afflictions should be repeated by re-registering for such courses along with junior batch.

Academic Requirement to Progress to Third Semester or to Graduate

After the Second Semester

The student should have secured a minimum 5.5 CGPA.

The cumulative number of D & E grades secured by the student should not exceed 6, out of which there should not be more than 2 E grades and 4 D grades.

After the Fourth Semester

The student should have secured a minimum 5.5 CGPA.

The cumulative number of D & E grades secured by the student should not exceed 10, out of which there should not be more than 4 E grades and 6 D grades.

Course Repetition Fee

Students registering for Credit courses in regular offering will have to pay the course fee of ` 7,500 per course. Students who want to repeat SIP will have to pay `15,000 and students who register for summer term examinations will have to pay `2,500 per course.

Fee & Scholarships

Payment of Fee

The Program fee for the two-year MBA program is payable in five installments and corresponding Hostels and Mess fee in four installments as per the given schedule.

The students will be permitted to register for the semester/SIP only on payment of fee.

The student who has outstanding financial obligations will be flagged as a student in Bad Financial Standing (BFS). The following sanctions will apply to the student till the dues are paid:

- The result will be withheld.
- The student will not be permitted to register for the next Semester.

Program Fee Schedule

Due Date	Installments	Semester No	Amount (₹)
14-Apr-2018	Admission Fee*		*80,000
01-Jun-2018	I	I	**2,44,000
15-Oct-2018	II	II	2,34,000
28-Jan-2019	III	SIP	2,34,000
03-Jun-2019	IV	III	2,34,000
14-Oct-2019	V	IV	***2,35,000
Total			12,61,000

* Non-refundable Admission Fee.

**Includes ` 10,000 refundable Caution Deposit.

***Includes ` 1,000 Convocation Fee.

Students are required to pay the Fee installment as per the due date. All payments are to be made in the form of Demand Draft drawn in favor of "IFHE - Fee Collection A/c MBA 2018" payable at Hyderabad

Demand Draft drawn in favor of "IFHE Fee Collection A/c, MBA 2018" payable at Hyderabad.

*Includes ` 15,000 refundable security deposit.

Bridge Loan Facility

Bridge Loan facility is provided to the students, who are awaiting the sanction of educational loan from the bank. This facility is provided only for the 1st installment of Program fee which falls due on

June 01, 2018 and not for subsequent installments. This facility is provided until the sanction and disbursement of educational loan from the bank. The parent/guardian have to submit four postdated MICR cheques for ` 61,000 each dated 1st June 2018, 1st July 2018, 1st August 2018 and 1st September, 2018. Cheque bouncing will disqualify the student from continuing the program. This facility is applicable for 1st Semester fee payment only. Proof of Bank loan application is mandatory.

Penalties for Late payment of fees

For Fees (Program and / or Hostel) payments beyond the notified due dates the following penalties are attracted. In such cases the late payment of fees should be made along with penalties.

8.3.1. `100 per each day beyond the due date up to 7 days.

8.3.2. `150 per each day from the 8th day to the 14 day beyond due date.

8.3.3. `200 per each day from the 15th day till 30 days from one date. In this category students can also be barred from Academic Sessions, Examinations and Hostels.

Merit Scholarships

For qualifying for any Discretionary (Management discretion) merit scholarships for a given semester the following are the eligibility criteria:

The student should have registered with full payment of all fees on the notified date of Registration of a semester.

There should not be any cases of misconduct, indiscipline or malpractice, against the Student.

There should not be any fee dues.

The student should record a minimum of 75% attendance.

During the course of assessing the top 10 performers in a semester and when a tie occurs between two students for a position, performance in preceding Semester/and/or graduation will be taken in to account.

The above practice is not mandatory and as such the students cannot claim it as a right. However the Academics Department recommends to the management for approval of the same.

Membership in Alumni Association

Students completing the MBA program are eligible to seek membership in the ICFAI Business School Alumni Federation (IBSAF). IBSAF is a society formed for the benefit of ICFAI Business School Alumni. The provisional membership entitles the students to participate in seminars, workshops and conferences organized by IBSAF and participate in the local chapter activities. After completion of the Program, students will be automatically eligible for membership to the IBSAF.
